Patterns That Connect Social Symbolism In Ancient And Tribal Art:

Patterns That Connect Carl Schuster, Edmund Carpenter, 1996-09 Travelers scholars have long been puzzled by similarities in the arts of diverse ancient tribal cultures It remained for the American art historian Carl Schuster 1904 1969 to discover a set of patterns designed by ancient peoples to illustrate their ideas about kinship Schuster succeeded in decoding this iconography which lasted over ten thousand years crossed continents outlived most of the cultures that sheltered it

The Explorations of Edmund Snow Carpenter Richard Cavell, 2024-10-15 Edmund Snow Carpenter 1922 2011 shaped by an early encounter with Marshall McLuhan was a renegade anthropologist who would plumb the connection between anthropology and media studies over a thoroughly unconventional career As co conspirators in the founding of the legendary journal *Explorations* 1953 59 Carpenter and McLuhan established the groundwork for media studies After ten years teaching anthropology at the University of Toronto hosting radio and television shows on the CBC and doing major research in the Arctic Carpenter left Toronto and became an itinerant anthropologist He took up a position in Papua New Guinea where he countered anthropological practice by handing his camera to the Papuans Carpenter's marriage to the artist and heiress Adelaide de Menil made him a truly independent scholar With the support of the Rock Foundation founded by de Menil he collected ethnographical art curated exhibitions and edited the materials for a twelve volume study of social symbolism based on the massive archives created by Carl Schuster

Richard Cavell shows Carpenter austere generous and unpredictable to also be unwavering in working throughout his career within the framework established by Explorations The anthropological impetus for media studies has largely been forgotten This study restores that memory tracing Carpenter s work in media and in anthropology over a lifetime of cultural achievements and intellectual convolutions *Exploring the Legacy of the 1948 Arnhem Land Expedition* Martin Thomas,Margo Neale,2011-06-01 In 1948 a collection of scientists anthropologists and photographers journeyed to northern Australia for a seven month tour of research and discovery now regarded as the last of the big expeditions The American Australian Scientific Expedition to Arnhem Land was front page news at the time but 60 years later it is virtually unknown This lapse into obscurity was due partly to the fraught politics of Australian anthropology and animus towards its leader the Adelaide based writer photographer Charles Mountford Promoted as a friendly mission that would foster good relations between Australia and its most powerful wartime ally the Expedition was sponsored by National Geographic the Smithsonian Institution and the Australian Government An unlikely cocktail of science diplomacy and popular geography the Arnhem Land Expedition put the Aboriginal cultures of the vast Arnhem Land reserve on an international stage Publisher s website

bonds rooted in motherhood and fatherhood Anthropology in its decades long retreat from the serious study of kinship has lost a great deal This volume points the way to a restoration Peter Wood National Association of Scholars **Res:**
