Manufacturing Humans The Challenge Of The New Reproductive Technologies:

Manufacturing Humans David Gareth Jones,1987 **New Dictionary of Christian Ethics & Pastoral Theology** David J. Atkinson,David F. Field,Arthur F. Holmes,Oliver O'Donovan,2013-11-21 Encompassing a wide range of topics from the timely health care and business ethics to the traditional atonement suffering and the kingdom of God this work features an easy to use reference system and eighteen articles that introduce readers to key themes in moral pastoral and practical theology Edited by David J Atkinson and David F Field with consulting editors Arthur Holmes and Oliver O Donovan **At the Margins** D. Gareth Jones,2022-09-21 As a Christian who has functioned at the interface of biomedical science and faith for the whole of his professional life Gareth Jones is aware of the tensions and misunderstandings that frequently arise both inside and outside the church In this book he argues that Christians should not underestimate the importance of scientific contributions to an understanding of God s world He works this out by reference to his own experiences in approaching a number of contentious topics These include the use of embryos in reproductive technology research the place of vaccines in combatting viral pandemics like COVID 19 and understanding the gender debate Other examples he uses are the treatment of a genetic condition like cystic fibrosis and the importance of using only donated bodies for teaching and research in anatomy In working at these borderlands he recognizes that the best of biomedical science brings glory to God and enhances human existence All these areas are transformed by applying Christian values such as the dignity and equality of human beings Over the years he has learned how to be comfortable working in these borderlands even as they raise questions that trouble many within both society and the churches **Dictionary of Scripture and Ethics** Joel B. Green,Jacqueline E. Lapsley,Rebekah Miles,Allen Verhey,2011-11-01 2012 Reference Book of the Year Award Academy of Parish Clergy This one stop reference book on the vital relationship between Scripture and ethics offers needed orientation and perspective for students pastors and scholars Written to respond to the movement among biblical scholars and ethicists to recover the Bible for moral formation it is the best reference work available on the intersection of these two fields The volume shows how Christian Scripture and Christian ethics are necessarily intertwined and offers up to date treatment of five hundred biblical traditional and contemporary topics ranging from adultery bioethics and Colossians to vegetarianism work and Zephaniah The stellar ecumenical list of contributors consists of more than two hundred leading scholars from the fields of biblical studies and ethics including Darrell Bock David Gushee Amy Laura Hall Daniel Harrington Dennis Olson Christine Pohl Glen Stassen and Max Stackhouse *ThirdWay* ,1987-07 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1990 **Speaking for the Dead** D. Gareth Jones,Maja I. Whitaker,2016-04-01 Speaking for the Dead is an incisive examination of the highly topical and often controversial issues surrounding the use of human cadavers in scientific research Fully revised and updated to include recent developments in this area this new edition incorporates the repeated

organ scandals in the UK body parts scandals in the United States and the abuses of bodies in China The book provides new material on neuroimaging neuroethics and Alzheimer's disease and the major ethical issues they raise for society in addition to discussing plastination in the form of BodyWorlds types of exhibitions As human anatomists and bioethicists the authors offer a unique perspective on these issues crossing the boundaries between clinical medical legal and ethical concerns Their exploration of both historical and contemporary data results in a clear and comprehensive examination of issues at the forefront of bioethics With its clear writing style and use of non technical language *Speaking for the Dead* will be an essential book for all those interested in bioethics an area which continues to increase in significance with the development of new techniques for the manipulation of human cadavers As human anatomists and bioethicists the authors offer a unique perspective on these issues crossing the boundaries between clinical medical legal and ethical concerns Their exploration of historical developments as well as their analyses of recent case studies result in a pertinent and comprehensive examination of issues at the forefront of bioethics

On Behalf of God Bruce R. Reichenbach, Victor Elving Anderson, 1995 A comprehensive and useful discussion of Christian ethics applied to a variety of difficult and timely issues is no simple task but Reichenbach and Anderson have risen to it They have provided a book that is a great starting place for further consideration of topics such as the environment assisted reproduction abortion surrogacy the human genome the pursuit of knowledge the brain mind issue and human sexuality Their treatment of these issues is integrated by the adoption of a biblically based paradigm from Genesis filling ruling over and caring for This is a book packed with information suggestions and challenges Richard Bube Stanford University An important book for the Christian community The authors have rescued creation from the polemical battlefield it has become for too many Christians and have applied God's creation ordinances to some of the pressing practical issues of our time Their approach is wide ranging and novel getting us away from the tired debates about conservatives and liberals *On Behalf of God* may provide the fresh look at ethics that is badly missing in entrenched Christian circles I believe we may look back ten years from now and see this book as a watershed for Christian witness in the real world R J Berry University College London

Annals of Bioethics: Regional Perspectives in Bioethics Mark J. Cherry, John F. Peppin, 2005-08-10 *Regional Perspectives in Bioethics* illustrates the ways in which the national and international political landscape encompasses persons from diverse and often fragmented moral communities with widely varying moral intuitions premises evaluations and commitments

