Larsen, 1986 The book represents the first attempt to summarize the major factors in the ongoing debate on ideology and psychology The contributions on historical development focus on concrete research areas and show the importance of the social context and ideology in the development of psychology The contrast between positivist and dialectical psychology is a major contribution reflected in many of the chapters Suggestions are also made for new alternatives to assist in the orientation of psychology **Psychological Perspective of International Terrorism** Muniappa Rajamanickam, 2009 With special reference to South Asian countries **Mao Tse-tung** Fedor Burlat [s] [ki], 1980

Ideology and Organization in Communist China Franz Schurmann, 2023-11-10 In 1949 a powerful political military movement led by the Chinese Communist party gained control of war ravaged China inheriting a disorganized administration and a society eroded by decades of revolution Within a short time China was so radically transformed politically economically and socially that it appeared to have cut all links with the past The instruments of that transformation were ideology and organization Today seventeen years later the ideology and the organizational network despite changes remain as powerful as they were in 1949 They still hold that vast country together politically and determine its economic and social development This book after a discussion of ideology in its first part attempts to answer the question how Chinese Communist organization functions and why it is so successful The second part analyzes the organization of Party and government emphasizing methods of command and administration The third part looks at industrial organization the problems of management and control especially the continuing struggle between the professionals and the politicians The fourth part investigates the Chinese Communist methods of organizing their cities and villages tracing the history of village organization from traditional times through the Yanan period the land reform of the late 1940 s and the collectivization of the mid 1950 s to communization in 1958 Although organization has been constantly changing in China basic patterns are apparent The book analyzes the most characteristic pattern in all aspects of organization the conflict between two incompatible elements or in the Chinese Communist terms contradictions The basic contradiction is that between professional expert and political red elements This contradiction dominates the two distinctive periods in the short history of Communist China the First Five Year Plan 1953 1957 and the so called Great Leap Forward 1958 1960 The book describes how the Chinese Communists attempted during the former period to emulate the Soviet organizational experience with stress on techniques and technology and during the latter period to use their own organizational methods to achieve economic progress The presentation of the contrast between these two models of organization sheds light on the significant differences between the

Soviet Union and Communist China This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1966 *Department of the Army Pamphlet* ,1976 **Rewriting Psychology** David Y. F. Ho ,2019-06-15 Of what use is psychology if it does not help to solve the pressing problems of the day at the individual and collective levels This is no less a pointed question to the reader as it is to the author that sets the stage for an adventurous sharing of ideas The author shies away from providing ready made answers but spares no effort in stirring the reader to ponder questions about human nature and behavior Soon the reader will react with the exclamation Ah this book is about me useful to my life In this way the book serves to bridge the gap between academia and the general public As the reader may well expect bold assertions may be found throughout this volume For instance Piaget s stage of formal operations does not represent the final or highest level of cognitive development rather dialectical thinking is the apex of human cognition Viewpoints may be controversial such as cautioning against importing Confucian education into America the possibility that madness may enrich your life raising the question if Trump is immoral mentally deranged or both The present offering is at once audacious and provocative Having raised the question about the abysmal status of psychology the author feels compelled to take on the challenge of rewriting an academic discipline The reader is invited to consider new visions for psychology s future development both scientific and practical Fresh materials or distinctive features seldom found elsewhere are presented the author s secret thoughts and self revelations a discussion on the birth of evil and reinterpretation of the fall of humankind All these expand the traditional boundaries of psychology and bring it closer to be a science relevant to the human condition **Dogmatism, Ideology, and Political Behavior** Michael Stuart Cummings,1975 [Comrade Kryuchkov's Instructions](#) Christopher M. Andrew,Oleg Gordievsky,1993 This revealing selection of highly classified material provides a fascinating inside look at the workings and the thinking of the KGB The informative commentary by Christopher Andrew is based on joint analysis of the documents with Oleg Gordievsky a former KGB colonel who had been working as a double agent for British intelligence **The Lin Piao Affair (Routledge Revivals)** Michael Y.M. Kau,2016-06-17 First published in 1975 this book is concerned with the facts and implications of the case of Lin Piao and his army as well as with the broader question of military intervention in the authoritarian polity of developing countries A wide range of materials is presented including top secret documents of the CCP Central Committee Lin Piao s own writings and speeches from the 1966 1970 period pertinent material from the Tenth Party Congress and press criticism In their introduction the author provides a thorough critical analysis of the case of Lin Piao and of the dynamic of power politics that emerged from the Cultural Revolution in the late 1960s **Dark Psychology** Wesley Felt, This book consists of 12 titles all related to dark psychology You ll find topics such as Manipulation Gaslighting Sexual abuse Emotional abuse

