container to prevent leaks from occurring in the first place. It requires understanding that debt elimination is not merely about mathematics or willpower but about creating systems that naturally guide your money toward wealth building rather than wealth destroying activities. The journey toward financial freedom begins with recognizing that debt is not inherently evil but rather a tool that has been misused by both lenders and borrowers. Credit cards, mortgages, auto loans, and student debt all serve legitimate purposes when used strategically. However, when these tools become the foundation of your financial structure rather than temporary bridges to specific goals, they transform from helpful instruments into wealth destroying machines that work against your long term interests.
