Wearing, 2021-12-20 The presence of gold silver and other metals is a hallmark of decorated manuscripts the very characteristic that makes them illuminated Medieval artists often used metal pigment and leaf to depict metal objects both real and imagined such as chalices crosses tableware and even idols the luminosity of these representations contrasted pointedly with the surrounding paints enriching the page and dazzling the viewer To elucidate this key artistic tradition this volume represents the first in depth scholarly assessment of the depiction of precious metal objects in manuscripts and the media used to conjure them From Paris to the Abbasid caliphate and from Ethiopia to Bruges the case studies gathered here forge novel approaches to the materiality and pictoriality of illumination In exploring the semiotic material iconographic and technical dimensions of these manuscripts the authors reveal the canny ways in which painters generated metallic presence on the page **Illuminating Metalwork** is a landmark contribution to the study of the medieval book and its visual and embodied reception and is poised to be a staple of research in art history and manuscript studies accessible to undergraduates and specialists alike **Telling Images** V. which was painted around 1415 by the Boucicaut Master under King Charles VII of France **The Prayer Book of Charles the Bold** Antoine de Schryver, 2008 In January 1469 the accounts of Duke Charles the Bold of Burgundy reigned 1467-77 record a payment to the noted scribe Nicolas Spierinc for having written some prayers for my lord Seven months later the same accounts record a payment to the illuminator Lievin van Lathern for twenty five miniatures plus borders and decorated initials in the same manuscript In this study the late Antoine de Schryver an internationally renowned art historian presents a thoroughly researched and balanced argument suggesting that the documents refer to the exquisite prayer book of Charles the Bold which can now be found in the collection of the J Getty Museum book jacket *Sacred Landscapes* Bryan C. Keene, Alexandra Kaczynski, 2017-10-10 Distant blue hills soaring trees vast cloudless skies the majesty of nature has always had the power to lift the human spirit For some it evokes a sense of timelessness and wonder For others it reinforces religious convictions And for many people today it raises concerns for the welfare of the planet During the Renaissance artists from Italy to Flanders and England to Germany depicted nature in their religious art to intensify the spiritual experience of the viewer Devotional manuscripts for personal or communal use from small scale prayer books to massive choir books were filled with some of the most illusionistic nature studies of this period *Sacred Landscapes* which accompanies an exhibition at the J Paul Getty Museum presents some of the most impressive examples of this art gathering a wide range of illuminated manuscripts made between 1400 and 1600 as well as panel paintings drawings and decorative arts Readers will see the influence of such masters as Albrecht Dürer Jan van Eyck Leonardo da Vinci and Piero della Francesca and will gain new appreciation for manuscript illuminators like Simon Bening Joris Hoefnagel Vincent Raymond and the Spitz Master These artists were innovative in the early development of landscape painting and were revered throughout the early modern period The authors provide thoughtful examination of works from the fifteenth through seventeenth centuries *Textual and Visual Representations of Power and Justice in Medieval France* Rosalind Brown-Grant, Anne D. Hedeman, Bernard Ribémont, 2016-12-05 Thoroughly interdisciplinary in approach this volume examines how concepts such as the exercising of power the distribution of justice and transgression against the law were treated in both textual and pictorial terms in works produced and circulated in medieval French manuscripts and early printed books Analysing texts ranging from romances political allegories chivalric biographies and catalogues of famous men and women through saints lives mystery plays and Books of Hours to works of Roman canon and customary law these studies offer new insights into the diverse ways in which the language and imagery of politics and justice permeated French culture particularly in the later Middle Ages Organized around three closely related themes the prince as a just ruler the figure of the judge and the role of the queen in relation to matters of justice the issues addressed in these studies such as what constitutes a just war what treatment should be meted out to prisoners what personal qualities are needed for the role of lawgiver and what limits are placed on women's participation in judicial processes are ones that are still the subject of debate today What the contributors show above all is

the degree of political engagement on the part of writers and artists responsible for cultural production in this period With their textual strategies of exemplification allegorization and satirical deprecation and their visual strategies of hierarchical ordering spatial organization and symbolic allusion these figures aimed to show that the pen and paintbrush could aspire to being as mighty as the sword wielded by Lady Justice herself

The Grove Encyclopedia of Medieval Art and Architecture Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture

Faces of Power & Piety Erik Inglis, 2008 Faces of Power and Piety is the second in the Medieval Imagination series of small affordable books that draw on manuscript illuminations in the collections of the J Paul Getty Museum and the British Library Each volume focuses on a particular theme to provide an accessible and delightful introduction to the imagination of the medieval world The vivid and charming faces featured in this volume include portraits of both illustrious historical figures and celebrated contemporaries They reveal that medieval artists often disregarded physical appearance in favor of emphasizing qualities such as power and piety capturing how their subjects wished to be remembered for the ages Faces of Power and Piety also looks at the development of portraiture in the modern sense during the Renaissance when likeness became an important component of portrait painting An exhibition of the same name will be on view at the J Paul Getty Museum from August 12 through October 26 2008
