**Chinese Marxism** Adrian Chan, 2003-06-29 This groundbreaking study of Chinese Marxism examines the ideology and praxis of Marxism as it has developed in China from its earliest beginnings to current debates This is the first systematic full length analysis of the development and nature of Marxist ideology in China Adrian Chan challenges established scholarship in both the West and China which continues to be overshadowed by Cold War dogma and party orthodoxy respectively It has long been argued that Chinese Marxism was merely an offshoot of Soviet thought blended with ill defined traditional Chinese ideas Using previously neglected Chinese sources including newspapers political journals and communist party documents Chan refutes this Showing how the first Chinese revolutionaries were directly influenced by the writings of Marx Chinese Marxism argues that Bolshevism was a secondary influence on Chinese communist thought Mao himself drew upon Marxian themes in the creation of party orthodoxy In doing so he signalled his differences from Lenin and Stalin on important issues of theory and practice However not all party leaders accepted this Marxian praxis This has led to continuous conflict between proponents of Maoist Marxism and Soviet type scientific Marxism Leninism Chinese Marxism presents detailed studies of the Great Leap Forward and the Cultural Revolution to illustrate the consequences of this ongoing ideological conflict and brings the story up to the present day with an analysis of the current Thermidorean Reaction and the controversial embracing of Confucianism

**Sino-Russian Relations** R.K.I. Quested, 2014-02-25 This book provides a systematic

history of Sino Russian relations a history which is invaluable in forming an understanding of relations between the two nations today Becoming neighbours in the seventeenth century their changing relations in peace and war in isolation cooperation and confrontation have steadily assumed a greater importance in world politics and become increasingly important to the stability of international relations **The War Hotel** Arlene Audergon,2004-12-10 Human Nature is the fuel of violent conflict The War Hotel looks at how we get aroused and how we get silenced into violent conflict We are pulled apart in the name of justice and loyalty Past trauma is triggered into a replay Out of love and longing to step beyond the ordinary world we sacrifice ourselves and others Dehumanizing the enemy disinformation torture stirring fear in order to crack down these terror tactics too are based in psychology The manipulation of psychological dynamics to create violent conflict is distressing But if our emotions and behaviour are the fuel then our awareness can impact world events There is something truly hopeful here Awareness makes a difference Examples draw particularly from the author s work in the Balkans Other examples include Nazi Germany Rwanda the Israeli Palestinian conflict Communism and its fall in Europe South Africa the treatment of Native Americans and African Americans in the USA Vietnam and the war on terror

Redefining Stalinism Harold Shukman,2004-11-23 Born in 1879 in Georgia Stalin joined the Bolsheviks under Lenin in 1903 and became General Secretary of the Communist Party in 1922 These edited papers reassess the deeds policies and legacy of a man who was responsible for innumerable deaths and untold human misery **The Image of China in Western Social and Political Thought** D. Jones,2001-10-16 David Martin Jones examines how China has been portrayed in European and subsequently North American social and political thought and what if anything this depiction tells us about the character of this thought Such a question immediately evokes the spectre of orientalism and subsequent chapters explore whether the identification of an orientalist project invalidates the knowledge claims of European and North American social and political thought as it evolved from the eighteenth to the twentieth century **People's War (RLE Modern East and South East Asia)** J.L.S. Girling,2017-09-19 This book first published in 1969 casts a critical eye over the problem of insurgency The author sees insurgency not just as a matter of technique military tactics or organizational skill nor as the result of force and fraud but as people s war the conditions in which the mass of the people become involved voluntarily or otherwise on either side He quotes Nasution s statement The guerrilla movement is only the result not the cause of the problem People s war brings the peasantry hitherto ignorant apathetic or rejected into the political process For war is the continuation of politics by other means In Asia this was essentially a peasant s war arising when peasant grievances interests or demands cannot be met under the existing legitimate but urban or landowner orientated system of rule It shows little understanding to blame outside intervention when peasant and nationalist unrest leads to revolt The Chinese Communists did not owe success to Soviet aid the Vietminh to Chinese assistance or the Vietcong to North Vietnamese intervention The conclusion applies to governments as to insurgents no amount of outside aid can win the war for them if they themselves are

