Matthew B Ridgeway:

Matthew B. Ridgway George C. Mitchell, 2002 Matthew B Ridgway was a significant figure in United States history He commanded the 82nd Airborne Division in the invasion in Europe he succeeded MacArthur in Korea he was the U S delegate to the United Nations he served as Supreme Commander of the Far East and Supreme Commander in Europe He was counselor to four presidents helped found a university research center on national security and was a powerful influence in national affairs for 40 years Using Ridgway s personal papers George Mitchell offers a unique and compelling view of this authentic American hero The Korean War Matthew B. Ridgway, 1986-03-22 In December 1950 General Matthew B Ridgway replaced General Walton Walker as commander of the Eighth Army and in April 1951 he succeeded Douglas MacArthur as supreme commander of the United Nations forces in Korea and supreme commander of the United States Far East Command In this spirited book General Ridgway describes how he took a dispirited army and rebuilt it in a few short months leading it into battle against the Chinese and North Korean forces forcing them back over the 38th parallel and victory It is a book that takes a close look at MacArthur his failings and brilliance and a hard look at the idea of limited war Infused with a humane leader s appreciation for the ordinary fighting soldier Ridgway s history also teaches important lessons about Vietnam and any future conflict Above all he emphasizes We should not involve ourselves in escalating warfare without a specific and attainable goal **General Matthew B. Ridgeway** U S Command and General Staff College, U. S. Command U.S. Command and Staff College, 2014-08-08 General Ridgway s astonishing ability to visualize military campaigns matured based on his leader development the lessons that he learned from failure and from personally mastering operational art During WWII Ridgway commanded the 82nd Airborne Division in Operations HUSKY and NEPTUNE and then the XVIII Airborne Corps in Operation MARKET the Battle of the Bulge and Operation VARSITY This monograph through an investigation into primary sources field orders after action reports and personal accounts reinforced with secondary source analysis demonstrates that Ridgway overcame inadequacy Although he completed all the military education available it was only after the intense crucible of three combat operations that he eventually applied operational art successfully Ridgway achieved tactical success but did not adequately apply operational art for HUSKY NEPTUNE and MARKET Ridgway learned from his failures and progressively improved his application of operational art during the Bulge and VARSITY Not until his fifth experience did he master operational art Within U S Army Mission Command the most important subcomponent of visualization depends on eleven elements of operational art These elements are the template this monograph uses in considering the factors of Ridgway s maturation of operational art Soldier Matthew B. Martin, 1956 Matthew B Ridgway s erindringer Han opn ede utallige udm rkelser for sin indsats under 2 Verdenskrig og Koreakrigen Senere blev han verstkommenderende for NATO The Korean War in History James Cotton, Ian Neary, 1989 *Carriers in Combat* Chester G. Hearn, 2007-06-11 Engaging combat narratives from World War II

Korea Vietnam the Falklands War Desert Storm Bosnia Kosovo Afghanistan and the current Iraq War Razor sharp analysis of the roles of ships aircraft commanders tactics and strategy Aircraft carriers surged into prominence during World War II mainly in the Pacific where the U S and Japan fought history s greatest carrier battles like the Coral Sea and Midway Since then although there have been no engagements between carrier groups carriers have played an important role in world events serving as distant launching pads for attacks on targets around the globe From the first improvised wooden platforms to today s nuclear powered supercarriers Hearn explores how combat experiences have driven the development and use of carriers in the world s navies

Masters of Warfare Eric G. L. Pinzelli, 2022-12-02 In *Masters of Warfare* Eric G L Pinzelli presents a selection of fifty commanders whose military achievements skill or historical impact he believes to be underrated by modern opinion He specifically does not include the household names the Gods of War as he calls them such as Alexander Julius Caesar Wellington Napoleon Rommel or Patton that have been covered in countless biographies Those chosen come from every period of recorded military history from the sixth century BC to the Vietnam War The selection rectifies the European US bias of many such surveys with Asian entries such as Bai Qi Chinese Attila Hunnic Subotai Mongol Ieyasu Tokugawa Japanese and V Nguyen Giap Vietnamese Naval commanders are also represented by the likes of Khayr al Din Barbarossa Francis Drake and Michiel de Ruyter These 50 Masters of War are presented in a chronological order easy to follow with a concise overview of their life and career Altogether they present a fascinating survey of the developments and continuities in the art of command but most importantly their contribution to the evolution of weaponry tactic and strategy through the ages

leader vice president and senator once again **Balancing Risks** Jeffrey W. Taliaferro, 2019-06-30 Great powers often initiate risky military and diplomatic inventions in far off peripheral regions that pose no direct threat to them risking direct confrontation with rivals in strategically inconsequential places Why do powerful countries behave in a way that leads to entrapment in prolonged expensive and self defeating conflicts Jeffrey W Taliaferro suggests that such interventions are driven by the refusal of senior officials to accept losses in their state s relative power international status or prestige Instead of cutting their losses leaders often continue to invest blood and money in failed excursions into the periphery Their policies may seem to be driven by rational concerns about power and security but Taliaferro deems them to be at odds with the master explanation of political realism Taliaferro constructs a balance of risk theory of foreign policy that draws on defensive realism in international relations and prospect theory in psychology He illustrates the power of this new theory in several case narratives Germany s initiation and escalation of the 1905 and 1911 Moroccan crises the United States involvement in the Korean War in 1950 52 and Japan s entanglement in the second Sino Japanese war in 1937 40 and its decisions for war with the U S in 1940 41 **An American Stand** Eric Robert Crouse, 2010-01-01 An American Stand Senator Margaret Chase Smith and the Communist Menace 1948 1972 focuses on the unique perspective of a female Cold Warrior fascinated with the masculine issue of national security Avoiding any sanitization of the ruthless actions of communists abroad this study sheds light on why Smith and a significant number of ordinary Americans maintained strident anti communist views
