Pierce, Peter de Voogd, 2023-04-17 Laurence Sterne's Tristram Shandy is the most wayward and in some respects the most powerful critique of Locke's theory of knowledge while his interest in the gulf between biological and clock time makes him a contemporary of Proust and Bergson In obscuring the fine line between autobiography and fiction Sterne belongs to the generation of modern writers that includes Joyce and Nabokov In his deliberate refusal to construct a go-ahead plot Sterne commends himself to contemporary narratologists In his concern with personal identity he anticipates the Derridean stress on trace In his promiscuous borrowings from past authors he offers himself as a suitably perverse model for the school of postmodern theory In his attention to matters of typography and to a visual language he provides a running commentary on almost every aspect of the relationship between word and image Himself influenced by Rabelais Montaigne Cervantes and Burton Sterne has influenced writers as diverse as Cabrera Infante Kundera Marquez Rushdie and Beckett And James Joyce These influences are traced here by sixteen scholars from Europe and the USA proof if any were needed that Laurence Sterne today is as rewardingly puzzling as he was in his own century **Journal of Evolutionary Psychology**, 2000

Poetics of Self and Form in Keats and Shelley Mark Sandy, 2017-03-02 Beginning with a reassessment of contemporary romantic studies this book provides a modern critical comparison of Keats and Shelley The study offers detailed close readings of a variety of literary genres including the romance lyric elegy and literary fragment adopted by Keats and Shelley to explore their poetic treatment of self and form The poetic careers of Keats and Shelley embrace a tragic affirmation of those darker elements latent in the earlier writings to meditate on their own posthumous reception and reputation Fresh readings of Keats and Shelley show how they conceive of the self as fictional and anticipate Nietzsche's modern theories of subjectivity Nietzsche's conception of the subject as a site of conflicting fictions usefully measures this emergent sense of poetic self and form in Keats and Shelley This Nietzschean perspective enriches our appreciation of the considerable artistic achievement of these two significant second generation romantic poets *Critical Texts*, 1984

Hollywood Shot by Shot Norman K. Denzin, 2017-09-04 To what extent have Hollywood feature films shaped the meanings that Americans attach to alcoholics their families and the alcoholic condition To what extent has the mass culture of the movie industry itself been conceptually shaped by a broad external societal discourse Norman Denzin brings to his life long study of alcoholism a searching interest in how cultural texts signify and lend themselves to interpretation within a social nexus Both historical and diachronic in his approach Denzin identifies five periods in the alcoholism films made between 1932 and the end of the 1980s and offers a detailed critical reading of thirty seven films produced during these six decades *The Poetry and Poetics of Nishiwaki Junzaburo* Hosea Hirata, 2014-07-14 This book offers an in depth investigation into the writings of one of modern Japan's most gifted poet scholars Nishiwaki Junzaburo 1894-1982 who has been compared to T S Eliot R M Rilke and Paul Valéry Exploring both his poetry and theoretical writings Hosea Hirata describes how Nishiwaki who wrote his first poems in English and French shaped a highly influential poetic modernism in

Japan while elevating the artistic status of translation This volume includes Nishiwaki's highly original essays on the nature of poetry his first two collections of Japanese poems and a poem meditating on the annihilation of symbolism The author maintains that in Japan the language of modernism was that of translation When Nishiwaki finally began to write poems in Japanese a new poetic language was born in his country a translatory language Hirata elaborates this birth of new poetry via translation by referring to the theories of translation and of difference articulated by Walter Benjamin and Jacques Derrida The author reconsiders the view that translated texts are secondary to the originals where the truth supposedly resides instead he presents translation as an essential textual movement critique toward the paradise of pure language and Poetry Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
