Clark,Andrew P. Winterstein,2024-06-01 As educators we strive to teach students to think critically and to commit to a diagnosis the ability to make that commitment is one of the most difficult steps for clinicians in training With many possible injuries and conditions and an equally large number of diagnostic elements a clear and logical method is needed The Athletic Trainer s Guide to Differential Diagnosis A Visual Learning Approach provides an approach that helps the reader sort through the possibilities and think about the clinical evaluation within a clinical thinking framework using a visual mapping approach The Athletic Trainer s Guide to Differential Diagnosis is not designed to be a how to evaluation text Rather it is designed to create a framework that allows the reader to think differently about differential diagnoses access existing knowledge in anatomy and clinical evaluation and assess information for the purpose of making higher order clinical decisions Dr Andrew P Winterstein and Sharon V Clark have organized The Athletic Trainer s Guide to Differential Diagnosis by body part as well as by location in the body The reader will be able to examine the possible diagnoses by location and approach the evaluation in a more focused and organized fashion This method of evaluation also allows the reader the opportunity to apply evidence based principles to the clinical evaluation process The Athletic Trainer s Guide to Differential Diagnosis takes a visual learning approach with an emphasis on diagrams tables and boxes to illustrate the visual evaluation

framework In addition each chapter offers a clinical case to provide a springboard for approaching the differential diagnosis process The Athletic Trainer s Guide to Differential Diagnosis A Visual Learning Approach will enhance the athletic training student and clinician s critical thinking skills as well as be an excellent resource for self assessment and preparation for certification
