Paul McCartney:

Paul McCartney Barry Miles, 1998-10-15 A definitive authorized portrait of Paul McCartney draws on hundreds of hours of exclusive interviews and access to personal archives to chronicle the private life and successful career of one of the world's most famous musicians the world of the Beatles his partnership with John Lennon and more *Paul McCartney in His Own Words* Paul McCartney, 1976 **The Unknown Paul McCartney** Ian Peel, 2013-04-02 Internationally acclaimed knighted and immortalised in music's pantheon Paul McCartney nevertheless remains one of the least fully appreciated of modern icons Throughout his career McCartney has initiated and participated in projects that have taken him very far away from the kind of music associated with his career in The Beatles in Wings and as a solo artist From as far back as the 1960s there have been experimental solo projects both under his own name and incognito These include the legendary Carnival of Light sixties freak out the Percy Thrillington diversion in the 70s techno ambient and chill out releases as The Fireman pure noise performance art as well as less publicised activity much of which Ian Peel now reveals in depth in print for the first time What emerges is a unique critical insight into an apparently over familiar public figure Paul McCartney avant garde musician Undertaking extensive research for this book Ian Peel interviewed many of McCartney's intimate musical associates from this less familiar side of his career including Super Furry Animals on their carrot chewing percussion and electronic sound collage collaborations Youth the three times BRIT nominated producer speaks in depth for the first time ever on his two albums of techno ambient and chill out recorded with McCartney as The Fireman Nitin Sawhney on McCartney's first tentative steps into drum bass holed up in Sawhney's London bedsit Richard Hewson breaks a 20 year silence on the Thrillington project and pseudonym David Vaughan the renowned psychedelic artist and organiser of 60s happenings airs his strong views on Carnival of Light The Beatles most legendary unreleased track Other interviewees include Yoko Ono bassist Herbie Flowers Gong's Daevid Allen Frank Zappa's guitarist Mike Keneally JJ Jeczalik Art of Noise and members of Wings

Legends of Music Charles River Charles River Editors, 2017-12-30 Includes pictures of McCartney and important people places and events in his life Includes descriptions of the origins and recordings of some of McCartney's timeless classics including Penny Lane Yesterday Eleanor Rigby and Michelle Includes a Suggested Playlist of McCartney's greatest songs from his solo career and with the Beatles Includes a Bibliography for further reading In 1964 girls all across the United States filled venues almost literally screamed their heads off and fainted en masse Almost from the second they played the first note The Beatles would be hit with the resounding screams which made it impossible for them to even hear themselves sing When they made their American debut on The Ed Sullivan Show in early 1964 they were greeted by young fans who whipped themselves up into such a frenzy that some of them fainted Beatlemania had struck North America creating a musical and pop culture phenomenon unlike anything the world had ever seen In the middle of it all was Paul McCartney who joined with close friend and bandmate John Lennon to create history's greatest songwriting duo As the Cute Beatle

McCartney was instrumental in creating the soundtrack of the 1960s while producing some of the world's most timeless classics together with Lennon, George Harrison and Ringo Starr. McCartney lacked the controversy of Lennon, the spirituality of Harrison and the silliness of Starr but he was unquestionably one of the driving forces behind the Beatles' most productive recording periods, especially on the Beatles' seminal Revolver album. It was also McCartney who tried hardest to keep the Beatles together from 1968-1970, even while his perfectionist attention to detail frequently drove his bandmates crazy. Ultimately it was McCartney who was the first to publicly announce his departure from the Beatles. Sir Paul may have never topped the highs established by the Beatles but he has gone on to have the longest and most productive solo career of the four. While that was helped in part by the tragic murder of Lennon in 1980, McCartney has nonetheless remained at the forefront of pop culture since 1970 and the Guinness Book of World Records has recognized him as the most successful recording artist of all time. Indeed, McCartney wrote or co-wrote over 301 hits and has sold over 100 million albums and 100 million singles in his music career. McCartney has provided an uncountable number of anthems but his popularity has made his life extremely public and the subject of plenty of tabloid fodder from his causes to his marriages.

Legends of Music: The Life and Legacy of Paul McCartney covers McCartney's life and career in detail both in and out of the studio while analyzing his lasting legacy. Along with a suggested playlist of McCartney's songs and pictures of important people, places and events in his life, you will learn about Sir Paul like you never have before in no time at all. *Fly Away Paul* Lesley-Ann Jones, 2023-10-19. No other book has come close to capturing so well what Paul McCartney is about nor described so vividly his mental breakdown when the Beatles separated nor his need for Linda to nurse him back to good health. Fascinating and extraordinarily brilliant book. SIMON NAPIER BELL. Brava. ANDREW LOOG OLDHAM. The most brilliant journalism. Captivating. STEVE HARLEY. COCKNEY REBEL. Amazing. meticulous. JOHNNIE WALKER. The first definitive account of Paul McCartney's time in Wings. No comprehensive biography of the time Paul McCartney spent with Wings has ever been published. A period often dismissed as McCartney's missing years, in fact, the band lasted for a decade, two years longer than the Beatles and wielded such impact and influence that they at one point achieved the status as the biggest live band in the world. *Band on the Run* sold over 6 million copies worldwide and became EMI's biggest selling album of the 1970s in the UK. Music biographer Lesley Ann Jones has met McCartney many times and knew his late wife Linda. Here she shows how crucial Linda was to the evolution of Wings at great cost to herself, given the ridicule she was to encounter. But Linda saw that McCartney needed the band in the wake of the break-up of the Beatles. Drawing on extensive interviews and her trademark meticulous research, the author shows how this period in Paul McCartney's career was to become crucial, not only to his development as an artist but to his very survival.

Paul McCartney Chris Welch, 1984. Chris Welch, ex-features editor of *Melody Maker*, has interviewed Paul and travelled on the road with the Wings during their heyday. He presents a fascinating insight into the McCartney world and traces his career from skiffle to the Beatles and from Wings to today's hits. From back
