government In the process they helped convince waffling politicians a dismissive public and a largely hostile press to support the women s demand Together they swayed the course of history The Suffragents is proof that the clatter of dishes that America s power brokers were hearing as they sat in their smoking parlors back in the early twentieth century meant more than clean china and emptied ashtrays Someone was cooking up plans The book reveals the careful never before told story of how women carefully calculated and planned their own liberation directing the prominent power brokers in America into action With smooth efficiency and the touch of a novelist Brooke Kroeger shows how the suffragist movement engineered by women from top to bottom cleverly stitched in the involvement of men from all walks of professional and political life directed by women who used neither gun nor blade to direct the men but the weapons of intelligence cleverness and when necessary subterfuge The collaboration in this balance of power between prominent men who invested in the movement and the women who directed them has everything to teach us today James McBride author of The Color of Water A Black Man s Tribute to His White Mother and The Good Lord Bird Not all the suffragists who risked ridicule to march down Fifth Avenue in the big parades touting votes for women wore dresses Brooke Kroeger meticulously documents the largely unsung role of men who publicly supported their wives mothers sisters or lovers in the final dramatic decade of women s seventy year battle for the ballot Linda J Lumsden author of Inez The Life and Times of Inez Milholland and Rampant Women Suffragists and the Right of Assembly Women need men to get the rights they deserve after all men had to vote to let women vote Brooke Kroeger gives us the first history of the Men s League for Woman Suffrage the Gentleman s Auxiliary of the women s movement Eschewing the spotlight they supported gender equality as we all should because it s quite simply the right thing to do With this gift Kroeger gives us back a bit of our history Michael S Kimmel coeditor of Against the Tide Pro Feminist Men in the United States 1776 1990 A Documentary History **Stalin's Letters to Molotov** Joseph Stalin,1995-01-01 These letters from Stalin to his trusted friend and political colleague Molotov constitute a unique historical record of Stalin s thinking both personal and political during a dramatic period of transformation in the Soviet Union Max Perkins A. Remembering Women Differently Lynée Lewis Gaillet, Helen Gaillet Bailey, 2019-05-23 An examination of women's work rhetorical agency and the construction of female reputation Before the full and honest tale of humanity can be told it will be necessary to uncover the hidden roles of women in it and recover their voices from the forces that have diminished their contributions or even at times deliberately eclipsed them The past half century has seen women rise to claim their equal portion of recognition and *Remembering Women Differently* addresses not only some of those neglected it examines why they were deliberately erased from history The contributors in this collection study the contributions of fourteen nearly forgotten women from around the globe working in fields that range from art to philosophy from teaching to social welfare from science to the military and how and why those individuals became either marginalized or discounted in a mostly patriarchal world These sterling contributors scholars from a variety of disciplines rhetoricians historians compositionists and literary critics employ feminist research methods in examining women's work rhetorical agency and the construction of female reputation By recovering these voices and remembering the women whose contributions have made our civilization better and more whole this work seeks to ensure that women's voices are never silenced again

Claude McKay, Rebel Sojourner in the Harlem Renaissance Wayne F. Cooper, 1996-02-01 Cooper paints a meticulous and absorbing portrait of McKay's restless artistic intellectual and political odyssey The definitive biography on McKay Choice Although recognized today as one of the genuine pioneers of black literature in this century the author of *If We Must Die* *Home to Harlem* *Banana Bottom* and *A Long Way from Home* among other works Claude McKay 1890-1948 died penniless and almost forgotten in a Chicago hospital In this masterly study Wayne Cooper presents a fascinating detailed account of McKay's complex chaotic and frequently contradictory life In his poetry and fiction as well as in his political and social commentaries McKay searched for a solid foundation for a valid black identity among the working class cultures of the West Indies and the United States He was an undeniably important predecessor to such younger writers of the Harlem Renaissance as Langston Hughes and Countee Cullen and also to influential West Indian and African writers such as C. L. R. James and Aimé Césaire Knowledge of his life adds important dimensions to our understanding of American radicalism the expatriates of the 1920s and American literature Mr Cooper's most original contribution is his careful and perceptive analysis of McKay's nonfiction writing especially his social and political

commentary which often contained prophetic statements on a range of important social political and historical issues New York Times Book Review

Martyrs of the Early American Left Robert C. Cottrell, 2023-04-12 Intertwining the stories of three leading early twentieth century radical Americans this book presents the enthralling tale of the too short lives of Inez Milholland Randolph Bourne and John Reed It highlights the movements and personal experiences that drew such privileged individuals to the American left willing to sacrifice comfortable circumstances and opportunities As writers and activists the trio became leading spokespersons for feminism sexual liberation unions civil liberties pacifism internationalism socialism anarchism and in Reed's case communism Challenging capitalism patriarchy and the nation state the independently minded Milholland Bourne and Reed possessed a twofold commitment to personal liberation and community With their early deaths they left behind personal models for acting living and thinking afresh One could say they became martyrs to the very movements they championed

Sidney Hook Reconsidered Matthew J. Cotter, 2010-08-25 Afterword by Richard Rorty The current intensification of scholarly interest in the response of American intellectuals to the rise and fall of American and Soviet Communism the Cold War the student movement and Neo Conservatism has brought the controversial and fascinating work of Sidney Hook once again to the attention of scholars of American political thought and culture Beginning his career as the first American scholar of Marxism a leading disciple of John Dewey and an early supporter of Soviet Communism Hook eventually renounced Marxism and came to be one of the most vehement supporters of the Cold War Throughout his long and unquiet life Hook was revered as the heir to Dewey's legacy feared as a fierce polemicist and criticized from all points of the political spectrum The essays in this volume are the outcome of a centennial celebration honoring his life and career In addition to some of his former

students colleagues allies and adversaries this volume contains several essays by relatively unknown scholars The value of their contributions is measured by fresh insights into Hook s philosophical significance as well as the underlying argument that adequate distance is needed to evaluate his historical relevance Despite the contentious nature of these two approaches ultimately these essays represent the comprehensive attempt to both reexamine Hook s legacy and celebrate his life The contributors include Jo Ann Boydston Gary Bullert Steven Cahn Matthew Cotter Michael Eldridge Barbara Forrest Nathan Glazer Neil Jumonville Marvin Kohl Paul Kurtz Tibor Machan Christopher Phelps Kathleen Poulos Edward Shapiro David Sidorsky Robert Talisse and Bruce Wilshire With a completely revised and updated bibliography of Hook s works plus an afterword by Richard Rorty this outstanding collection of essays examining the rich and varied experience of one of America s most misunderstood intellectuals will be of great interest to students and scholars of American intellectual history and philosophy Matthew J Cotter Brooklyn NY has been a lecturer at William Paterson University Baruch College and Hunter College at the City University of New York CUNY He is currently pursuing a Ph D in American history at the City University of New York s Graduate Center
