Long-term Care Sylvia Sherwood,1975 Healthy People : the Surgeon General's Report on Health Promotion and Disease Prevention, 1979 Institute of Medicine (U.S.),United States. Public Health Service. Office of the Surgeon General,United States. Office of the Assistant Secretary for Health,1979 Current Catalog National Library of Medicine (U.S.),1979 First multi year cumulation covers six years 1965 70 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1971 *Health Services to Older Americans* United States. Congress. Senate. Committee on Finance. Subcommittee on Health,1980 **Behavioral Methods in Social Welfare** Steven Paul Schinke,James. K Whittaker,Scott Briar,2017-09-08 Behavioral Methods in Social Welfare offers positive proof that behaviorism has come of age in social work Steven Paul Schinke and the contributors to this volume are social work practitioners who document their attempts to extend the basic tenets of behavioral psychology from the laboratory clinic and classroom to the full range of client groups and social problems that make up the practice of social work In social work education traditionally to the extent it appeared in the curriculum at all behavioral content appeared in electives or in courses not focused on practice It is a true measure of progress that behavioral methods are now visible integral component of social work education and practice The authors of each piece in this collection indicate progress in developing an empirically based approach to social work practice Despite the impressive documentation contained in the present volume no conclusive evidence as to the effectiveness of behavioral methods exists What behavioral methods do offer however is a systematic format for both problem intervention and evaluation that over time should produce a more empirically based practice A promising sign well documented in the present effort is the facility with which this book has subjected practice procedures to the rigor of research and evaluation This blending of clinical practice and research develops the sense of competence that student practitioners acquire in understanding and controlling both the art and science of their clinical practice Steven Schinke and his colleagues offer a series of snapshots of important work in process Their collective portrait provides a fresh perspective and new stimulus for all social work practice as well as an affirmation that disciplined responsive and sensitive social work intervention can make a difference in the lives of people **Health planning reports subject index** United States. Health Resources Administration,1979 *Health Care Politics, Policy, and Services* Tina Sacks,Emmeline Chuang,Angela Perone,2025-11-15 The fourth edition illuminates the ethical practical and moral elements of how Americans distribute health care resources This textbook offers a comprehensive overview of the U S health care system tracing its historical roots and examining how care is delivered and financed especially for older adults and individuals with disabilities It delves into key topics such as social determinants of health social epidemiology and the impact of racial inequities on health outcomes The content is framed through major social justice theories including Rawlsian Marxist Indigenous and Black feminist perspectives Contemporary issues like the COVID 19 pandemic and evolving reproductive

health policies are used to ground these concepts in real world application What's New Revised chapters on justice theory disability aging and health care reform New content on reproductive health policy changes and inequities Updated data on U S health financing delivery and health disparities Enhanced instructor resources with learning objectives and assignments Key Features Explores U S health care systems using case studies theory and up to date data on equity access and public health Equips students with critical thinking and policy analysis skills to address injustice in health care Includes discussion questions key terms learning goals and real life case studies for student engagement Tina Sacks Emmeline Chuang and Angela Perone bring interdisciplinary expertise and a shared commitment to racial health and policy equity Managing to Care Ann E. P. Dill, The point of departure for Managing to Care is widespread concern that the present delivery of health and social welfare services is fragmented uncoordinated inefficient costly wasteful and ultimately detrimental to clients health and wellbeing Dill traces the evolution of case management from its start as a tool for integrating services on the level of the individual client to its current role as a force behind the most significant trends in health care Those trends include the entrenchment of bureaucracy the challenges of once dominant professions and the rise of corporate control The author's purpose in adopting this analysis is to invite further scrutiny of the case management profession and at the same time to identify new possibilities for its application This volume brings together thoughts developed over many years of observing and participating in case management programs It provides a multilayered perspective of case management showing linkages among its social and historical contexts and the ways it is practiced today in diverse service settings The author emerged convinced about the essential need for care coordination and that present ways of providing care can work against our highest objectives in doing so The paradoxes and contraindications embedded in case management practice became a major theme of the book Managing to Care is highly critical of the ways case management has come to absorb and reflect the organizational flaws of the very service systems it was intended to reform Too often management of the case comes to dominate care The author does not call for a rejection of professional systems in favor of a resurrected informal community While much can and should be done to strengthen our ties to one another there will always be people whose problems require more expert help Dill argues here that case management can provide such help and provide it well but only if it is grounded in the human dimension of a caring relationship Ann E P Dill associate professor of sociology and gender studies at Brown University is a medical sociologist and social gerontologist Her research examines issues affecting the long term provision of health care and social services both in the United States and in countries formerly part of Yugoslavia
