Pathological Play in Borderline-Narcissistic Personalities Irving Steingart,1984 Nietzsche and the Clinic Jared Russell,2018-03-26 Nietzsche and the Clinic reimagines what a sustained engagement with Nietzsche s thinking has to offer psychoanalysis today Beyond the headlines that continue to misrepresent Nietzsche s project this book portrays Nietzsche as a thinker of tremendous practical import for those treating the emergent pathologies of the twenty first century with an interpretive approach The more pressing wager of the book is that by introducing Nietzsche s thinking into contemporary debates about the nature and function of the psychoanalytic clinic the future of that clinic can be better secured against attempts to discredit its claims to therapeutic efficacy and to scientific legitimacy Combining a close textual reading with examples drawn from concrete clinical practice Nietzsche and the Clinic integrates philosophy and psychoanalysis in ways that move past a merely theoretical attitude demonstrating how the relationship between philosophy and psychoanalysis can be expanded in ways that are both clinically specific and post Freudian in orientation Chapters include extended meditations on Nietzsche s relation to key themes in the work of Helene Deutsch Wilfred Bion Melanie Klein Donald Winnicott and Jacques Lacan The Wound of Mortality Salman Akhtar,2010-01-22 Death is a much avoided topic Literature on mourning exists but it focuses chiefly upon the death of others The inevitable psychic impact of one s own mortality is not optimally

covered either in this literature on mourning or elsewhere in psychiatry and psychoanalysis *The Wound of Mortality* brings together contributions from distinguished psychoanalysts to fill this gap by addressing the issue of death in a comprehensive manner Among questions the contributors raise and seek to answer are Do children understand the idea of death How is adolescent bravado related to deeper anxieties about death Is it normal and even psychologically healthy to think about one's own death during middle age Does culture at large play a role in how individuals conceptualize the role of death in human life Is death apart from or a part of life Enhanced understanding of such matters will help mental health clinicians treat patients struggling with death related concerns with greater empathy *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), **Absolute Truth and Unbearable Psychic Pain** Allan Frosch, 2018-05-08 This book offers a wealth of original contributions all promising steps towards a fuller understanding of the phenomenon of concreteness and towards more effective approaches to the clinical challenges concreteness poses *When Theories Touch* Steven J. Ellman, 2020-03-11 This book aims to deconstruct the different theoretical perspectives of psychoanalysis and reconstruct these concepts in a language that is readily understood Wherever possible this is meant not to do away with terms that are meaningful but to attempt to clarify terms and concepts The book comes in three sections The first examines Freud's different theories and describes how Freud shifted his emphasis over time The second section covers all the major post-Freudian theorists Hartmann and Anna Freud together in one chapter Melanie Klein Fairbairn Winnicott Sullivan Mahler Kohut Kernberg and Bion and a chapter on the movement from classical theory to contemporary conflict theory The last section deals with issues raised in contemporary psychoanalysis issues as they pertain to the clinical situation and the rationale for a theory of endogenous stimulation