The Image of God, Personhood and the Embryo Calum MacKellar, 2017-04-25

Why are human embryos so important to many Christians What does theology say concerning the moral status of these embryos Answers to these questions can only be obtained by considering the manner in which Christian theology understands the great theme of the image of God This book examines the most important aspects in which this image and the related Christian notion of personhood can be used in the context of theological arguments relating to the moral status of the human embryo Thoughtful in approach and ecumenical in perspective the author combines a thorough knowledge of the

science of embryology with a broad knowledge of the theological implications Part I Historical and Contemporary Christian Perspectives 1 The Moral Status of the Embryo 2 The Image of God 3 Being a Person from a Christian Perspective Part II The Image of God Personhood and the Embryo 4 Creation and the Embryo 5 Incarnation and the Embryo 6 Substantive Aspects and the Embryo 7 Relational Aspects and the Embryo 8 Functional Aspects and the Embryo Conclusion Appendix The Moral Status of New Kinds of Embryo Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 Ethics Of In Vitro Fertilisation Tony Dyson,1994-12-01 Our Choices is a series which introduces specific subjects of concern and controversy within Christian ethics to a wide variety of readers Each subject is approached at a serious level but technical language is avoided The books should be useful in introductory seminary programmes in programmes for congregational development and also to individuals seeking information and guidance within their Christian life On 25th July 1978 Louise Brown the first test tube baby was born This event captured the public imagination and made the ethical issues surrounding artificial fertilization and embryology impossible to ignore In this text Tony Dyson examines the religious and moral implications for the individual and for society of this and other reproductive technologies *Issues Facing Christians Today* Dr. John R.W. Stott, John Wyatt, 2011-04-19 Terrorism Same sex marriage Debt cancellation The AIDS pandemic These are just some of the critical contemporary issues addressed in this book *Issues Facing Christians Today* helps thinking Christians sift through and respond to a sweeping array of complex and pressing topics Thoroughly revised and updated by Roy McCloughry and fully endorsed by John Stott this fourth edition continues a two decades plus legacy of bringing important current issues under the lens of biblically informed thinking Combining a keen global awareness with a gift for penetrating analysis the authors examine such vital topics as Pluralism and Christian witness Cohabitation environmentalism and ecological stewardship War and peace Abortion and euthanasia And much more An entirely new chapter on bio engineering has been contributed by Professor John Wyatt of University College London Including a study guide *Issues Facing Christians Today* is essential reading for Christians who wish to engage our culture with insight passion and faith knowing that the gospel is as relevant and deeply needed today as at any time in history As the culture wars continue this book will remain a critical contribution helping to define Christian social and ethical thinking in the years ahead

Bioethics and the Fetus James M. Humber, Robert F. Almeder, 1991-12-16 Who has more rights the mother or the fetus Interdisciplinary in scope and character this latest volume of Humana's classic series Biomedical Ethics Reviews focuses on the complex moral and legal problems involving human fetal life Each article in *Bioethics and the Fetus* provides an up to date review of the literature and advances bioethical discussion in its field The authors have avoided much of the technical jargon of philosophy and medicine in order to speak directly to a broad and general readership Topics include maternal fetal conflict the disposition of aborted fetuses frozen embryos creating children to save sibling's lives fetal tissue transplantation moral implications of fetal brain integration the embryo as patient prenatal diagnosis Probing deeply into these thorny issues

Bioethics and the Fetus offers thought provoking reading and paves the ground for new insight for a host of healthcare and other professionals as well as concerned laypersons

Ethics in Business and Society Gerhold K. Becker, 2012-12-06 faces the urgent problem of determining what political and social conditions must be preserved in order to ensure a continuing thriving economy 2 And the ethicist we may add can draw on all of those problems and quite a few more characteristic of situations when traditional communities struggle with the impact of sudden and unprecedented wealth as well as with a technological transformation of their society of singular proportions Hong Kong is truly a society in transition a society whose time is running short and which therefore cannot afford to wait long before it has to make decisive choices choices also in ethics The time factor which is so infamous in various ethical dilemmas applies here to the society as a whole it may also account for some of its not just morally significant shortcomings II Ethics in a Cross cultural Perspective The authors of this volume are scholars and researchers based in Hong Kong who have been living and working in the territory for many years They are not only representative of the increased research interest in ethical issues across the academic spectrum of Hong Kong universities but also of the interdisciplinary approach which has become the hallmark of work in applied ethics As is well documented ethics research at long last has left behind its disciplinary confines and even more so the philosophical ivory tower and begun to permeate the full scope of the academic and scientific agenda

Challenge and Change Norma C. Noonan, Vidya Nadkarni, 2016-11-11 This edited volume addresses how the state system the organizing political institution in world politics copes with challenges of rapid change unanticipated crises and general turmoil in the twenty first century These disruptions are occurring against the background of declining US influence and the rising power of countries in Asia Africa and Latin America Traditional interstate security concerns coexist with new security preoccupations such as rivalries likely to erupt over the resources of the global commons the threat of cyber warfare the ever present threat of terrorism and the economic and social repercussions of globalization The contributors explore these key themes and the challenges posed by rapid change

Science, Faith, and Ethics Denis Alexander, Robert S. White, 2006 Does religion belong in the laboratory What relationship exists between science and Christian faith Are the two mutually exclusive Arguing that Christianity has much to contribute to the scientific and ethical debates facing today's world gifted scientists and committed Christians Alexander and White ask the hard questions as they examine some of the greatest scientific and ethical challenges of the age Topics include the new genetics reproductive technologies cloning the significance of evolution the environment and climate change and sustainable consumption from publisher information

God in the Laboratory Al Truesdale, Albert Truesdale, 2000 At some point most people will have to face difficult moral decisions that arise due to advances in the world of science and technology Resolving these problems in ways faithful to Christian values requires a special commitment This book shows how to make and keep that commitment

Practical Decision Making in Health Care Ethics Raymond J. Devettere, 2016 In this revised fourth edition of the classic textbook Devettere updates most chapters adding new cases on

the following overriding advance directives the palliative care movement prenatal life and abortion neonatal testing and mandatory vaccinations facial transplantations genetic testing and legal issues surrounding the Affordable Care Act
