Mao Zedong Report From Xunwu:

Report from Xunwu Zedong Mao, 1990 Long described as lost this report was the result of Mao Zedong's investigation in 1930 of the people economy society and history of the obscure rural county of Xunwu in South China. An extraordinary document that far exceeds in scope and depth Mao's other investigative reports on rural China, the report is a rich source of information on rural administration, commerce, transportation, communication, education, land tenure, taxation, religion, diverse social relations and practices, and struggle in one obscure area that was a microcosm of China. Thompson has translated and presented Mao's report with extensive notes. The book is designed to be accessible to non-specialists and it will be welcomed by those interested in the Chinese countryside, comparative revolution, and historical anthropology. Because Mao's report on Xunwu was part of a revolutionary programme, the report raises complex questions about academic and activist readings of social realities.

Mao's Road to Power: The pre-Marxist period, 1912-1920 Zedong Mao, Stuart Reynolds Schram, 1992 Minutes of the Third Day of the First Enlarged Meeting of the General Front Committee of the First Front Army of the Red Army, June 22.

Mao's Road to Power: Revolutionary Writings, 1912-49: v. 4: The Rise and Fall of the Chinese Soviet Republic, 1931-34 Zedong Mao, Stuart Schram, 2016-04-08. This projected ten-volume edition of Mao Zedong's

writings provides abundant documentation in his own words regarding his life and thought. It has been compiled from all available Chinese sources, including the many new texts that appeared in 1993 for Mao's centenary.

Civil War in China Suzanne Pepper, 1999. Many books have tried to analyze the reasons for the Chinese communist success in China's 1945-1949 civil war, but Suzanne Pepper's seminal work was the first and remains the only comprehensive analysis of how the ruling Nationalists lost that war—not just militarily but by alienating the civilian population through corruption and incompetence. Now available in a new edition, this authoritative investigation of Kuomintang failure and communist success explores the new research and archival resources available for assessing this pivotal period in contemporary Chinese history. Even more relevant today given the contemporary debates in Hong Kong and Taiwan over the terms of reunification with a communist-led national government in Beijing, this book is essential reading for anyone seeking a nuanced understanding of twentieth-century Chinese politics.

A Native Chieftaincy in Southwest China Jennifer Took, 2005. This book explores a Zhuang native chieftaincy enfranchised under the Chinese *tusi* system and its relationship with the Chinese imperial state. It sheds critical light on the social and political organization of the strategic Chinese-Vietnamese border area over 600 years.

Power over Property Matthew Noellert, 2020-10-13. Following the end of World War II in 1945, the Chinese Communist Party (CCP) spent the next three decades carrying out agrarian reform among nearly one-third of the world's peasants. This book presents a new perspective on the first step of this reform when the CCP helped redistribute over 40 million hectares of land to over three hundred million impoverished peasants in the nationwide land reform movement. This land reform, the founding myth of the People's Republic of China, 1949 present, and one of the largest redistributions of wealth and power in

history embodies the idea that an equal distribution of property will lead to social and political equality Power Over Property argues that in practice however the opposite occurred the redistribution of political power led to a more equal distribution of property China's land reform was accomplished not only through the state's power to define the distribution of resources but also through village communities prioritizing political entitlements above property rights Through the systematic analysis of never before studied micro level data on practices of land reform in over five hundred villages Power Over Property demonstrates how land reform primarily involved the removal of former power holders the mobilization of mass political participation and the creation of a new social political hierarchy Only after accomplishing all of this was it possible to redistribute land This redistribution moreover was determined by political relations to a new structure of power not just economic relations to the means of production The experience of China's land reform complicates our understanding of the relations between economic social and political equality On the one hand social equality in China was achieved through political not economic means On the other hand the fundamental solution was a more effective hierarchy of fair entitlements not equal rights This book ultimately suggests that focusing on economic equality alone may obscure more important social and political dynamics in the development of the modern world

Marxism in the Chinese Revolution

Arif Dirlik, 2005-06-07 Representing a lifetime of research and writing by noted historian Arif Dirlik the essays collected here explore developments in Chinese socialism and the issues that have occupied historians of the Chinese revolution for the past three decades Dirlik engages Chinese socialism critically but with sympathy for the aspirations of revolutionaries who found the hope of social political and cultural liberation in Communist alternatives to capitalism and the intellectual inspiration to realize their hopes in Marxist theory The book's historical approach to Marxist theory emphasizes its global relevance while avoiding dogmatic and Eurocentric limitations These incisive essays range from the origins of socialism in the early twentieth century through the victory of the Communists in mid century to the virtual abandonment by century's end of any pretense to a socialist revolutionary project by the leadership of the Chinese Communist Party All that remains of the revolution in historical hindsight are memories of its failures and misdeeds but Dirlik retains a critical perspective not just toward the past but also toward the ideological hegemonies of the present Taken together his writings reaffirm the centrality of the revolution to modern Chinese history They also illuminate the fundamental importance of Marxism to grasping the flaws of capitalist modernity despite the fact that in the end the socialist response was unable to transcend the social and ideological horizons of capitalism

