Pathways To Parliament Candidate Selecti

Giulia Sandri, Antonella Seddone

Pathways To Parliament Candidate Selecti:

Pathways to Parliament Austin Ranney, 1965 **New Paths for Selecting Political Elites** Giulia Sandri, Antonella Seddone, 2021-05-15 This book provides a cross country study of the consequences of the expansion of intra party democracy the trend towards more inclusive methods of selection for party candidates and leaders and the impact of these on political elites in terms of sociopolitical profile and patterns of careers It explores the link between political organizations and political elites by studying the role of parties in parliamentary and political selection and its impact on the political leadership appointed Putting an emphasis on primary elections it analyses the party elites that emerge from those selection processes and those democratized organizational settings It focuses not only on the analysis of the processes through which party elites are selected and the consequences at the level of the party but also at the level of party elites themselves i e what impact party primaries have on the characteristics parties candidates and leaders The book offers a theoretical comparative and empirical account of the internal electoral processes of parties and their impact on political recruitment This book will be of key interest to scholars and students of political elites political parties and party systems electoral politics democracy populism and leadership and more broadly to comparative politics *Parliamentary Candidates Between Voters and Parties* Lieven De Winter, Rune Karlsen, Hermann Schmitt, 2020-10-27 This book offers the first comprehensive comparative and coherent perspective on parliamentary candidates in contemporary representative democracy Based on the unique database of the Comparative Candidate Survey project which interrogated parliamentary candidates in more than 30 countries it fills a significant lacuna by focusing on the thousands of ordinary candidates that participate in national elections It examines who the candidates are in terms of their socio demographic background and political career patterns how they were selected by their parties what their policy preference are and whether these are congruent to those held by their voters who they seek to represent and how they intend to do so once elected and what their visions are on representative democracy and party government Last but not least it investigates how they go about reaching out to their potential voters during the election campaign This book will be of key interest to scholars and students of political parties and party politics political elites political communication political participation elections theories of democracy and representation legislative studies voting behaviour and more broadly to European politics as well as to political and policy professionals throughout Europe ,

How German Parties Select Candidates of Immigrant Origin Sara Ceyhan, 2020-10-31 This book analyzes the threshold candidates of immigrant background need to overcome to run for legislative office Understanding whether political parties are able to adapt their selection criteria helps to assess their ability to respond to the underrepresentation of citizens of immigrant origin in parliament Although Germany s ethnic diversity is on a steady rise citizens of immigrant origin remain descriptively underrepresented Despite the pivotal role the intra party candidate selection plays in shaping who runs for election the question of how candidates of immigrant background fare in political parties candidate selection in comparison

to native born candidates remained a blind spot of research Therefore the author presents in depth empirical evidence on the selection of candidates of immigrant background in German political parties The book addresses scholars of political science interested in electoral studies as well as policy makers and party officials interested in a balanced representation of their political representatives *Representing Women in Parliament* Marian Sawer, Manon Tremblay, Linda Trimble, 2006-09-27 Written by a major international team of authors this new study features twelve chapters on both new and established parliaments including Australia Canada New Zealand and the United Kingdom It tests the latest theories about women s political representation within Westminster style assemblies and is clearly organized into three key sections **Passages to Power** Pippa Norris, 1997-10-09 Recruitment to legislative office is one of the core functions of political systems yet we know little about how the process varies from one country to another Passages to Power provides a comparative account of legislative recruitment which applies a common analytical framework and new survey data to nineteen advanced democracies Legislative recruitment refers to the critical step as people move from lower levels of politics into parliamentary careers Who succeeds in becoming a politician Who fails And why Based on original research which adopts a new institutionalist perspective this 1997 book compares these issues in a wide range of countries This important study brings together an outstanding group of international scholars to look at recruitment around the world The countries examined in depth include Australia Canada Finland Germany Japan the Netherlands New Zealand the United Kingdom and the United States along with a comparison of all member states in the European Union **Political Recruitment** Pippa Norris, Joni Lovenduski, 1995 Asking why some politicians succeed in moving into the highest offices of state while others fail this text examines the relative lack of women black and working class Members of Parliament and whether this evident social bias matters for political representation **Democracy and the Cartelization of Political Parties** Richard S. Katz, Peter Mair, 2018-07-04 Political parties have long been recognized as essential institutions of democratic governance Both the organization of parties and their relationships with citizens the state and each other have evolved since the rise of liberal democracy in the 19th and early 20th centuries Going into the 21st century it appears that parties losing popular support putting both parties and potentially democracy in peril This book traces the evolution of parties from the model of the mass party through the catch all party model to argue that by the late 20th century the principal governing parties and their allied smaller parties collectively the political mainstream were effectively forming a cartel in which the form of competition might remain and indeed even appear to intensify while its substance was increasingly hollowed out The spoils of office were increasingly shared rather than restricted to the temporary winners contentious policy questions were kept off the political agenda and competition shifted from large questions of policy to minor questions of managerial competence To support this cartel the internal arrangements of parties changed to privilege the party in public office over the party on the ground The unintended consequence has been to stimulate the rise of extra cartel challengers to these cozy arrangements in the form of

anti party system parties and populist oppositions on the left but especially on the right Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow John and Rebecca Moores Professor of Political Science University of Houston

Political Representation and Elections in Britain (Routledge Library Editions: Political Science Volume 12) Peter Pulzer, 2013-04-15 Originally published in 1972 this edition includes expanded sections on class and voting and elites and participation in modern democracy Many popular misconceptions about the militancy of party activists the relations between MPs and constituents the role of TV and the fairness of the electoral system are critically examined Equally important is the review of representational theories from Greek to Victorian in the light of what we know today about the workings of Parliament the role of pressure groups and the mixture of rational and irrational motives in human behaviour A range of twentieth century critiques including those of Robert Michels Joseph Schumpeter Robert Dahl and Peter Bachrach is presented Wherever possible British experience is compared with that of the USA continental Europe or the Commonwealth

Pathways To Parliament Candidate Selecti: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have enthralled audiences this year. Pathways To Parliament Candidate Selecti : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Pathways To Parliament Candidate Selecti : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Pathways To Parliament Candidate Selecti : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