Suicide Neuro Linguistic Programming Emotional Intelligence Jealousy Scams Human Trafficking Narcissism Lie Detection Sadomasochism OCD Autism Domestic Violence False Accusations Cults Charisma The Dark Triad Leadership Cognitive Behavioral Therapy Empathy Seduction Flirting Influence Persuasion Mind Control Hypnotherapy Deception Psychopathy Sociopathy Psychometry Paranoia Mentalism Brainwashing Blackmail And much much more Take this opportunity now and get this discounted HUGE bundle of books for a low price *Labyrinth: An Essay on the Political Psychology of Change* R.E. Brown,2013-10-22 Psychology in Contemporary China focuses on the advancement of psychology in China and the different areas to which this field is applied The book proceeds by outlining the evolution nature and characteristics of Chinese psychology The text then points out that studies on this discipline is generally difficult because of the lack of publication of resources in English The process of learning this field is often done through visitations with specialists going to China to conduct research and lectures The text investigates the evolution of psychology in China as well as its progress through education The relationship of this discipline with political and social concerns is highlighted and the progress of this field in universities in China is emphasized The practice of psychology in China is somewhat limited This lack is expressed by the fact that psychologists avoid questions that have political content An examination of the attitudes of Chinese is also presented and their views on individuality self criticism violence child rearing religion and modernization are discussed The book is of great importance for scholars and readers who research on the evolution growth and contributions of psychology to society **On Xi Jinping** Former Prime Minister Kevin Rudd, Kevin Rudd,2024-10-15 In On Xi Jinping former Australian Prime Minister Kevin Rudd provides an authoritative account of the worldview driving Chinese behavior on the world stage Focusing on domestic policy political economy and foreign policy Rudd argues that President Xi Jinping s worldview differs significantly from those of the leaders who preceded him and highlights how the shift has impacted policy A powerful analysis of the worldview of arguably the most consequential world leader of our era this will be essential reading for anyone interested in how Xi is transforming both China and the international order **Critical Discursive Psychology** I. Parker,2002-10-13 Critical Discursive Psychology addresses issues in critical discursive research in psychology and outlines the historical context in the discipline for the emergence of qualitative debates Key critical theoretical resources are described and assessed and a series of polemics is staged that brings together writers who have helped shape critical work in psychology It also sets out methodological steps for critical readings of texts and arguments for the role of psychoanalytic theory in qualitative research **Professional Journal of the United States Army** ,1972 **Communist Psychological Warfare (brainwashing)** United States. Congress. House. Committee on Un-American Activities, Edward Hunter,1958 **Tangled Roots: Social and**

Psychological Factors in the Genesis of Terrorism J. Victoroff, 2006-11-14 The book is organized to assist readers in finding the topics that interest them the most What do we really know about the contributing causes of terrorism Are all forms of terrorism created equal or are there important differences in terrorisms that one must know about to customize effective counter strategies Does poverty cause terrorism Are terrorists typically crazy vengeful misled or simply making an entirely sensible choice Why would people blow themselves and others up Is the war on terrorism even a useful idea Is it being fought wisely or are much better ideas staring policy makers in the face Do leaders of targeted nations wilfully neglect the best solutions Most of the lessons in this book concern the basic human ingredients that combust to produce violent extremism Thus regardless of the mutations that occur in substate terrorism the timeless scholarship here will hopefully be somewhat helpful even to our grandchildren