America's Cold War against China

Peter Nolan, 2024-09-09 This book discusses how the USA has launched a new cold war against China Showing how this New Cold War can only be fully understood by analysing the long run history of the East and the West and the fundamental differences between the Old and the New Cold Wars this book outlines how the New Cold War focuses on issues connected with China's territorial integrity Xinjiang the South China Sea Hong Kong Taiwan and the closely connected conflict over semiconductors It analyses the way in which China has responded

to US led Western aggression by following the approach suggested by Confucius instead of returning aggression with kindness or returning aggression with aggression China has returned aggression with firmness The book argues that the United States effort to establish hegemony over Eurasia has failed and that in the face of this reality there is no choice for the USA other than to cooperate with China in order to resolve the existential issues facing the human species Demonstrating how US led aggression has been rendered ineffective this book will be a valuable resource to students and scholars of international relations and politics including those in both China and the USA People's Wars in China, Malaya, and Vietnam Marc Oppen, 2019-11-08 *People's Wars in China Malaya and Vietnam* explains why some insurgencies collapse after a military defeat while under other circumstances insurgents are able to maintain influence rebuild strength and ultimately defeat the government The author argues that ultimate victory in civil wars rests on the size of the coalition of social groups established by each side during the conflict When insurgents establish broad social coalitions relative to the incumbent their movement will persist even when military defeats lead to loss of control of territory because they enjoy the support of the civilian population and civilians will not defect to the incumbent By contrast when insurgents establish narrow coalitions civilian compliance is solely a product of coercion Where insurgents implement such governing strategies battlefield defeats translate into political defeats and bring about a collapse of the insurgency because civilians defect to the incumbent The empirical chapters of the book consist of six case studies of the most consequential insurgencies of the 20th century including that led by the Chinese Communist Party from 1927 to 1949 the Malayan Emergency 1948 1960 and the Vietnam War 1960 1975 *People's Wars* breaks new ground in systematically analyzing and comparing these three canonical cases of insurgency The case studies of China and Malaya make use of Chinese language archival sources many of which have never before been used and provide an unprecedented level of detail into the workings of successful and unsuccessful insurgencies The book adopts an interdisciplinary approach and will be of interest to both political scientists and historians Deng Xiaoping and the Chinese Revolution David Goodman, 2002-09-11 First published in 1994 Routledge is an imprint of Taylor Francis an informa company *Radicalism and Education Reform in 20th-Century China* Suzanne Pepper, 2000-07-10 The first comprehensive book to cover the whole sweep of twentieth century Chinese education The Rise to Power of the Chinese Communist Party Tony Saich, Benjamin Yang, 2016-09-16 This collection of documents covers the rise to power of the Chinese communist movement They show how the Chinese Communist Party interpreted the revolution how it devised policies to meet changing circumstances and how these policies were communicated to party members and public

Thought Reform and China's Dangerous Classes Aminda M. Smith, 2013 This book offers the first detailed study of the essential relationship between thought reform and the dangerous classes The prostitutes beggars petty criminals and other lumpenproletarians the Communists saw as a threat to society and the revolution Aminda Smith takes readers inside early PRC reformatories where the new state endeavored to transform vagrants into members of the laboring masses As

places where the people were literally created these centers became testing grounds for rapidly changing ideas and experiments about thought reform and the subjects they produced Smit **Smokeless Sugar** Emily M. Hill, 2010-10-20 Part history part biography and part mystery story Smokeless Sugar reveals how the concept of a national economy took shape in China by investigating the 1936 execution of Feng Rui a provincial official who introduced modern sugar milling in Guangdong Examining the circumstances of Feng Rui's arrest on charges of corruption Emily Hill traces the construction of a Chinese national economy through cross border interactions between industry and agriculture and between China and Japan She makes the case that Feng was in fact a scapegoat in a multi sided power struggle in which political leaders vied with commercial players for access to China's markets and tax revenues This illuminating study challenges conventional wisdom about the effectiveness of the Republican state in promoting national unity during the Nanjing decade and highlights continuities in official economic policies from the 1930s to the Communist era *Beyond Citizenship: Literacy and Personhood in Everyday China, 1900-1945* Di Luo, 2022-09-19 Beyond Citizenship focuses on the role of literacy in building a modern nation state by examining the government provision of adult literacy training in early twentieth century China Based on untapped archives and diaries Di Luo uncovers people's strategic use of literacy and illiteracy in social interactions and explores the impact of daily experiences on the expansion of state power Highlighting interpersonal and intergroup relations Beyond Citizenship suggests a new methodology of studying literacy which foregrounds the agentive role of historical actors and so moves away from a more traditional approach that treats literacy itself as the key factor enabling social change

