The Destruction of Medieval Manuscripts in England Krista A. Milne, 2025-03-28 The Dissolution of the Monasteries 1536 40 is widely held as the single most significant event in England's history of the destruction and loss of medieval manuscripts Despite this consensus the ultimate impact of the Dissolution and of medieval manuscript destruction during the centuries that followed remains unclear How did Reformation era losses compare to those which preceded the Reformation and to those that followed it How did the losses caused by sectarian conflicts compare to more quotidian kinds of loss such as improper storage or deliberate de acquisition Which manuscripts were targeted when were they targeted and how should one account for the inevitably skewed record In *The Destruction of Medieval Manuscripts in England* Krista A Milne asks these questions to better understand literary taste behavioural patterns and the circulation of knowledge throughout the medieval period Milne explores methods drawn from quantitative codicology to explore the most significant moments of manuscript loss in the history of England The evidence suggests that this destruction was much more limited in its targets but far more extensive in scope than is usually acknowledged Overwhelmingly throughout the investigation the manuscripts most at risk were those considered too new to qualify as antique but too old to be au courant This pattern of destruction which Milne describes as the principle of age without vintage remains apparent in many different domains today

TERENCE SCULLY ALAIN TOUWAIDE LINDA EHRSAM VOIGTS *Aelfric and the Cult of Saints in Late Anglo-Saxon England* Mechthild Gretsch, 2006-01-19 The cult of saints was one of the most important aspects of life in the Middle Ages and it often formed the nucleus of developing group identities in a town a province or a country The literature of Anglo Saxon England is unique among contemporary European literatures in that it features a vast amount of saints Lives in the vernacular Of these Lives lfric is the most important author and his saints Lives have never previously been explored in their contemporary setting In this study Gretsch analyses lfric s Lives of five important saints in the light of their cults in Anglo Saxon England This gives the reader fascinating glimpses of lfric at work he adapts the cults and rewrites the received Latin hagiography of the five saints with the result that each of their English Lives conveys a distinct message to the contemporary political elite and to a lay audience at large

New Readings in the Vercelli Book Andy Orchard, Samantha Zacher, 2009-01-01 New Readings in the Vercelli Book addresses central questions concerning the manuscript s intended use mode of compilation and purpose and offers a variety of approaches on such topics as orthography style genre theme and source study

The Sibyl and Her Scribes Anke Holdenried, 2017-05-15 The Sibylla Tiburtina is a Latin prophecy attributed to a prophetess from classical antiquity It concludes with an account of the End of History involving the coming of the Antichrist and his battle with a Last World Emperor Approximately 100 manuscripts written between the mid 11th and the 16th centuries survive which testify to the Tiburtina s immense popularity in the medieval West as such the Tiburtina is a key text for understanding medieval apocalypticism and occupies an important place in the intellectual history of the Middle Ages However studies of the manuscripts and the history of the text have been largely neglected in comparison with other similar works so little is currently known about who copied and read the prophecy Dr Holdenried s research fills this gap This study is based on an examination of all surviving manuscripts and includes an analysis of the textual material which accompanies the Tiburtina a survey of titles and annotations as well as research on variant texts including several hitherto unknown Modern historiography regards the Tiburtina solely as a vehicle for expressing contemporary political concerns triggered by crises thought to herald the End of the World This book provides a much more varied picture and offers a new approach to the Tiburtina by placing it for the first time in the context of medieval traditions which saw Sibylline prophecy as independent non Christian evidence of Christ s life and as confirmation of His divinity As is shown these traditions had a major impact on the reception of the Tiburtina The book concludes with a repertory of the manuscripts together with brief outlines of individual textual traditions as represented in groups of manuscripts which will constitute a valuable reference source for other scholars

Married Life in the Middle Ages, 900-1300 Elisabeth van Houts, 2019-01-31
 Married Life in the Middle Ages 900 1300 contains an analysis of the experience of married life by men and women in Christian medieval Europe c 900 1300 The study focusses on the social and emotional life of the married couple rather than on the institutional history of marriage breaking it into three parts Getting Married the process of getting married and wedding celebrations Married Life the married life of lay couples and clergy their sexuality and any remarriage and Alternative Living which explores concubinage and polygyny as well as the single life in contrast to monogamous sexual unions In this volume van Houts deals with four central themes First the tension between patriarchal family strategies and the individual family member's freedom of choice to marry and if so to what partner second the role played by the married priesthood in their quest to have individual agency and self determination accepted in their own lives in the face of the growing imposition of clerical celibacy third the role played by women in helping society accept some degree of gender equality and self determination to marry and in shaping the norms for married life incorporating these principles fourth the role played by emotion in the establishment of marriage and in married life at a time when sexual and spiritual love feature prominently in medieval literature

