scholars explore the complex physical and human characteristics of Canada's best known region. They attempt to formulate a geopolitical blueprint for preservation of both the natural elements and future enterprise. *Papers of the Bibliographical Society of Canada* Bibliographical Society of Canada, 1994 **Petworth Emigration Set** Wendy Cameron, Sheila Haines, Mary Maude, 2000-10-04 This set is comprised of the following 2 volumes: *Assisting Emigration to Upper Canada: The Petworth Project 1832-1837* English Immigrant Voices; *Labourers' Letters from Upper Canada in the 1830s* *Bulletin - Association of Canadian Map Libraries* Association of Canadian Map Libraries, 1997 Early Printed Maps of Canada Kenneth Andrew Kershaw, 1993 This Side of Heaven Norman N. Feltes rigorously Marxist approach situates the murders in a compelling web of economic, social, and geographical structures. *Mapping in Michigan & the Great Lakes Region* David I. Macleod, 2007 An illustrated chapter on the renowned Michigan map expert Louis Karpinski opens this volume following a comparative introduction by the noted cartographic historian David Buisseret. Twelve chapters tell particular stories. Often these narratives extend well beyond the limits of today's state of Michigan. American Indian mapmakers sought to give directions and convey cosmological meanings and political relationships; only gradually did they adopt the geometric framing and uniformity of European maps which reflected a different set of cultural attitudes. Would be colonial governors mapped to promote their dreams. Boundary commissioners surveyed and mapped to settle contested claims and lay the foundations for peace along the U.S.-Canadian border. On the Canadian side, surveyors drew maps to build up the new British colony against American influences and encroachments. Mapmakers were also ambitious entrepreneurs peddling illustrated county atlases to proud farm owners; bird's-eye views to show off towns and plots; and insurance maps to aid property development. In describing how people produced and used maps, contributors tell a larger story of one region's peoples and cultures and of a nation's zeal for exploration.
