**The Atrocity Paradigm** Claudia Card, 2002-09-12 What distinguishes evils from ordinary wrongs Is hatred a necessarily evil Are some evils unforgivable Are there evils we should tolerate What can make evils hard to recognize Are evils inevitable How can we best respond to and live with evils Claudia Card offers a secular theory of evil that responds to these questions and more Evils according to her theory have two fundamental components One component is reasonably foreseeable intolerable harm harm that makes a life indecent and impossible or that makes a death indecent The other component is culpable wrongdoing Atrocities such as genocides slavery war rape torture and severe child abuse are Card s paradigms because in them these key elements are writ large Atrocities deserve more attention than secular philosophers have so far paid them They are distinguished from ordinary wrongs not by the psychological states of evildoers but by the seriousness of the harm that is done Evildoers need not be sadistic they may simply be negligent or unscrupulous in pursuing their goals Card s theory represents a compromise between classic utilitarian and stoic alternatives including Kant s theory of radical evil Utilitarians tend to reduce evils to their harms Stoics tend to reduce evils to the wickedness of perpetrators Card accepts neither reduction She also responds to Nietzsche s challenges about the worth of the concept of evil and she uses her theory to argue that evils are more important than merely unjust inequalities She applies the theory in explorations of war rape and violence against intimates She also takes up what Primo Levi called the gray zone where victims become complicit in perpetrating on others evils that threaten to engulf themselves While most past accounts of evil have focused on perpetrators Card begins instead from the position of the victims but then considers more generally how to respond to and live with evils as victims as perpetrators and as those who have become both

*Natural Moralities : A Defense of Pluralistic Relativism* Department of Philosophy Duke University David B. Wong Professor and Chair, 2006-09-07 David B Wong proposes that there can be a plurality of true moralities moralities that exist across different traditions and cultures all of which address facets of the same problem how we are to live well together Wong examines a wide array of positions and texts within the Western canon as well as in Chinese philosophy and draws on philosophy psychology evolutionary theory history and literature to make a case for the importance of pluralism in moral life and to establish the virtues of acceptance and accommodation Wong's point is that there is no single value or principle or ordering of values and principles that offers a

uniquely true path for human living but variations according to different contexts that carry within them a common core of human values We should thus be modest about our own morality learn from other approaches and accommodate different practices in our pluralistic society     *The Education Feminism Reader* Lynda Stone,Gail Masuchika Boldt,1994 This anthology includes some of the most important and influential essays in feminist education theory since the late 70s Contributors are drawn from traditional liberal feminists radical postmodern theorists and those with psychological philosophical and political agendas     *The Ethical School* Felicity Haynes,2002-01-04 Conflicts often arise between regulations making it difficult for school management teams and teachers to resolve situations with appropriate dignity and respect for all concerned This book discusses provocative actual case studies to help teachers to reflect on their own ethics guiding them to make more reasonable decisions in their schools and thereby gradually transforming schools into more cohesive and caring communities A model of consequences consistency and caring each aspect based on traditional ethical theories provides a scientific base a rational and a responsive base for ethical decision making This work covers such everyday problems as censorship inclusivity school uniform punishment personal gain and confidentiality and argues that care and respect for others equity rational autonomy and concern for long term benefits are more important for a school community than short term power and control     Educational Leadership Alexander W.
