

24 TEXTES FONDATEURS DE LA PSYCHIATRIE

Cet ouvrage d'une conception originale rassemble des textes fondateurs de la psychiatrie, introduits et commentés par les meilleurs spécialistes à la lumière des connaissances actuelles. Ces textes – extraits des *Annales Médico-Psychologiques* (bulletin officiel de la Société Médico-Psychologique), la plus ancienne revue de psychiatrie au monde, fondée en 1843 par Jules Baillarger et toujours publiée aujourd'hui –, constituent pour la plupart des premières mondiales de descriptions cliniques des troubles de l'humeur (bipolaires, mélancolie), des troubles psychotiques (schizophrénies), de l'anorexie mentale, des troubles mentaux liés à la grossesse, des troubles de la personnalité ou encore de la confusion mentale.

Les auteurs de ces descriptions sont reconnus internationalement comme des pionniers de la psychiatrie (Jules Baillarger, Jules Falret, Gaëtan Gatien de Clérambault, Joseph Capgras, Paul Sérieux, Henri Ey, Jean Delay, Pierre Denicker...). La découverte des neuroleptiques, celle de l'efficacité des sels de lithium et de certains anti-épileptiques dans les troubles bipolaires sont également retracées et commentées.

Ce véritable patrimoine psychopathologique français, ainsi remis en lumière dans cet ouvrage, deviendra une référence pour les professionnels de la santé mentale (psychiatres, psychologues) mais aussi pour les étudiants et les chercheurs.

Marc Masson, coordinateur de l'ouvrage, est psychiatre à la clinique du Château de Garches et secrétaire général de la Société Médico-Psychologique (Paris).

Culture, Diversity and Mental Health - Enhancing Clinical Practice Masood Zangeneh,Alean Al-Krenawi,2019-10-22 This book discusses the importance of culture and diversity within society through multicultural cross-cultural and intercultural encounters while applying psychological effectiveness to manage core competencies It carefully explains how influential the social environment is to an individual within a society It seeks to directly affect mental health practitioners' treatment within practices in accordance to specific ethno-cultural clients and it seeks to encourage students and practitioners to practice acceptance of diverse groups and multiracial communities Although understanding various cultural norms and accepting diversity is not always simple the book promotes a global understanding through identifying cultural benefits within a multiracial multi-ethnic society while evoking culturally competent techniques for mental health practitioners

Les premières expériences de psychiatrie de secteur qui ont eu lieu en France après la Seconde Guerre mondiale avaient pour point de départ le rejet de l’asile psychiatrique En effet, dans les fonctions de refuge au sein de la ville elles ont modifié le rapport entre ville et projet thérapeutique en articulant l’offre de soins à une géographie urbaine hospital de jour accueil prise en charge modulée Depuis les mutations urbaines l’évolution de la psychiatrie enfin l’ouverture d’un champ de la santé mentale qui interroge la souffrance sociale invitent à faire la somme de ces expériences et à engager une nouvelle réflexion sur la ville grâce au prisme de la santé mentale (Revue de psychiatrie (médecine mentale, neurologie, psychologie), 1899).
