Historic Preservation and the Imagined West Judy Mattivi Morley,2006-09-12 Stroll through Larimer Square in Denver or through Pioneer Square in Seattle and you feel that you re stepping into history while browsing the expensive boutiques and tourist shops But are you In this intriguing study of some of America s favorite places Judy Morley takes a fresh look at adaptive reuse efforts in cities of the former frontier Focusing on urban preservation resulting from the competing interests of architectural preservationists city planners chambers of commerce and boosters she shows how developers have often taken artistic license to refashion the western past into shopping centers and tourist traps in ways that privilege an imagined heritage over a more complex history Examining Old Town Albuquerque Larimer Square and LoDo in Denver and Pioneer Square and Pike Place Market in Seattle Morley describes the creation and marketing of western heritage under the guise of historic preservation She draws on extensive interviews city council proceedings and historic plats and photographs to construct a detailed picture of how these districts originally looked and were used how they were renovated and to what ends they were marketed This is the first book to systematically address issues of historic preservation and western urban growth examining the interplay of identity preservation and tourism It identifies the economic political and social issues that transformed each historic district into a place that resonated with the popular imagination Along the way Morley exposes the ironies that have attracted criticism to historic districts such as Old Town Albuquerque s celebration of Hispanic heritage even though Hispanic residents were displaced during the renovation or Larimer Square s hiding of its actual skid row past beneath a veneer of more tourist friendly history But while critics charge that historic preservation often celebrates a sanitized past Morley suggests that these locales offer both residents and visitors a window on a shared romantic history and a sense of belonging serving as vital locations for community festivals holiday events and even public gatherings in times of tragedy Historic Preservation and the Imagined West argues that although these districts did not so much preserve history as create mythic identities for their cities they have in their way reconciled the past with the needs of the future

Public History Thomas Cauvin,2016-05-20 Public History A Textbook of Practice is a guide to the many challenges historians face while teaching learning and practicing public history Historians can play a dynamic and essential role in contributing to public understanding of the past and those who work in historic preservation in museums and archives in government agencies as

consultants as oral historians or who manage crowdsourcing projects need very specific skills This book links theory and practice and provides students and practitioners with the tools to do public history in a wide range of settings The text engages throughout with key issues such as public participation digital tools and media and the internationalization of public history Part One focuses on public history sources and offers an overview of the creation collection management and preservation of public history materials archives material culture oral materials or digital sources Chapters cover sites and institutions such as archival repositories and museums historic buildings and structures and different practices such as collection management preservation archives objects sounds moving images buildings sites and landscape oral history and genealogy Part Two deals with the different ways in which public historians can produce historical narratives through different media including exhibitions film writing and digital tools The last part explores the challenges and ethical issues that public historians will encounter when working with different communities and institutions Either in public history methods courses or as a resource for practicing public historians this book lays the groundwork for making meaningful connections between historical sources and popular audiences *Living History Museums* Scott Magelssen, 2007-02-01

Living history museums are cultural institutions that merge historical exhibits with live costumed performance While unique and vitally important they often compromise historical accuracy and authenticity for the sake of tourism and entertainment value Many also pursue methods of performance and historiography that are becoming increasingly outdated *Living History Museums Undoing History Through Performance* examines the performance practices used by institutions such as Plimoth Plantation and Colonial Williamsburg and offers a new genealogy of living history museum performance in the U S and Europe Currently existing scholarship on living history museums addresses the subject from a museum studies or anthropology perspective Author Scott Magelssen however approaches the material from a background in theatre history and theory analyzing living history museums using postmodern methodology Considering performance as a method for the study of history and exploring emergent non traditional theatrical practices the book offers suggestions for performance in an increasingly postmodern landscape Concluding with an international listing of living history institutions and a complete list of sources *Living History Museums* is a valuable resource for students and teachers of theatre and performance studies cultural studies folklore popular culture American studies and museum studies **The Paradox of Preservation** Laura

Alice Watt, 2017 Point Reyes National Seashore has a long history as a working landscape with dairy and beef ranching fishing and oyster farming yet since 1962 it has also been managed as a National Seashore *The Paradox of Preservation* chronicles how national ideals about what a park ought to be have developed over time and what happens when these ideals are implemented by the National Park Service NPS in its efforts to preserve places that are also lived in landscapes Using the conflict surrounding the closure of the Drakes Bay Oyster Company Laura Alice Watt examines how NPS management policies and processes for land use and protection do not always reflect the needs and values of local residents Instead the

resulting landscapes produced by the NPS represent a series of compromises between use and protection and between the area's historic pastoral character and a newer vision of wilderness. A fascinating and deeply researched book *The Paradox of Preservation* will appeal to those studying environmental history, conservation, public lands, and cultural landscape management and to those looking to learn more about the history of this dynamic California coastal region. **Department of the Interior and Related Agencies Appropriations for 2004: Testimony of Members of Congress** United States. Congress. House. Committee on Appropriations. Subcommittee on Department of the Interior and Related Agencies, 2003

Historic Preservation in the USA Karolin Frank, Patricia Petersen, 2002-02-14 Since the 1960s public attention has been drawn increasingly towards the thematic link between historic preservation and urban planning. Nowadays the organized historic preservation movement in the USA is more than a mere yearning for history; it represents an active and integral part of urban planning in US cities. In order to approach these planning, economic, and social issues in the field of historic preservation, this book analyzes a variety of interdisciplinary methods focusing on four selected historic districts within the central business districts of Philadelphia and Boston in the north and Charleston and Savannah in the south.
