When Conscience Calls Kristen Renwick

Monroe,2023-10-06 What is moral courage Why is it important and what drives it An argument for why we should care about moral courage and how it shapes the world around us War totalitarianism pandemics and political repression are among the many challenges and crises that force us to consider what humane people can do when the world falls apart When tolerance disappears truth becomes rare and civilized discourse is a distant ideal why do certain individuals find the courage to speak out when most do not When Conscience Calls offers powerful portraits of ordinary people performing extraordinary acts be it confronting presidents and racist mobs or simply caring for and protecting the vulnerable Uniting these portraits is the idea that moral courage stems not from choice but from one s identity Ultimately Kristen Renwick Monroe argues bravery derives from who we are our core values and our capacity to believe we must change the world When Conscience Calls is a rich examination of why some citizens embrace anger bitterness and fearmongering while others seek common ground fight against dogma and stand up to hate *The Moral Psychology of Hope* Claudia Blöser,Titus Stahl,2019-11-13 That we can hope is one of the capacities that define us as human beings To hope means not just to have beliefs about what will happen but to imagine the future as potentially fulfilling some of our most important wishes It is therefore not surprising that hope has received attention by philosophers psychologists and by religious thinkers throughout the ages The contributions in this volume written by leading scholars in the philosophy of hope gives a systematic overview over the philosophical history of hope about contemporary debates and about the role of hope in our collective life *Why We Believe* Alister McGrath,2025-01-23 Belief surely it s a relic from the past a hangover from a superstitious age that is totally out of sync with today s rational science led culture A timely often bracing and always highly stimulating book Tom Holland author of *Dominion* and co host of *The Rest is History* In today s science driven rational world belief is dismissed as an artefact of a bygone era something absurd at best harmful at worst The prevailing narratives paint belief as primitive weird even dangerous But as life grows ever more confusing and our societies more atomised contemplating something bigger than ourselves has never been more vital Alister McGrath offers a fresh perspective on belief presenting it not as a weakness of rational thought but as an essential tool for navigating uncertainty Elegant and thought provoking *Why We Believe* reveals how belief provides meaning in the face of existential despair how it fosters community and offers solace As society moves beyond the dismissive rhetoric surrounding people of faith here is a powerful manifesto for the re enchantment of the Western mind Scholarly compulsively readable and with gems of information on every page a must read Revd Fergus Butler Gallie author of *A Field Guide to the English Clergy* *Kevin Macdonald's Metaphysical Failure: a Philosophical, Historical, and Moral Critique of Evolutionary Psychology, Sociobiology, and Identity Politics* Jonas E. Alexis,2022-04-25 In Kevin MacDonald s *Metaphysical Failure* Jonas E Alexis offers a thoroughly researched nuanced and lucid analysis of Kevin MacDonald s thought in particular MacDonald s belief in biological and philosophical Darwinism It is an important book that fills a critical gap in the literature on the history of revolutionary movements and Darwinism both in the West and in Asia It is

also a study that adds many significant strands to the densely interwoven history of ideas such as Malthusianism and Eugenics Alexis's book engages debates in the history of ideas going back to Madison Grant and beyond and the history of Darwinism It challenges many of the life long prevailing assumptions about identity politics and produces a powerful critique of how scientific theories have been misused to uphold misguided and faulty categorizations Powerfully reasoned and backed with a startling array of documented studies Kevin MacDonald's *Metaphysical Failure* presents an in depth look at key beliefs behind many mistaken and consequently destructive actions taken by numerous writers and thinkers particularly Darwin's ardent enthusiasts and devoted disciples The book presents eye opening insights into the historical development of Darwin's ideological project and how that project ended up crippling Darwin's intellectual children from Richard Dawkins Francis Crick James Watson Daniel Dennett Ernst Mayr and E O Wilson to Kevin MacDonald Richard Spencer David Duke and Jared Taylor

Grazer Philosophische Studien Johannes L. Brandl, 2004 *Herder's Political Thought* Vicki A.

Spencer, 2012-01-01 Johann Gottfried Herder was a philosopher and important intellectual presence in eighteenth century Germany Herder's *Political Thought* examines the work of this significant figure in the context of both historical and contemporary developments in political philosophy Vicki A. Spencer reveals Herder as one of the first Western philosophers to grapple seriously with cultural diversity without abandoning a commitment to universal values and the first to make language and culture an issue of justice As Spencer argues both have made Herder a source of inspiration for the pluralist turn of contemporary political philosophy Contending that in an era of globalization it is no longer possible to ignore Herder's crucial insights on the relationship between cultural membership and individual identity Spencer demonstrates how these ideas can help us understand and perhaps resolve the linguistic and cultural political struggles of our times
