Seeking A City

Seeking A City:

Seeking the Welfare of the City Naomi Noguchi Reese, 2025-01-27 In the history of public theology the Holy Spirit's role in creation has been underexplored. If the Holy Spirit is the agent of transformation in creation why have so many theologians neglected the Spirit's activity in the context of public theology? One of the causes of such neglect derives from a long held belief in dualism or its assumption. As a result generally speaking theologians have neglected the eschatological aspect of the Spirit's work over creation and instead have devoted much of their attention to the immanent spiritual aspect of the Spirit's work. Hence a theology is needed that recaptures the eschatological aspect of the Spirit's work over creation and Colin E Gunton's pneumatology that is trinitarianly formulated and eschatologically conceived brings a fresh approach to public theology and moves us toward a full bodied holistic and trinitarian public theology that takes into account the triune God. This study attempts to draw upon the resources uncovered in Gunton's pneumatology to outline applications for Christian engagement of the public square for the twenty first century. The book concludes with criteria for discerning the Spirit's work in the public square to give us practical ways to see how the Spirit may be working in the public square for transformation.

Seek the Peace of the City Eldin Villafañe, 1995 This volume extends a summons to today's churches to give primacy once again to urban ministry. Villafañe lays out a vision of a church that unlike the trend today refuses to retreat from the challenges of city life.

Seek the Welfare of the City Bruce W. Winter, 1994 This is a print on demand book and is therefore non returnable. The first Christians were members of households possibly associations and certainly cities in the first century Graeco Roman world before they embraced the preaching of the gospel. This new six volume series which gathers contributors who are specialists in the intersection of the New Testament with the Graeco Roman world seeks for the first time to describe systematically the challenges difficulties and necessary adjustments involved in being a Christian to Graeco Roman society in the various spheres of life. In this first volume *Seek the Welfare of the City* Bruce W Winter maps out the role of obligations of Christians as benefactors and citizens in their society. Winter's scholarly insight is enhanced through the selective use of important ancient literary and nonliterary sources. Contrary to the popular perception that early Christians withdrew from society and sought to maintain a low profile this outstanding study explores the complexities of the positive commitments made by Christians in Gentile regions of the Roman Empire.
