The Image of Christ in Russian Literature John Givens, 2018-05-29 Vladimir Nabokov complained about the number of Dostoevsky's characters sinning their way to Jesus In truth Christ is an elusive figure not only in Dostoevsky's novels but in Russian literature as a whole The rise of the historical critical method of biblical criticism in the nineteenth century and the growth of secularism it stimulated made an earnest affirmation of Jesus in literature highly problematic If they affirmed Jesus too directly writers paradoxically risked diminishing him either by deploying faith explanations that no longer persuaded in an age of skepticism or by reducing Christ to a mere argument in an ideological dispute The writers at the heart of this study

understood that to reimage Christ for their age they had to make him known through indirect even negative ways lest what they say about him be mistaken for cliché doctrine or naïve apologetics The Christology of Dostoevsky Leo Tolstoy Mikhail Bulgakov and Boris Pasternak is thus apophatic because they deploy negative formulations saying what God is not in their writings about Jesus Professions of atheism in Dostoevsky and Tolstoy's non-divine Jesus are but separate negative paths toward truer discernment of Christ This first study in English of the image of Christ in Russian literature highlights the importance of apophaticism as a theological practice and a literary method in understanding the Russian Christ It also emphasizes the importance of skepticism in Russian literary attitudes toward Jesus on the part of writers whose private crucibles of doubt produced some of the most provocative and enduring images of Christ in world literature This important study will appeal to scholars and students of Orthodox Christianity and Russian literature as well as educated general readers interested in religion and nineteenth century Russian novels

Russia's Dangerous Texts Kathleen F. Parthe, 2008-10-01 Russia's Dangerous Texts examines the ways that writers and their works unnerved and irritated Russia's authoritarian rulers both before and after the Revolution Kathleen F Parth identifies ten historically powerful beliefs about literature and politics in Russia which include a view of the artistic text as national territory and the belief that writers must avoid all contact with the state Parth offers a compelling analysis of the power of Russian literature to shape national identity despite sustained efforts to silence authors deemed subversive No amount of repression could prevent the production distribution and discussion of texts outside official channels Along with tragic stories of lost manuscripts and persecuted writers there is ample evidence of an unbroken thread of political discourse through art The book concludes with a consideration of the impact of two centuries of dangerous texts on post Soviet Russia

Permanent Liminality and Modernity Arpad Szakolczai, 2016-10-04 This book offers a comprehensive sociological study of the nature and dynamics of the modern world through the use of a series of anthropological concepts including the trickster schismogenesis imitation and liminality Developing the view that with the theatre playing a central role the modern world is conditioned as much by cultural processes as it is by economic technological or scientific ones the author contends the world is to a considerable extent theatrical a phenomenon experienced as inauthenticity or a loss of direction and meaning As such the novel is revealed as a means for studying our theatricalised reality not simply because novels can be understood to be likening the world to theatre but because they effectively capture and present the reality of a world that has been thoroughly theatricalised and they do so more effectively than the main instruments usually employed to analyse reality philosophy and sociology With analyses of some of the most important novelists and novels of modern culture including Rilke Hofmannsthal Kafka Mann Blixen Broch and Bulgakov and

focusing on fin de siècle Vienna as a crucial threshold chronotope of modernity Permanent Liminality and Modernity demonstrates that all seek to investigate and unmask the theatricalisation of modern life with its progressive loss of meaning and our deteriorating capacity to distinguish between what is meaningful and what is artificial Drawing on the work of Nietzsche Bakhtin and Girard to examine the ways in which novels explore the reduction of human existence to a state of permanent liminality in the form of a sacrificial carnival this book will appeal to scholars of social anthropological and literary theory

Stalin in Russian Satire, 1917-1991 Karen L. Ryan, 2009-11-24 During Stalin's lifetime the crimes of his regime were literally unspeakable More than fifty years after his death Russia is still coming to terms with Stalinism and the people's own role in the abuses of the era During the decades of official silence that preceded the advent of glasnost Russian writers raised troubling questions about guilt responsibility and the possibility of absolution Through the subtle vehicle of satire they explored the roots and legacy of Stalinism in forms ranging from humorous mockery to vitriolic diatribe Examining works from the 1917 Revolution to the fall of the Soviet Union in 1991 Karen L. Ryan reveals how satirical treatments of Stalin often emphasize his otherness distancing him from Russian culture Some satirists portray Stalin as a madman Others show him as feminized animal like monstrous or diabolical Stalin has also appeared as the unquiet dead a spirit that keeps returning to haunt the collective memory of the nation While many writers seem anxious to exorcise Stalin from the body politic for others he illuminates the self in disturbing ways To what degree Stalin was and is in us is a central question of all these works Although less visible than public trials policy shifts or

statements of apology Russian satire has subtly yet insistently participated in the protracted process of de Stalinization
