Long Term Care Decisions Ethical And Conceptual Dimensions

Douglas Singh

Long Term Care Decisions Ethical And Conceptual Dimensions:

Long-term Care Decisions Laurence B. McCullough, Nancy Lee Wilson, 1995 Physical mental or social changes in the life of an elderly person may result in a loss of self sufficiency Deciding how to compensate for changes a process that often involves family members tends or health professionals frequently leads to consideration of long term care Most of the existing literature on ethics and decision making however focuses on acute care and does not necessarily apply to issues involved in choosing long term care *Effective Management of Long-term Care Facilities* Douglas A. Singh, 2005 This outstanding new text provides a clear understanding of how the ideal long term care facility should operate and how prospective as well as currently employed nursing home administrators can hone their skills to deliver quality services cost effectively *Effective Management of Long Term Care Facilities* Douglas Singh, 2010-02-18 *Effective Management of Long Term Care Facilities* explores the complex operations of the long term care facility and offers critical skills to current and future nursing home administrators for delivering quality cost effective services The Second Edition has been thoroughly revised and reorganized to offer a more cohesive presentation of the material New chapters that have been added cover the long term care industry long term care policy and supportive case studies that incorporate management and patient care issues **Ethical Patient Care** Mathy D. Mezey, Christine K. Cassel, Melissa M. Bottrell, Kathryn Hyer, Judith L. Howe, Terry T. Fulmer, 2003-04-29 The delivery of good medical care often involves professionals from various disciplines working together Interdisciplinary health care teams can be especially valuable in managing patients with complex medical and social needs such as older persons in hospital community or home settings Such teams however can also complicate or even create problems because of their diverse views and responsibilities *Ethical Patient Care A Casebook for Geriatric Health Care Teams* is designed to teach effective and responsible group decision making to clinicians working in teams to treat older patients The editors use the case study method to present ethical dilemmas that team members encounter in the management of geriatric patients Patients with multiple chronic conditions so often require the care of more than one medical specialist and in the introductory chapters the editors suggest ways to resolve conflicts among patients health care professionals and the institutions that support them including hospitals HMOs insurance companies and the government The book is then divided into four sections each dealing with one angle of the team care picture The first section treats the diverse ethical imperatives of various professionals conflicts among disciplinary approaches and and varying attitudes toward end of life decision making Section two focuses on the patient and covers patient confidentiality family decisionmaking and interaction with the healthcare team issues of patient and team nonadherence to the care plan and elder abuse and neglect Section three examines the emerging difficulties of decentralized health care in settings such as hospitals nursing homes and the home including clinician accountability and how ethical dilemmas differ across settings Section four discusses the problems arising from the increasing responsibility of clinicians to manage costs and serve the interests of hospitals and

insurers Ethical Patient Care is a valuable resource for bioethicists gerontologists and the physicians nurses social workers and therapists who care for aging persons *The SAGE Handbook of Social Gerontology* Dale Dannefer,Chris Phillipson,2010-08-13 This SAGE Handbook integrates basic research on social dimensions of aging It presents programmatic applications of research in areas not often seen in Handbooks including imprisonment technology and aging urban society aged and elderly migration The authors constitute a Who's Who of international gerontology and the focus on globalization and aging is unique among Handbooks today This Handbook should be in the library of every social gerontologist Vern L Bengtson Professor of Gerontology University of Southern California This volume reflects the emergence of ageing as a global concern including chapters by international scholars from Asia Australasia Europe and North America It provides a comprehensive overview of key trends and issues in the field drawing upon the full range of social science disciplines The Handbook is organized into five parts each exploring different aspects of research into social aspects of ageing Disciplinary overviews summaries of findings from key disciplinary areas within social gerontology Social relationships and social differences explores area like social inequality gender religion inter generational ties social networks and friendships Individual characteristics and change in later life examines different aspects of individual aging including self and identity cognitive processes and bio social interactions and their impact on physical and psychological aging Comparative perspectives and cultural innovations topics include ageing and development ageing in a global context migration and cross cultural perspectives on grandparenthood Policy issues covering policy concerns such as long term care technology and older people end of life issues work and retirement and the politics of old age This will be essential reading for all students researchers and policy makers concerned with the major issues influencing the lives of older people across the globe

Health Care Financing Review ,1997 Autonomy & Paternalism Thomas Nys,Yvonne Denier,Toon Vandeveld,2007 In recent years the triumph of autonomy has made paternalist interventions increasingly problematic The value of a patient's right to self determination and the practice of informed consent are considered supremely important in present day health care ethics In general the idea of doctor knows best has become more and more suspicious This has left us with a situation in which paternalist medicine seems difficult to reconcile with respect for patient autonomy This book offers a thorough reflection on the relationship between autonomy and paternalism and argues that from both theoretical and practical angles the tension between these concepts is not as acute as it might seem In long term care psychiatry and care for the severely handicapped the principle of respect for autonomy is particularly ill suited This however does not mean that such respect is totally irrelevant but that it should take a different shape Good care in those cases requires us to transcend the sharp dichotomy between autonomy and paternalism In *Autonomy and Paternalism Reflections on the Theory and Practice of Health Care* various acclaimed authors present their views on this interesting and extremely relevant debate *The Cambridge Handbook of Age and Ageing* Malcolm L. Johnson,Vern L. Bengtson,Peter G. Coleman,Thomas B. L.