The Care of Nuns Katie Ann-Marie Bugyis, 2019-04-01 In her ground breaking new study Katie Bugyis offers a new history of communities of Benedictine nuns in England from 900 to 1225 By applying innovative paleographical codicological and textual analyses to their surviving liturgical books Bugyis recovers a treasure trove of unexamined evidence for understanding these women's lives and the liturgical and pastoral ministries they performed She examines the duties and responsibilities of their chief monastic officers abbesses prioresses cantors and sacristans highlighting three of the ministries vital to their practice liturgically reading the gospel hearing confessions and offering intercessory prayers for others Where previous scholarship has argued that the various reforms of the central Middle Ages effectively relegated nuns to complete dependency on the sacramental ministrations of priests Bugyis shows that in fact these women continued to exercise primary control over their spiritual care Essential to this argument is the discovery that the production of the liturgical books used in these communities was carried out by female scribes copyists correctors and creators of texts attesting to the agency and creativity that nuns exercised in the care they extended to themselves and those who sought their hospitality counsel instruction healing forgiveness and intercession

Britain and Ireland and the religious and lay communities who shaped it *A Companion to the Abbey of Le Bec in the Central Middle Ages (11th–13th Centuries)*, 2017-10-02 This Companion to the Abbey of Le Bec in the Central Middle Ages 11th 13th Centuries offers the first major collection of studies dedicated to the medieval abbey of Le Bec one of the most important and perhaps the single most influential monastery in the Anglo Norman world Following its foundation in 1034 by a knight turned hermit called Herluin Le Bec soon developed into a religious cultural and intellectual hub whose influence extended throughout Normandy and beyond The fourteen chapters gathered in this Companion are written by internationally renowned experts of Anglo Norman studies and together they address the history of this important medieval institution in its many exciting facets The broad range of scholarly perspectives combined in this volume includes historical and religious studies prosopography and biography palaeography and codicology studies of space and identity as well as theology and medicine Contributors are Richard Allen Elma Brenner Laura Cleaver Jean Herv Foulon Giles E M Gasper Laura L Gathagan Vronique Gazeau Leonie V Hicks Elizabeth Kuhl Benjamin Pohl Julie Potter Elisabeth van Houts Steven Vanderputten Sally N Vaughn and Jenny Weston *The Long Twelfth-Century View of the Anglo-Saxon Past* Martin Brett, David A. Woodman, 2016-03-03 Scholars have long been interested in the extent to which the Anglo Saxon past can be understood using material written and produced in the twelfth century and simultaneously in the continued importance or otherwise of the Anglo Saxon past in the generations following the Norman Conquest of England In order to better understand these issues this volume provides a series of essays that moves scholarship forward in two significant ways Firstly it scrutinises how the Anglo Saxon past continued to be reused and recycled throughout the longue dure of the twelfth century as opposed to the early decades that are usually covered Secondly by bringing together scholars who are experts in various different scholarly disciplines the volume deals with a much broader range of historical linguistic legal artistic palaeographical and cultic evidence than has hitherto been the case Divided into four main parts The Anglo Saxon Saints Anglo Saxon England in the Narrative of Britain Anglo Saxon Law and Charter and Art history and the French Vernacular it scrutinises the majority of different genres of source material that are vital in any study of early medieval British history In so doing the resultant volume will become a standard reference point for students and scholars alike interested in the ways in which the Anglo Saxon past continued to be of importance and interest throughout the twelfth century **Blessed Mary and the Monks of England** Matthew J. Mills, 2024 In the study of historical Mariology the monastic communities of England in the eleventh and twelfth centuries the period so dramatically interrupted and reshaped by the Norman conquest of 1066 receive too little attention This monastic age was a time of great flourishing for both religious life and Mariology marked by new currents of prayer and thought In this volume Matthew Mills uncovers and draws together vibrant contributions to Marian doctrine and devotion by some of those then living in England under the sixth century Rule of St Benedict the Benedictines and their successors the Cistercians In a thematic unfolding of Mary's life and identity from conception to assumption and intercession

