Allen, 2020-07-30 The Book of Revelation is a disorienting work full of beasts heavenly journeys holy war the End of the Age and the New Jerusalem It is difficult to follow the thread that ties the visions together and to makes sense of the work s message In *Manuscripts of the Book of Revelation* Garrick Allen argues that one way to understand the strange history of Revelation and its challenging texts is to go back to its manuscripts The texts of the Greek manuscripts of Revelation are the foundation for the words that we encounter when we read Revelation in a modern Bible But the manuscripts also tell us what other ancient medieval and early modern people thought about the work they copied and read The paratexts of Revelation the many features of the manuscripts that help readers to interpret the text are one important point of evidence Incorporating such diverse features like the traditional apparatus that accompanies ancient commentaries to the random marginal notes that identify the true identity of the beast paratexts are founts of information on how other mostly anonymous people interpreted Revelation s problem texts Allen argues that manuscripts are not just important for textual critics or antiquarians but that they are important for scholars and serious students because they are the essential substance of what the New Testament is This book illustrates ways that the manuscripts illuminate surprising answers to important critical questions We can learn to read the manuscripts even if we don t know the language **The Washington Manuscript of the Fourth Gospel** Henry A. Patzia, 2025-11-04 The story of the making of the New Testament is one in which scrolls bumped across cobbled Roman roads and pitched through rolling Mediterranean seas finally finding their destinations in stuffy dimly lit Christian house churches in Corinth or Colossae There they were read aloud and reread handled and copied forwarded and collected studied and treasured And eventually they were brought together to make up our New Testament This revised and expanded edition of *The Making of the New Testament* is a textbook introduction to the origin collection copying and canonizing of the New Testament documents Like shrewd detectives reading subtle whispers of evidence biblical scholars have studied the trail of clues and pieced together the story of these books Arthur Patzia tells the story answering our many questions How were books and documents produced in the first century What motivated the early Christians to commit teaching and narrative

The Resurrection of Jesus in the Gospel of Peter Jeremiah J. Johnston, 2016-01-28. All four canonical gospels identify the resurrection of Jesus yet none detail the exact moment of its happening. The absence of this narrative detail was hotly contested in the second century when critics derided a resurrection account without credible witness. Thus the discovery of the Akhmim fragment at the end of the 19th century which purports to provide exactly that detail is a huge and surprisingly underutilised addition to Biblical scholarship of the Apocryphal gospels. Johnston examines both the impact of this discovery on the scholarship at the time and argues for the dating of the fragment to the second century AD. He identifies shared characteristics with other documents from this period including a rise in anti-semitic feeling and developments in concepts of the afterlife and makes a claim for this fragment being the text that aided the development of these movements. The Second Century was the key time in which the non-canonical Biblical texts were established. It was also the era in which theologies which would become orthodox in the third century were penned and defined. The significance then of dating the Akhmim fragment to the second century AD is huge. This work will be of great use to scholars of Second Temple Judaism and those with an interest in the creation of the ideas that surround scholarship of the Bible.

*Miracle and Mission* James A. Kelhoffer, 2000. The Longer Ending of the Gospel of Mark Mark 16:9-20 was appended to the Gospel of Mark in the first half of the second century. James A. Kelhoffer explores this passage's distinct witness to the use of gospel traditions and the development of Christian thought. Concerning the origin of this passage he argues that a single author made use of the New Testament Gospels in forging a more satisfactory ending to Mark. He studies the passage's sometimes innovative literary forms as well. Also of interest is the passage's claim that the ascended Lord will help those who believe to perform miraculous signs: casting out demons, speaking in new languages, picking up snakes, drinking poison with impunity and healing the sick when they preach the gospel (verses 17-18, 20). This expectation is compared with portraits of miracles especially in the context of mission in the New Testament, various apocryphal acts and Christian apologists of the second and third centuries. In the two final chapters the author interprets the signs of picking up snakes (verse 18a) and drinking a deadly substance with impunity (verse 18b) in their history of religions contexts. An Epilogue summarizes the findings of this study and explores what can be ascertained about the otherwise unknown Christian author of Mark 16:9-20.