Kirkwood,2005-12-01 The Cambridge Handbook of Age and Ageing first published in 2005 is a guide to the body of knowledge theory policy and practice relevant to age researchers and gerontologists around the world It contains almost 80 original chapters commissioned and written by the world s leading gerontologists from 16 countries and 5 continents The broad focus of the book is on the behavioural and social sciences but it also includes important contributions from the biological and medical sciences It provides comprehensive accessible and authoritative accounts of all the key topics in the field ranging from theories of ageing to demography physical aspects of ageing mental processes and ageing nursing and health care for older people the social context of ageing cross cultural perspectives relationships quality of life gender and financial and policy provision This handbook will be a must have resource for all researchers students and professionals with an interest in age and ageing **Supporting the Caregiver in Dementia** Sheila M. LoboPrabhu,Victor A. Molinari,James W. Lomax,2006-06-19 Dementia is one of the greatest challenges facing seniors and their caregivers around the globe

Developed by experts in both research and practice this guide for mental health clinicians explores the experience of caregiving in dementia discussing the latest research developments and sharing clinical pearls of wisdom that can easily be translated to daily practice The contributors explore the history of caregiving and then examine the current demographics of caregivers for persons with dementia They discuss who provides care the settings in which it is delivered and the rewards and burdens of caregiving They place special emphasis on understanding the psychological needs of both the person with dementia and the caregiver as well as interpersonal bonds spiritual dimensions and reactions to grief and loss Using a multidisciplinary approach to treatment for caregivers this book addresses the role of pharmacotherapy individual and family interventions and social supports Finally the authors reflect on societal issues such as health care policies ethnic elders and ethics This volume offers health professionals insights into the daily lives of caregivers along with tools to provide their patients with the support they need Ethics in Community-Based Elder Care Martha B. Holstein,Phyllis B.

Mitzen,2001-10-11 Caring for elders outside of institutions is the fastest growing sector of US health care Building on their research study at the Park Ridge Center editors Holstein and Mitzen together with a team of experts examine the complexities involved in developing an ethics for community based long term care They also challenge policymakers to make home care a more viable option for older people in need Chapters address many of the ethical and practical problems that arise in the care of older people with physical and mental disabilities including how to allocate scarce funds how to keep good caregivers how to balance concerns of autonomy risk and safety and worker stress The volume is an excellent resource for practitioners policymakers and students **Palliative Care Nursing** O'Connor Margaret,Aranda Sanchia,2018-10-08

Written by experienced authorities from around the world giving a wider international perspective on palliative nursing this substantially expanded new edition has been specifically adapted to reflect working practices within the NHS All nurses especially those that are new to palliative care and those working in other areas of health where palliative skills are required

will find this essential reading **Our Hands Are Tied** Marshall Kapp,1998-05-12 As a critical examination of the pervasive tension existing between defensive medicine and good ethical patient care this book investigates the impact of legalities on medical treatment Physicians today are apprehensive about the threat of malpractice suits Kapp explores the extent to which this fear is justified He examines where physicians get their ideas about what the law forbids and requires how physicians perceptions of the law and medicine affect medical care and whether these behavioral manifestations benefit or hurt a physician s ability to practice ethically Kapp then suggests ways medical professionals can resolve tension caused by conflicting demands and encourage more ethical care **Handbook of Bioethics:** G. Khushf,2006-04-11 In general the history of virtue theory is well documented Sherman 1997 O Neill 1996 Its relationship to medicine is also recorded in our work and in that of others Pellegrino and Thomasma 1993b 1996 Drane 1994 Ellos 1990 General publications stress the importance of training the young in virtuous practices Still the popularity of education in virtue is widely viewed as part of a conservative backlash to modern liberal society Given the authorship of some of these works by professional conservatives like William Bennett 1993 1995 this concern is authentic One might correspondingly fear that greater adoption of virtue theory in medicine will be accompanied by a corresponding backward looking social agenda Worse yet does reaffirmation of virtue theory lacquer over the many challenges of the postmodern world view as if these were not serious concerns After all recreating the past is the retro temptation of our times Searching for greater certitude than we can now obtain preoccupies most thinkers today One wishes for the old clarity and certitudes Engelhardt 1991 On the other hand the same thinkers who yearn for the past like Engelhardt sometimes seems to do might stress the unyielding gulf between past and present that creates the postmodern reaction to all systems of Enlightenment thought 1996 Handbook on Ethical Issues in Aging Tanya F. Johnson,1999-06-30 Johnson addresses ethical issues in aging in a variety of contexts the social cultural environment physical health care mental health care social health care legal care and spiritual care Because long term aging has created a new generation of older adults some new issues are emerging which need to be addressed from an ethical perspective elder abuse physician assisted suicide dementia intergenerational equity guardianship and living wills A wide range of experts including physicians philosophers lawyers social workers nurses sociologists public health persons theologians historians and ethicists share their insights on the ethical issues and dilemmas older adults in American society are facing or are likely to face over the life course Of interest to undergraduate and graduate faculty and students in sociology social work and social services practitioners policymakers and academic and professional libraries Women in Late Life Martha Holstein,2015-03-19 Contemporary old age is fraught with contradiction and complexity women portrayed either as incompetent and cuddly grandmothers or as young women trapped in old bodies images that rarely reflect how women actually see themselves Women in Late Life explores the thorny issues related to gender and aging including prevailing but problematic cultural expectations body image ageism the experience of chronic illness threats to Social