Mission und Macht im Wandel politischer Orientierungen Ulrich van der Heyden, Holger Stoecker, 2005 Das Verhältnis christlicher Missionare und Missionsgesellschaften gegenüber den politischen Machthabern und Bewegungen im 19 und 20 Jahrhundert steht im Mittelpunkt des Sammelbandes Die Beiträge analysieren sowohl die wechselseitigen Beziehungen der Leitungen von Missionsgesellschaften zu den jeweiligen Regierungen in Europa als auch das Verhältnis ihrer Missionare Männer und Frauen auf den Arbeitsfeldern in Asien und Afrika zu den lokal bzw regional maßgeblichen politischen Kräften Kolonialmächte eigener oder fremder Nationalität souveräne Staaten lokale politische Systeme und Unabhängigkeitsbewegungen in den einzelnen Facetten Aus dem Inhalt C Auffarth aWeltreligion als ein Leitbegriff der Religionswissenschaft im Imperialismus T de Souza D Jose da Costa Nunes a Patriarch who Cared for More than Souls a Case of Caesaro papism in Portuguese India 1942 1953 R Elphick Dutch Reformed Missions and the Roots of the Apartheid Ideology W Ustorf Kairos 1933 Occidentosis Christofascism and Mission K Poewe Liberalism German Missionaries and National Socialism u a Daily Life for the Common People of China, 1850 to 1950 Ronald Suleski, 2018-10-22 In this exciting book Ronald Suleski introduces daily life for the common people of China in the century from 1850 to 1950 They were semi literate yet they have left us written accounts of their hopes fears and values They have left us the hand written manuscripts chaoben now flooding the antiques markets in China These documents represent a new and heretofore

overlooked category of historical sources Suleski gives a detailed explanation of the interaction of chaoben with the lives of the people He offers examples of why they were so important to the poor laboring masses people wanted horoscopes predicting their future information about the ghosts causing them headaches a few written words to help them trade in the rural markets and many more examples are given The book contains a special appendix giving the first complete translation into English of a chaoben describing the ghosts and goblins that bedeviled the poor working classes **Deng Xiaoping and the Chinese Revolution** David S. G. Goodman,1994 David Goodman reaches beyond China s spectacular economic success of recent years to understand the sources of Deng s political power This is a balanced evaluation of the career of one of the century s great political survivors **Street Criers** Hanchao Lu,2005 This is a rich and comprehensive study of beggars culture and the institution of mendicancy in China from late imperial times to the mid twentieth century with a glance at the resurgence of beggars in China today Generously illustrated the book brings to life the concepts and practices of mendicancy including organized begging state and society relations as reflected in the issues of poverty public opinions of beggars and various factors that contribute to almsgiving the role of gender in begging and street people and Communist politics Panoramically the reader will see that the culture and institution of Chinese mendicancy which had its origins in earlier centuries remained remarkably consistent through time and space and that there were perennial and lively interactions between the world of beggars and mainstream society Changing Clothes in China Antonia Finnane,2023-05-30 Historians have long regarded fashion as something peculiarly Western In this surprising sumptuously illustrated book Antonia Finnane challenges this view which she argues is based on nineteenth and twentieth century representations of Chinese dress as traditional and unchanging Fashions she shows were part of Chinese life in the late imperial era even if a fashion industry was not then apparent In the early twentieth century the key features of modern fashion became evident particularly in Shanghai and rapidly changing dress styles showed the effects The volatility of Chinese dress throughout the twentieth century matched vicissitudes in national politics Finnane describes in detail how the close fitting jacket and high collar of the 1911 Revolutionary period the skirt and jacket blouse of the May Fourth era and the military style popular in the Cultural Revolution gave way finally to the variegated globalized wardrobe of today She brilliantly connects China s modernization and global visibility with changes in dress offering a vivid portrait of the complex subtle and sometimes contradictory ways the people of China have worn their nation on their backs
