NetCasters Craig von Buseck, 2010 The director of Christian Broadcasting Network's CBN.com highlights those who effectively spreading biblical Christianity online and encourages the church to follow their evangelistic lead Response to Disaster Henry W. Fischer III, 2008-08-21 Response to Disaster combines the original research of author Henry W. Fischer with the literature used today to describe behavioral and organizational challenges commonly experienced before, during, and after disasters. Actual problems are presented and compared to those often misperceived to occur, known as disaster mythology. Fisher examines case studies conducted during the post-impact and long-term recovery periods of major and minor disasters worldwide. He asserts that the role of the mass media assists in eliciting needed help with an effective response but also perpetuates disaster mythology. Fisher presents striking comparisons between the perception of disaster in the eyes of the general public, the actual situations emergency responders face, and the way mass media reporters broadcast information. Additionally, the problems encountered by emergency response organizations are compared and contrasted with general public and media perceptions of disaster response. Fisher presents the response to September 11, 2001, the South Asian tsunami, and hurricane Katrina in this comprehensive third edition. *Timber Home Living*, 1999 Timber Home Living introduces and showcases the beauty and efficiency of timber homes to an eager custom home buying audience.
