Harvey, 2023-05-31 P D A Harvey is a historian of medieval rural England with a wide interest in the history of cartography this collection of his essays brings together both these strands It first looks at the English countryside from the 10th century to the 15th investigating problems in particular documents in the village community and in underlying long term changes How landlords drew profits from their property in the eleventh and twelfth centuries how and why there followed changes in the way landed estates were run and in the written records they produced what new light their personal seals can throw on medieval peasants are all among the topics discussed while the local management of large estates and the development of the peasant land market are themes that recur throughout There follow essays on the way maps were brought into the management of landed estates in the 16th and 17th centuries starting with the introduction of consistent scale into mapping

a new concept crucially important in the general history of topographical maps The collection closes by looking at some of the traps that both documents and maps set for the historian of the English countryside      **Maps in Tudor England** Paul D. Mancall,2010-03-16 Hakluyt's Promise demonstrates Hakluyt's prominent role in the establishment of English America as well as his interests in English opportunities in the East Indies The volume presents nearly fifty illustrations many unpublished since the sixteenth century and offers a fresh view of Hakluyt's milieu and the central concerns of the Elizabethan age Jacket      *The Anthony Roll of Henry VIII's Navy* D.M. Loades,2017-09-29 Here for the first time complete in print is the famous pictorial survey of Henry VIII's navy compiled in 1546 by Anthony Anthony a clerk in the ordnance office Originally comprising three rolls of vellum the MS features paintings of each of the king's 58 ships below which are set details of their guns shot and related equipment

Two of the original rolls were allegedly given by Charles II to Samuel Pepys who had them cut to form a volume which is one of the treasures of his library now at Magdalene College Cambridge The other roll remains in the British Library Several of the illustrations have become familiar especially that of the Mary Rose herself already a wreck when Anthony presented his work to the king The present edition re assembles the three parts of the Anthony Roll allowing the document to be seen in its original sequence for the first time in over 300 years The fleet which Henry VIII created is revealed as the king saw it in the last year of his life Because of the unusual format of the MS a complete facsimile is not presented here Anthony s paintings at Magdalene and in the British Library are reproduced in full colour from newly commissioned photographs Adjacent to each ship illustration is the relevant text given in its original spelling In the Introduction Anthony s personal and professional career is set out for the first time and the subsequent history of his MS is revealed as a subject of interest in its own right In order to explore the many facets of this remarkable document a work of art as well as an administrative record the Introduction includes essays by experts in the field of ordnance art history heraldry and fabric and on the oared vessels which were so distinctive a feature of the navy of the time Marine archaeologists from the Mary Rose Trust examine the accuracy of Anthony s representation and inventory of the Mary Rose in the light of the excavation of the ship In the second part of this