Security and the very possibility of a secure retirement while challenging a long term care system that disadvantages women Author Martha Holstein writes from a critical feminist perspective drawing on her many years of experience in gerontology as well as interviews and personal experience as a woman now in her seventies The book highlights how women s experience of late life is shaped by the effects of lifelong gender norms by contemporary culture from gender stereotypes to ageism and by the political context The book blends critique with proposals aimed at resisting damaging inequities resulting from being simultaneously old and a woman She focuses on changes needed on multiple levels societal cultural political and individual This interdisciplinary look at key questions around gender and aging is nuanced and beautifully written *Widows and Divorcees in Later Life* Carol L Jenkins,2014-06-17 Get a fresh perspective on how older women adapt to life without a spouse *Widows and Divorcees in Later Life On Their Own Again* examines new perspectives on the problems older women face adjusting to life without a spouse The book examines the transition from the togetherness of marriage to the solitude of being suddenly single exploring how older widows and divorcees adapt A multidisciplinary panel of practitioners researchers and academics addresses the challenges facing elderly women after a divorce or the death of a spouse including issues of physical and psychological well being clinical depression nutrition economics reduced Social Security benefits loss of pension income health care costs social support public policy counseling and living arrangements *Widows and Divorcees in Later Life On Their Own Again* presents fresh insights into the challenges single women face as they age including disability and chronic health problems threats to economic security and the need for assistance with normal activities of daily living The book examines the increased hospitalization risk for widowed older women the protective efforts of social contacts the impact of minority group status on projected retirement income care arrangement choices coping with bereavement and the changing balance between co residence with families and institutional care Interviews data projections and research studies offer particular focus on women of Mexican American and African American descent and women living in England and Wales Africa and the north and south Pacific *Widows and Divorcees in Later Life On Their Own Again* addresses the importance of family support the importance of religion and spirituality in coping with loss maintaining social connections maintaining independence the baby boom cohort and much more *Widows and Divorcees in Later Life On Their Own Again* is an insightful examination of the concerns issues and problems facing older women who live without a spouse but within specific social and cultural networks from which they receive support **Characteristics of Elderly Nursing Home Current Residents and Discharges** Celia S. Gabrel,2000 *Dependence and Autonomy in Old Age* George Agich,2003-08-07 Respecting the autonomy of disabled people is an important ethical issue for providers of long term care In this influential book George Agich abandons comfortable abstractions to reveal the concrete threats to personal autonomy in this setting where ethical conflict dilemma and tragedy are inescapable He argues that liberal accounts of autonomy and individual rights are insufficient and offers an account of autonomy that matches the realities of long term care The book therefore offers a

framework for carers to develop an ethic of long term care within the complex environment in which many dependent and aged people find themselves Previously published as *Autonomy and Long term Care* this revised edition in paperback for the first time takes account of recent work and develops the author's views of what autonomy means in the real world It will have wide appeal among bioethicists and health care professionals

The Denial of Aging Muriel R. Gillick, 2009-06-30 You've argued politics with your aunt since high school but failing eyesight now prevents her from keeping current with the newspaper Your mother fractured her hip last year and is confined to a wheelchair Your father has Alzheimer's and only occasionally recognizes you Someday as Muriel Gillick points out in this important yet unsettling book you too will be old And no matter what vitamin regimen you're on now you will likely one day find yourself sick or frail How do you prepare What will you need With passion and compassion Gillick chronicles the stories of elders who have struggled with housing options with medical care decisions and with finding meaning in life Skillfully incorporating insights from medicine health policy and economics she lays out action plans for individuals and for communities In addition to doing all we can to maintain our health we must vote and organize for housing choices that consider autonomy as well as safety for employment that utilizes the skills and wisdom of the elderly and for better management of disability and chronic disease Most provocatively Gillick argues against desperate attempts to cure the incurable Care should focus on quality of life not whether it can be prolonged at any cost A good old age writes Gillick is within our grasp But we must reach in the right direction

Interventions for Alzheimer's Disease Ruth M. Tappen, 1997 This book is written for professionals who find themselves responsible for the planning administrations or provision of services for the increasing number of older people with Alzheimer's disease and the related dementing diseases It provides a background for understanding the disease itself and suggests a wide range of potentially effective interventions for people in the early middle and late stages of Alzheimer's disease Most important this information is provided within a framework of care and concern for the person with the disease and an emphasis on honoring the person's rights to respect privacy and preservation of dignity This comprehensive easy to read volume distills the critical information you need from current research and translates it into effective methods of care that can improve individual's functional abilities and well being from the early to the end stages of the disease
