## **Sharing the Experiences of Immigrants**

Moving Stories is a tool for sharing migration narratives. We seek written contributions, images, artwork, oral accounts, and other forms of storytelling that cover any aspect of migration. This project helps us to understand how narratives foster connections between different communities and how they work to influence policy.

**A Better Story** Glynn Harrison, 2017-01-19 The architects of the sexual revolution won over the popular imagination because they knew the power of story They drew together radical new ideologies often complex and hard to grasp and melded them into the simpler structure of narrative Crucially they cast narratives that appealed to the moral instincts of ordinary decent people This moral vision overwhelmed the church and silenced its faltering apologists The author argues that if Christians still believe they have have good news in the sphere of sexual ethics then two big tasks lie ahead Our first priority is to work out what has gone so badly wrong both in our understanding and application of what the Bible teaches and the way we have presented our case to the non churched And then we must offer a better story one that fires the imagination with such force that people will say I want that to be true This book offers a confident biblically rooted moral vision which needs to be shared with prayer and courage

Song,2011-11-14 The Christian Bible is fundamentally a story Writers painters sculptors artists and indeed people of all walks of life live by the telling of their stories Stories are the most basic mode of human communication Thus it is vital to ask

why Christians and above all Christian theologians so often fail to express their faith in terms of story The vast majority of the Hebrew Scriptures for example consist of stories Jesus proclaimed and taught about the Reign of God through stories and parables At the heart of the Christian faith are stories not concepts propositions or ideas Given the deep rootedness of the Christian faith in storytelling this book seeks to address the fact that Christian theology has too often taken the form of concepts ideas and systems This book is an attempt to speak of Christian faith and theology in stories rather than systems Through stories both biblical and non biblical this book shows how we might reimagine the task of Christian theology in the life of faith today At its heart is the conviction that in the beginning there were stories and that in the end and indeed beyond the end are stories not texts ideas and concepts
