Many Hands, One Dream Kurt M. Denk, S. J. Kurt M. Denk, M. Denk S. J. Kurt M. Denk S. J., 2004 **Mothercoin** Elizabeth Cummins Muñoz, 2022-05-03 A historical and cultural exploration of the devastating consequences of undervaluing those who conduct the women's work of childcare and housekeeping In taking up the mothercoin the work of mothering divorced from family and exchanged in a global market immigrant nannies embody a grave contradiction while women's work of childcare and housekeeping is relegated to the private sphere and remains largely invisible to the public world the love and labor required to mother are fundamental to the functioning of that world Listening to the stories of these workers reveals the devastating consequences of undervaluing this work As cleaners and caregivers are exported from poor regions into rich ones they leave behind a material and emotional absence that is keenly felt by their families On the other side of these borders children of wealthier regions are bathed and diapered and cared for in clean homes with folded laundry and sopa de arroz simmering on the stove while their parents work ever longer hours and often struggle themselves with these daily separations In the US many of these women's voices are silenced by language or fear or the habit of powerlessness But even in the shadows immigrant nannies live full and complicated lives moved by desire and loss and anger and passion Mothercoin sets out to tell these stories recounting the experience of Mexican and Central American women living and working in the private homes of Houston Texas while also telling a larger story about global immigration working motherhood and the private experience of the public world we have all created **Dreams Achieved and Denied** Robert Courtney Smith, 2024-08-01 U S born Mexicans in New York City have achieved perhaps the biggest single generation jump in mobility in American immigration history In 2020 42 percent of second generation U S born Mexican men and 49 percent of U S born Mexican women in New York City had graduated from college versus a 13 14 percent second generation college graduation rate for most places for most studies done in recent decades How did U S born Mexicans in New York City achieve such remarkable mobility In Dreams Achieved and Denied sociologist Robert Courtney Smith examines the laws policies and individual and family practices that promoted and inhibited their social mobility For over twenty years Smith followed the lives and mobility of nearly one hundred children of Mexican immigrants in New York City Smith's longitudinal ethnographic data enabled him to intimately describe how specific mechanisms blocked or promoted mobility for years as his participants moved from adolescence through early adulthood and into established adulthood Smith documents how having or gaining legal status made certain New York City or New York State policies and practices more efficacious in supporting individual and family efforts and strategies for mobility Such immigrant inclusive and mobility promoting measures include enabling undocumented people to attend public colleges at in state tuition rates and later to get driver's licenses offering healthcare to all in New York City and the City's subway and school choice systems which enabled students to attend better schools or take opportunities outside their neighborhoods Smith finds that keeping the immigrant bargain whereby children

of immigrants redeem their parents sacrifice by doing well in school helping their parents and siblings and becoming good people in their parents words helped them towards better adult outcomes and lives Having mentors picking academically stronger schools and friends and using second chance mechanisms also promoted more adult mobility However lacking legal status blocked mobility by preventing them from benefiting from these same mobility promoting city and state policies from mentors or from working hard and keeping the immigrant bargain Dreams Achieved and Denied deeply analyzes the historic upward mobility of U S born Mexicans in New York City It counters the dominant story research and public discourse tell about Mexican mobility in the U S and shows how thoughtful public policy can improve the lives of young immigrants and families

Hunter, 2004-03-17 From the early years of the African slave trade to America blacks have lived and laboured in urban environments Yet the transformation of rural blacks into a predominantly urban people is a relatively recent phenomenon only during World War One did African Americans move into cities in large numbers and only during World War Two did more blacks reside in cities than in the countryside By the early 1970s blacks had not only made the transition from rural to urban settings but were almost evenly distributed between the cities of the North and the West on the one hand and the South on the other In their quest for full citizenship rights economic democracy and release from an oppressive rural past black southerners turned to urban migration and employment in the nation's industrial sector as a new Promised Land or Flight from Egypt In order to illuminate these transformations in African American urban life this book brings together urban history contemporary social cultural and policy research and comparative perspectives on race

Re-creating Paul Bowles, the Other, and the Imagination Raj Chandarlapaty, 2014-11-05 As we withdraw farther from American canonical literature and poetry and move closer to a re appraisal of literature s impact upon the arts through media we may easily find a match for greater humanism and popular interaction in American rock culture through Paul Bowles In this work Bowles is re invented within the postmodern the postcolonial and the renegade future underscored by liberal elites that had breathed new life into the American counterculture Re Creating Paul Bowles attests to the moments of relentless humanism and imaginative transformation that are most dreamlike engaging the antagonism of psychology with imperialism at last In his youth a classical composer and critic Bowles deserves credit for spawning new generations of rock and pop music through his use of sound and tapping of non Western or non European folk music bringing classic ethnography to the rock generation with Music of Morocco Re Creating Paul Bowles examines the Latin American American African and Arab moments of his scholastic effort a primary beginning for understanding modern popular music s free transcription of tradition Re Creating Paul Bowles includes several examples of films that adapt the author s personal life and times the production of surrealist technique in film and literature and the re invention of classic works such as The Sheltering Sky and Collected Stories It assumes the technique for re production allows the elder Bowles greater freedom in crossing cultural boundaries and overruling the colonialist separateness that guarded cultural content for centuries Bowles has always deserved re appraisal in the American academy and liberation from his stereotypical cult figure identity a positive force in the ethnic comprehension of Self and society
