The Battle Rhetoric of Crusade and Holy War, c.

1099-c. 1222 Connor Christopher Wilson, 2022-11-25 This book examines Latin narratives produced in the aftermath of the First Crusade and challenges the narrative of supposed brutality and amorality of warfare in this period instead focusing on

the moral and didactic concerns surrounding warfare and violence with which medieval authors wrestled The battle oration a rousing harangue exhorting warriors to deeds of valour has been regarded as a significant aspect of warfare since the age of Xenophon and has continued to influence conceptions of campaigning and combat to the present day While its cultural and chronological pervasiveness attests to the power of this trope scholarly engagement with the literary phenomenon of the pre battle speech has been limited Moreover previous work on medieval battle rhetoric has only served to reinforce the supposed brutality and amorality of warfare in this period highlighting appeals to martial prowess a hatred for the enemy and promises of wealth and glory This book through an examination of Latin narratives produced in the aftermath of the First Crusade and the decades that followed challenges this understanding and illuminates the moral and didactic concerns surrounding warfare and violence with which medieval authors wrestled Furthermore while battle orations form a clear mechanism by which the fledgling crusading movement could be explored ideologically this comparative study reveals how non crusading warfare in this period was also being reconceptualised in light of changing ideas about just war authority and righteousness in Christian society This volume is perfect for researchers students and scholars alike interested in medieval history and military studies

The Celts Ian Stewart, 2025-03-04 A history of Celtic thought and identity over the last three centuries This book will be the first synoptic historical study of Celtic ideas in the modern era The Celts are perennially popular in both academic and popular culture having been the subject of several recent books scholarly and otherwise as well as a major exhibition The Celts Art and Identity at the British Museum and National Museum of Scotland in 2015 16 However attention remains overwhelmingly focused on the ancient peoples labelled Celts with little interrogation of how and why they became known as such during the modern period In addressing these questions this study will be the first to account for the trajectory of ideas of the Celts or Celticism and how they became fundamental pillars of national identities in western Europe especially in Britain Ireland and France A transnational approach covering the period from roughly 1700 to the present day will allow the proposed volume to chart the transformation of perceptions of the Celts from those of a sought after European ancestor to those of a marginalised people living on the fringes of western Europe In doing so it will illustrate the wider intellectual cultural and political ramifications of this protracted ideological shift in different national contexts As nationalism resurfaces across Europe this timely study will reveal the intellectual history of a prominent cultural identity and show the historical contingency of Celtic based nations national identities and nationalisms

Atrocity Bruce Robbins, 2025-02-04 Exploring literary representations of mass violence Bruce Robbins traces the emergence of a cosmopolitan recognition of atrocity Mass violence did not always have a name Like conquest what we think of now as atrocities have not always invited indignation or been seen to violate moral norms Venturing from the Bible to Zadie Smith Robbins explores the literature of suffering to show how over time abhorrence of mass violence takes shape With it comes the emergence of a necessary element of

cosmopolitanism the ability to look at one's own nation with the critical eyes of a stranger Drawing on a vast written archive and with penetrating insight Robbins takes up such literary representations of violence as Bartolom de las Casas's account of his fellow Spaniards' atrocities Kurt Vonnegut's *Slaughterhouse Five* Grimmelshausen's 1668 novel *Simplicissimus* David Mitchell's *Cloud Atlas* Gabriel Garcia Marquez's *One Hundred Years of Solitude* Homero Aridjis's short novel *Smyrna in Flames* and Tolstoy's *Hadji Murat* These essential texts do more than simply testify to atrocious acts In their literariness they take the risk of contextualizing and relativizing thereby extending beyond the legal paradigm of accusation They recognize atrocity as a moral scandal about which something should be done and can be done while they also place that scandal within a larger and more uncertain history

