Pathways To People

Louise Lambert R. Pysch.

Pathways To People:

Pathways to People Leonard W. Doob, 1975-09-10 In this wide ranging and fascinating book Leonard Doob explores what we know about human action and interaction in order to show how people succeed or fail in their constant attempts to understand each other He organizes our ways of knowing each other into two sorts of pathways to people The first pathways are those that have been investigated by psychiatrists psychologists and social scientists Mr Doob offers a critical summary of our systematic knowledge in the area of what is sometimes called person perception By and large he is dissatisfied with what we think we know because too much of the research stems from a convenient but not typical sample of mankind the college student The second set of pathways are those intended to improve judgment or avoid error and they come not only from the scientific disciplines but also from the humanities along with common sense Together the pathways constitute the factors or variables that determine how and why human judgments are made and how they should be made The exposition is occasionally interrupted by a devil s advocate offering lively and cutting criticism of what is being said In this manner Leonard Doob opens another pathway between reader and author which makes reading this book a rich and provocative experience *Pathways to People* Leonard William Doob, 1975-01-01 **Pathways to People** Leonard William Doob,

Moved to Action Hahrie C. Han, 2009-08-17 Wealthy educated and more privileged people are more likely to participate and be represented in politics than their poorer less educated and less privileged counterparts To reduce these inequalities we need a better understanding of how the disadvantaged become motivated to participate Moved to Action fills the current gap in this area of research by examining the commitments and pathways through which the underprivileged become engaged in politics Drawing on original in depth interviews with political activists and large scale survey data author Hahrie C Han contests the traditional idea that people must be politicized before they participate and that only idiosyncratic factors outside the control of the political system can drive motivation Her findings show that that highly personal commitments such as the quality of children s education or the desire to help a friend have a disproportionately large impact in motivating political participation among people with fewer resources Han makes the case that civic and political organizations can lay the foundation for greater citizen participation by helping people recognize the connections between their personal commitments and politics **Musical Pathways in Recovery** Gary Ansdell, Tia DeNora, 2016-09-17 Music triggered a

healing process from within me I started singing for the joy of singing myself and it helped me carry my recovery beyond the state I was in before I fell ill nine years ago to a level of well being that I haven t had perhaps for thirty years This book explores the experiences of people who took part in a vibrant musical community for people experiencing mental health difficulties SMART St Mary Abbots Rehabilitation and Training Ansdell a music therapist researcher and DeNora a music sociologist describe their long term ethnographic work with this group charting the creation and development of a unique music project that won the 2008 Royal Society for Public Health Arts and Health Award Ansdell and DeNora track the

musical pathways of a series of key people within SMART focusing on changes in health and social status over time in relation to their musical activity The book includes the voices and perspectives of project members and develops with them a new understanding of how music promotes their health and wellbeing A contemporary ecological understanding of music and change is outlined drawing on and further developing theory from music sociology and Community Music Therapy This innovative book will be of interest to anyone working in the mental health field but also music therapists sociologists musicologists music educators and ethnomusicologists This volume completes a three part triptych alongside the other volumes *Music Asylums Wellbeing Through Music in Everyday Life* and *How Music Helps In Music Therapy and Everyday Life*
