Dario Gamboni

Paul Gauguin Catalogue Raisonné Of His Prints:

Prints and Printmaking Antony Griffiths, 1996 Introductory text that touches on the basics of various printmaking techniques and briefly describes the history of each **The Prints of Michael Mazur with a Catalogue Raisonné 1956-1999** T. Victoria Hansen, Barry Walker, Clifford S. Ackley, Lloyd Schwartz, 2000 This magnificent volume brings together essays from four different leading authorities covering various aspects of Mazur's life and career along with a comprehensive catalogue raisonné of his prints 44 colour 121 b/w illustrations The Private Collection of Edgar Degas Julie A. Steiner, Metropolitan Museum of Art (New York, N.Y.), 1997 The art collection assembled by Edgar Degas was remarkable not only for its quality size and depth but also for its revelation of Degas's artistic affinities He acquired great numbers of works by the nineteenth century French masters Ingres Delacroix and Daumier he bought or bartered his own pictures for art by many of his contemporaries particularly Manet Cézanne Gauguin and Cassatt and he acquired works by a wide range of other artists from eminent to little known The extent of Degas's holdings was not recognized until after his death when the collection came up for auction in Paris in 1918 and in what was called the sale of the century was widely dispersed Extensive research has made it possible to reassemble that collection in book form This summary catalogue contains information on the more than five thousand works owned by Degas For each work catalogued the entry includes to the extent possible a description with medium and dimensions provenance information about Degas's acquisition and ownership of the work information pertaining to the sale of the work in 1918 or its disposal earlier including the purchaser purchase price and other data the current location selected references and an illustration In a concordance collection sale lot numbers are listed with their corresponding summary catalogue numbers This catalogue and its companion volume of essays are published in conjunction with the exhibition The Private Collection of Edgar Degas held at The Metropolitan Museum of Art New York from October 1 1997 to January 11 1998 BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Gauguin Gloria Lynn Groom, 2017-01-01 An unprecedented exploration of Gauguin's works in various media from works on paper to clay and furniture Paul Gauguin 1848 1903 was a creative force above and beyond his legendary work as a painter Surveying the full scope of his career spanning experiments in different media and formats clay works on paper wood and paint as well as furniture and decorative friezes this volume delves into his enduring interest in craft and applied arts reflecting on their significance to his creative process Gauguin Artist as Alchemist draws on extensive new research into the artist's working methods presenting him as a consummate craftsman one whose transmutations of the ordinary yielded new and remarkable forms Beautifully designed and illustrated this book includes essays by an international team of scholars who offer a rich analysis of Gauguin's oeuvre beyond painting By embracing other art forms which offered fewer dominant models to guide his work Gauguin freed himself from the burden of artistic precedent In turn these groundbreaking creative forays especially in ceramics gave new direction to his paintings The authors insightful emphasis on

craftsmanship deepens our understanding of Gauguin's considerable achievements as a painter, draftsman, sculptor, ceramist and printmaker within the history of modern art. **Paul Gauguin** Dario Gamboni, 2014-09-15 French artist Eugène Henri Paul Gauguin 1848-1903 once reproached the Impressionists for searching around the eye and not at the mysterious centre of thought. But what did he mean by this enigmatic phrase? In this innovative investigation into Gauguin's art and thought, Dario Gamboni illuminates Gauguin's quest for this mysterious centre and offers a fresh look at the artist's output in all media, from ceramics and sculptures to prints, paintings and his large corpus of writings. Foregrounding Gauguin's conscious use of ambiguity, Gamboni unpacks what the artist called the language of the listening eye. Gamboni shows that the interaction between perception, cognition and imagination was at the core of Gauguin's work, and he traces a line of continuity in them that has been previously overlooked. Emulating Gauguin's wide-ranging curiosity with literature, psychology, theology and the natural sciences, not to mention the whole of art history, this richly illustrated book provides new insight into the life and works of this well-known yet little-understood artist. **Graphic Modernism** Art Institute of Chicago, 2003 This exhibition catalog highlights a recent gift of works on paper to the Art Institute of Chicago from the Gecht family, longtime Chicago collectors. The catalog comprises 135 drawings, prints and sculptures from the collection, all of which embody a broad definition of Modernism. The book spans two centuries and contains artists such as Cézanne and Van Gogh as well as Mark Rothko and Philip Guston. Toulouse-Lautrec, Matisse and Picasso form the backbone of the collection, with nearly 30 works of art apiece. Suzanne Folds McCullagh, curator of prints, drawings, Art Inst of Chicago, provides a short introductory essay that tracks the evolution of the collection. Authored by a bevy of contributors, the well-written entries maintain a consistent tone and quality and strike a good balance between biographical information and interpretations of the work of art itself. While the Gecht collection is certainly quite a boon for the institute, it is not comprehensive enough in itself to make the catalog essential for all art libraries. It does, however, belong on library shelves with strong modern art and graphics collections. Kraig A. Binkowski, Delaware Art Museum, Wilmington. 135 colour illustrations. Gauguin and Polynesia Nicholas Thomas, 2024-02-01 Paul Gauguin is commonly regarded as one of the greatest modern artists. He is renowned for resplendent mythic imagery from Oceania, for a life of restless travel and for his supposed immersion in Polynesian life. But he has long been regarded ambivalently, and in recent years both Gauguin's sexual behaviour and his paintings have been considered exploitative. Gauguin and Polynesia offers a fresh view on the artist, not from the perspective of European art history but from the contemporary vantage point of the region, Oceania, which he so famously moved to. Gauguin's art is revealed for the first time to be richer and more eclectic than has been recognised. The artist indeed did invent enigmatic and symbolic images, but he also depicted Polynesia's colonial modernity, acknowledging the life of the time and the dignity and power of some of the Islanders he encountered. Gauguin and Polynesia neither celebrates nor condemns an extraordinary painter who at times denounced and at other times affirmed the French empire that shaped his own life and the places he