Erotic Citizens Elizabeth Dill, 2019-11-28 What is the role of sex in the age of democratic beginnings Despite the sober republican ideals of the Enlightenment the literature of America's early years speaks of unruly carnal longings Elizabeth Dill argues that the era's proliferation of texts about extramarital erotic intimacy manifests not an anxiety about the dangers of unfettered feeling but an endorsement of it Uncovering the more prurient aspects of nation building *Erotic Citizens* establishes the narrative of sexual ruin as a genre whose sustained rejection of marriage acted as a critique of that which traditionally defines a democracy the social contract and the sovereign individual Through an examination of philosophical tracts political cartoons frontispiece illustrations portraiture and the novel from the antebellum period this study reconsiders how the terms of embodiment and selfhood function to define national belonging From an enslaved woman's story of survival in North Carolina to a philosophical treatise penned by an English earl the readings employ the trope of sexual ruin to tell their tales Such narratives advanced the political possibilities of the sympathetic body looking beyond the marriage contract as the model for democratic citizenship Against the cult of the individual that once seemed to define the era *Erotic Citizens* argues that the most radical aspect of the Revolution was not the invention of a self-governing body but the recognition of a self whose body is ungovernable

Battle Exhortation Keith Yellin, 2013-06-10 A commanding study of the motivational speech of military leaders across the centuries In this groundbreaking examination of the symbolic strategies used to prepare troops for imminent combat Keith Yellin offers an interdisciplinary look into the rhetorical discourse that has played a prominent role in warfare history and popular culture from antiquity to the present day *Battle Exhortation* focuses on one of the most time-honored forms of motivational communication the encouraging speech of military commanders to offer a pragmatic and scholarly evaluation of how persuasion contributes to combat leadership and military morale In illustrating his subject's conventions Yellin draws from the Bible classical Greece and Rome Spanish conquistadors and American military forces Yellin is also interested in how audiences are socialized to recognize and anticipate this type of communication that precedes difficult team efforts To account for this dimension he probes examples as diverse as Shakespeare's *Henry V* George C. Scott's portrayal of General George S. Patton and team sports

Understanding Non-State Actors Eran Zohar,2023-10-24 *Understanding Non State Actors* aims to reduce the scarcity of academic literature on armed non state actors NSAs that have always been a part of world politics and wars This monograph offers possibly for the first time a systematic historical review as well as a substantive theory of NSAs and their arming efforts The world has been astonished by the ability of the well armed Hamas to inflict heavy losses on the powerful Israel Thus from the Jewish rebellion against Rome to the war between the Ukrainian separatists and the Ukrainian government NSAs weapons acquisition has been vital for the build up of their force enabling both the employment of that force and its sustainability While weapons are not necessarily the most important factor in military build up NSAs need weapons to fight and revolts usually erupt after the organizers have acquired a certain number of weapons Conversely many revolts lose momentum and operations are not carried out or turn ineffective due to shortages of arms and ammunition A major theme of this monograph is that in spite of dramatic political and technological changes armed NSAs in different periods have employed similar methods to acquire weapons Self production looting and stealing external support and the arms trade were always the major ways for NSAs to acquire weapons though the importance of each method and the type of arms has changed remarkably over time *Understanding Non State Actors* discusses the factors political social cultural technological and organizational that have both facilitated and constrained the ability of NSAs to acquire arms Especially lecturers and students of Military Terrorism Conflict studies War and peace studies will benefit from this study

Trust and Violence Jan Philipp Reemtsma, 2012-04-22 A philosophical investigation into the connections between trust and violence The limiting of violence through state powers is one of the central projects of the modern age Why then have recent centuries been so bloody In *Trust and Violence* acclaimed German intellectual and public figure Jan Philipp Reemtsma demonstrates that the aim of decreasing and deterring violence has gone hand in hand with the misleading idea that violence is abnormal and beyond comprehension We would be far better off Reemtsma argues if we acknowledged the disturbing fact that violence is normal At the same time Reemtsma contends that violence cannot be fully understood without delving into the concept of trust Not in violence but in trust rests the foundation of true power Reemtsma makes his case with a wide ranging history of ideas about violence from ancient philosophy through Shakespeare and Schiller to Michel Foucault and by considering specific cases of extreme violence from medieval torture to the Holocaust and beyond In the midst of this gloomy account of human tendencies Reemtsma shrewdly observes that even dictators have to sleep at night and cannot rely on violence alone to ensure their safety These authoritarian leaders must trust others while by means other than violence they must convince others to trust them The history of violence is therefore a history of the peculiar relationship between violence and trust and a recognition of trust s crucial place in humanity A broad and insightful book that touches on philosophy

sociology and political theory *Trust and Violence* sheds new and at times disquieting light on two integral aspects of our society