a picture emerges of a Mariology shaped by the constant of monastic liturgy anchored in the biblical and patristic wisdom cherished and transmitted by the Venerable Bede and animated by love. Towering figures such as Anselm of Canterbury and Ired of Rievaulx are also placed within a wider landscape alongside lesser known but still significant others including the Cistercian abbot John of Forde, royal confessor and pioneer of Marian exegesis of the Song of Songs. England's monastic Mariology was colored by Greek as well as Latin influences and touched by key experiences of the contemporary church at large: apocalyptic disappointment, reform, sacramentalism and intense yearning for salvation. In particular, Mills brings to light the significance of Mary for monks' understanding of their own profession: their mother and their lady. Mary was also their icon and exemplar of life in St Benedict's school for the Lord's service. Rule Prologue 45.

The Cambridge Companion to the Age of William the Conqueror Benjamin Pohl, 2022-06-09 This Cambridge Companion offers readers a comparative cultural history of north western Europe in the crucial period of the eleventh century, the age of William the Conqueror. Besides England, Normandy and northern France, the volume also explores Scandinavia, the North Sea world, the insular world beyond the English Channel and various parts of Continental Europe. This Companion features essays designed specifically for those wishing to advance their knowledge and understanding of this important period of European history using a holistic and contextual perspective, deliberately shifting the focus away from William the man and onto the rich and fascinating culture of the world in which he lived and ruled. This was not the age created by William but the age that created him. With contributions by leading international experts, this volume provides an inclusive and innovative study companion that is both authoritative and timely.

The Cambridge History of the Book in Britain: Volume 1, c.400-1100 Richard Gameson, 2019-09-19 This is the first comprehensive survey of the history of the book in Britain from Roman through Anglo-Saxon to early Norman times. The expert contributions explore the physical form of books, including their codicology, script and decoration; examine the circulation and exchange of manuscripts and texts between England, Ireland, the Celtic realms and the Continent; discuss the production, presentation and use of different classes of texts, ranging from fine service books to functional schoolbooks; and evaluate the libraries that can be associated with particular individuals and institutions. The result is an authoritative account of the first millennium of the history of books, manuscript making and literary culture in Britain, which intimately linked to its cultural contexts, sheds vital light on broader patterns of political, ecclesiastical and cultural history extending from the period of the Vindolanda writing tablets through the age of Bede and Alcuin to the time of the Domesday Book.

It discusses numerous neglected or unknown texts focusing particularly on documents chronicles and sermons To tell the story of this pivotal period it adopts approaches from both literary criticism and historical linguistics finding a synthesis for them in a twenty first century philology It develops new methodologies for addressing major questions about twelfth century texts including when they were written how they were read and their relationship to earlier works Essential reading for anyone interested in what happened to English after the Norman Conquest this study lays the groundwork for the coming decade s work on transitional English A Companion to Josephus in the Medieval West Karen M. The Church and Vale of Evesham, 700-1215 D. C. Cox,2015 In c 701 a minster was founded in the lower Avon Valley on a deserted promontory called Evesham Over the next five hundred years it became a Benedictine abbey and turned the Vale of Evesham into a federation of Christian communities A landscape of scattered farms grew into one of open fields and villages manor houses and chapels Evesham itself developed into a town and the abbots played a role in the affairs of the kingdom But individual contemplation and prayer within the abbey were compromised by its corporate aspirations As Evesham abbey waxed ever grander exerting a national influence it became a ready patron of the arts but had less time for private spirituality The story ends badly in the prolonged scandal of Abbot Norreis a libertine whose appetites caused religion to collapse at Evesham before his own sudden downfall This book integrates the evidence of archaeology maps and documents in a continuous narrative that pays as much attention to religious and cultural life as to institutional and economic matters It provides a complete survey over one of the most important and wealthy Benedictine abbeys and its landscape a stage on which was enacted the tense interplay of lordship and prayer Back cover **New Medieval Literatures** Wendy Scase,Rita Copeland,David Lawton,2001-06-14 New Medieval Literatures is an annual containing the best new interdisciplinary work in medieval textual cultures