moved between It is a revelation of a formative artist of modern life and of multicultural worlds in the making **Paul Gauguin** Elizabeth Mongan, Eberhard W. Kornfeld, Harold Joachim, 1988 Catalogue raisonné **The Annual of Psychoanalysis, V. 22** Jerome A. Winer, 2013-05-13 Volume 22 of The Annual of Psychoanalysis begins with the provocative reflections of Jane Flax and Robert Michels on the current status and future prospects of psychoanalysis a century after Freud Flax believes that analysis will not survive in the postmodern West if analysts cling to the medical model and the notion of analysis as a clinical science Michels believes analysis will be revived in the next century by reorganizing its training institutes within universities A section on Psychoanalysis and the Visual Arts includes John Gedo's probing examination of the inner world of Paul Gauguin and William Meissner's reflections on Vincent van Gogh as artist Johann Michael Rotmann's examination of the transferential meanings of third party payment within Germany's health insurance system is a timely consideration of issues that are increasingly salient for American analysts and therapists A rich harvest of theoretical and clinical papers rounds out this volume of The Annual In A Time of Questioning Leon Wurmser responds to the inner and outer challenges before analysis in a closely reasoned defense of the applicability of classical analytic technique to severely disturbed patients Michael Hoit examines the noninterpretive interactive aspects of the analytic relationship arguing that the analyst's noninterpretive activities are intrinsic to treatment and must be incorporated into the theory of therapeutic action In Fables as Psychoanalytic Metaphors Elaine Caruth describes some psychoanalytic metaphors contained within the lessons of the Aesopian fables proposing that the fables address interpersonal and group conflicts that often involve moral issues Wilma Bucci offers her multiple code theory as a new model of emotion and mind based on current theory and research in cognitive science that can account for clinical concepts and provide coherent framework for empirical research And Ralph Roughton uses the case history of Laura to underscore the central role of repetition and interaction in the analytic process Volume 22 will not disappoint readers of this distinguished continuing series Like its predecessors it is a thoroughly assembled collection responsive to the conceptual clinical and institutional challenges now before the field **The Case of the Disappearing Gauguin** Stephanie A. Brown, 2024-07-23 A globetrotting Gold Rush heiress An awkward Paris schoolmaster A celebrated French actor And a museum of history and art in California's Central Valley What do they have in common They are all connected by an oil painting a still life called Flowers and Fruit that may or may not have been painted by the post Impressionist Paul Gauguin In the decade that museums began to collect modern art Flowers and Fruit traveled the art market in Paris and New York Experts and connoisseurs hailed it as a signature work of Gauguin just as he came to be acknowledged as a master When it joined the Haggin Museum in Stockton California locals treasured it as the Museum's Gauguin But by 1964 Gauguin scholars and experts in Paris and New York had lost track of the painting and declared it lost When it resurfaced in 2018 they questioned its authenticity How could a genuine Gauguin have been hiding in plain sight in a provincial American museum Is Flowers and Fruit a forgery or is it authentic Follow along as historian curator and professor

of museum studies Dr Stephanie Brown traces the unlikely history of the painting Using never before seen archives and making new connections Brown writes the biography of a painting and explores what we mean by authenticity and who gets to define it Now undergoing technical examination as a result of Dr Brown s findings Flowers and Fruit has embarked on a new chapter of its life If the painting is authentic it will be the most valuable painting in the Haggin s collection and one of the most important paintings in California And if the painting is a forgery who was the forger
