Mao's Last Revolution Roderick MacFarquhar, Michael Schoenhals, 2006-08-18 The Cultural Revolution was a watershed event in the history of the People s Republic of China the defining decade of half a century of communist rule Before 1966 China was a typical communist state with a command economy and a powerful party able to keep the population under control But during the Cultural Revolution in a move unprecedented in any communist country Mao unleashed the Red Guards against the party Tens of thousands of officials were humiliated tortured and even killed Order had to be restored by the military whose methods were often equally brutal In a masterly book Roderick MacFarquhar and Michael Schoenhals explain why Mao launched the Cultural Revolution and show his Machiavellian role in masterminding it which Chinese publications conceal In

often horrifying detail they document the Hobbesian state that ensued The movement veered out of control and terror paralyzed the country Power struggles raged among Lin Biao Zhou Enlai Deng Xiaoping and Jiang Qing Mao's wife and leader of the Gang of Four while Mao often played one against the other After Mao's death in reaction to the killing and the chaos Deng Xiaoping led China into a reform era in which capitalism flourishes and the party has lost its former authority In its invaluable critical analysis of Chairman Mao and its brilliant portrait of a culture in turmoil Mao's Last Revolution offers the most authoritative and compelling account to date of this seminal event in the history of China

ancient and beguiling game Mahjong players love the game because it's colorful, exotic and fun. Whether you're a first time player or a pro, *The Great Mahjong Book* is a perfect companion to the wide world of Mahjong. — *Zhou Enlai* Gao Wenqian, 2008-10-16

Zhou Enlai, the premier of the People's Republic of China from 1949 until his death in 1976, is the last Communist political leader to be revered by the Chinese people. He is considered a modern saint who offered protection to his people during the Cultural Revolution, an admirable figure in an otherwise traumatic and bloody era. Works about Zhou in China are heavily censored and every hint of criticism is removed, so when Gao Wenqian first published this groundbreaking, provocative biography in Hong Kong, it was immediately banned in the People's Republic. Using classified documents spirited out of China, Gao Wenqian offers an objective human portrait of the real Zhou, a man who lived his life at the heart of Chinese politics for fifty years, who survived both the Long March and the Cultural Revolution not thanks to ideological or personal purity but because he was artful, crafty and politically supple. He may have had the looks of a matinee idol and Nixon may have called him the greatest statesman of our era, but Zhou's greatest gift was to survive at almost any price thanks to his acute understanding of where political power resided at any one time. — *Mao's Military Romanticism* Shu Guang Zhang, 1995

Zhang argues that war in Korea offered Mao yet another opportunity to expand and consolidate his political power at home while at the same time uniting the Chinese proletariat against Yankee imperialism and proving to the international community that China had arrived as a major world power.
