No One Ever Told Us School Mattered:

No One Ever Told Us That John D. Spooner, 2012-04-03 For decades John D Spooner has been one of America's leading financial advisers. Now as his own grandchildren are on the frightening cusp of adulthood, Spooner has chosen to impart his wisdom to them and to readers everywhere in the form of old-fashioned letters. This is the book that every grandparent or parent has always meant to write for their children but has never found the time to do so. In *No One Ever Told Us That*, John D. Spooner carefully crafts a series of essential life lessons that every young person just out of college or high school needs to read before they embark upon their own life's adventures. Told in friendly and reassuring tones, Spooner relates wonderful stories to illustrate and gently guide the next generation of what they can expect when searching for a job, how to know if you've found the right spouse, insights on how to plan for one's financial future, how the internet has changed our lives, dealing with adversity in life, and much more. *No One Ever Told Us That* condenses all of this key information into one volume and it's presented in a clear-eyed way that only a loving grandparent can. [Adolescence, Risk and Resilience](#) John

Coleman, Ann Hagell, 2007-12-17 Adolescence is often portrayed as an age of particular risk. Adolescents are not only considered a risk to themselves but also to the rest of society. As a society, we are nervous of them and consider them vulnerable, yet the seeds of successful and independent adult life are laid down in adolescence and they need all the help and support that they can get at a challenging time. *Adolescents at Risk: Against the Odds* looks in depth at some of the key risks faced by adolescents and at some of the ways in which they can be alleviated. The book is structured according to the operational challenges the research informs. **Hearings, Reports and Prints of the Senate Select Committee on**

Thomas Maissen, Barbara Mittler, 2018-06-25 Concepts of historical progress or decline and the idea of a cycle of historical movement have existed in many civilizations. In spite of claims that they be transnational or even universal, periodization schemes invariably reveal specific social and cultural predispositions. Our dialogue, which brings together a Sinologist and a scholar of early modern History in Europe, considers periodization as a historical phenomenon, studying the case of the Renaissance. Understood in the tradition of J. Burckhardt, who referred back to ideas voiced by the humanists of the 14th and 15th centuries and focusing on the particularities of humanist dialogue which informed the making of the Renaissance in Italy, our discussion highlights elements that distinguish it from other movements that have proclaimed themselves as Renaissance, studying in particular the Chinese Renaissance in the early 20th century. While disagreeing on several fundamental issues, we suggest that interdisciplinary and interregional dialogue is a format useful to addressing some of the more far-reaching questions in global history, e.g. whether and when a periodization scheme such as Renaissance can