incapable and the people on whom they depend for support have no will to fight This book based on first hand experience of the area and on study of original sources offers 1 an analysis of people s war in China Indochina and Vietnam 2 a critique of US policy in Laos and Vietnam and 3 a comparison with counter measures in Malaya the Philippines and Indonesia It is both original and constructive *Carl Schmitt, Mao Zedong and the Politics of Transition* Qi Zheng,2015-10-22 This book develops a new way of reading and benefiting from Schmitt s legal and political theories It explores Schmitt s theories from the perspective of what I refer to as the politics of transition It also contributes to identifying the real theoretical relationship between Schmitt and Mao *Daedalus* ,1973 **Routledge Library Editions: Modern East and South East Asia** Various Authors,2022-07-30 This 7 volume set reissues a range of classic out of print texts that cover a host of issues that have contributed to the development of modern East and South East Asia With titles covering economics politics history anthropology and security this set provides the researcher with an essential resource on the region *China and Africa* Ian Taylor,2007-01-24 With China s rise to the status of world power trade and political links between Africa and China have been escalating at an astonishing rate Ian Taylor an expert in this field gives a comprehensive assessment of relations between China and Africa *Democracy and Organisation in the Chinese Industrial Enterprise (1948-1953)* Bill Brugger,1976 Monograph comprising a political and sociological study of the development of a new system of factory management after the communist takeover in China presents a historical comparison of industrialization in tsarist and soviet Russia pre war Japan and china discusses the difficulty of reconciling extensive workers participation with rigid central control and analyses planning incentive policy the role of elected works councils etc In connection with this difficulty Bibliography p 327 to 354 diagrams references and statistical tables *Order and Justice in International Relations* Rosemary Foot,John Gaddis,Andrew Hurrell,2003-02-13 The relationship between international order and justice has long been central to the study and practice of international relations For most of the twentieth century states and international society gave priority to a view of order that focused on the minimum conditions for coexistence in a pluralist conflictual world Justice was seen either as secondary or sometimes even as a challenge to order Recent developments have forced a reassessment of this position Firstly many trends in the 1990s increased expectations of greater justice within a liberal and liberalizing international order for example in relation to human rights humanitarian intervention collective security and self determination Second globalization deepened the sense of ideational and material interdependence prompting acknowledgement that we co exist in a single world and that effective solutions to shared problems cannot be achieved without a concern for justice especially as the negative aspects of globalization have become more evident Third claims to justice and critiques of the existing order have been forcefully pressed by an increasing range of non governmental and other groups within transnational civil society These three developments suggest movement towards a greater solidarist consciousness and ambition based primarily on a liberal vision of the relationship between order and justice This book sets

current concerns within a broad historical and theoretical context explores the depth and scope of this presumed solidarism amidst the difficulties of acting on the basis of a more strongly articulated liberal position and underscores the complexity and abiding tensions inherent in the relationship between order and justice Chapters examine a wide range of state and transnational perspectives on order and justice including those from China India Russia the United States and the Islamic world Other chapters investigate how the order justice relationship is mediated within major international institutions including the United Nations the World Trade Organization and the global financial institutions

The Lost World of Communism Peter Molloy, 2009-10-13 1989 was a year of revolution it marked the collapse of communism in Eastern and Central Europe and an end to an entire way of life for millions of people behind the Iron Curtain Beginning in Hungary the retreat from communism picked up speed over the summer when the Poles won an overwhelming victory in free elections over their pro Soviet rulers In the fall East Germany and Czechoslovakia achieved freedom with surprisingly little violence Only Romania at the end of the year witnessed a savage battle in the capital and the summary execution of the most notorious of Eastern Europe's dictators Nicolae Ceausescu In The Lost World of Communism Peter Molloy producer of the accompanying BBC series collects first hand testimony of the people who lived in East Germany Czechoslovakia and Romania during the Cold War era and reveals an astonishingly rich tapestry of experience that goes beyond the headlines of spies and surveillance secret police and political corruption in fact many of the people remember their lives under communism as perfectly ordinary and even hanker for the security that it offered From international figures like Vaclav Havel and Lech Walesa via the shadowy figures of Eastern Europe's intelligence and security services to its ordinary citizens the voices collected on Peter Molloy's book evoke the moods preoccupations and experiences of a world of that vanished almost overnight
