gets to say what counts as contemporary art Artists critics curators gallerists auctioneers collectors or the public Revealing  
how all of these groups have shaped today s multifaceted definition Terry Smith brilliantly shows that an historical approach  
offers the best answer to the question What is Contemporary Art Smith argues that the most recognizable kind is  
characterized by a return to mainstream modernism in the work of such artists as Richard Serra and Gerhard Richter as well  
as the retro sensationalism of figures like Damien Hirst and Takashi Murakami At the same time Smith reveals postcolonial  
artists are engaged in a different kind of practice one that builds on local concerns and tackles questions of identity history  
and globalization A younger generation embodies yet a third approach to contemporaneity by investigating time place  
mediation and ethics through small scale closely connective art making Inviting readers into these diverse yet overlapping  
art worlds Smith offers a behind the scenes introduction to the institutions the personalities the biennials and of course the  
works that together are defining the contemporary The resulting map of where art is now illuminates not only where it has  
been but also where it is going      **Cremaster 3** Musée d'art moderne de la ville de Paris,2002 Starring Richard Serra and
