Instantáneas de mundo Alfonsina Storni, 2023-12-01 Instantáneas de mundo presenta un conjunto misceláneo de artículos periodísticos poemas entrevistas y

cartas de Alfonsina Storni relacionados de diversas maneras con los viajes tanto los que realizo a lo largo de su vida como sus proyecciones metafóricas. Las mudanzas que desde el cantón suizo la llevaron a Buenos Aires para convertirse en una de las poetas más importantes de América Latina, los recorridos urbanos por Buenos Aires y Montevideo que transformó en crónicas y en versos, las visitas a Europa que registró con su prosa poética, los viajes por la pampa y el sur de Argentina que fueron tema de sus últimos escritos y por supuesto el mar al que le escribió desde siempre y donde se entregó a la muerte, todas sus derivas de vida y escritura ofrecen una perspectiva diferente a la habitual para acercarse a esta moderna subjetividad femenina. En Instantáneas de mundo los textos y las imágenes que los acompañan permiten como se la Alejandra Laera en el prólogo conocer una historia de vida marcada por esos desplazamientos: el de los comienzos y el de la muerte. Ambos la signaron a través de sus versos y más allá de ellos como una mujer especial a la que reconocemos por su solo nombre, Alfonsina.

Echinoderm Research and Diversity in Latin America Juan José Alvarado, Francisco Alonso Solís-Marín, 2012-08-07. This book compiles for the first time the development of echinoderm research in Latin America. The book contains 17 chapters: one introductory, 15 country chapters and a final biogeographic analysis. It compiles all the investigations published in international and local journals, reports, theses and other gray literature. Each chapter is composed of 7 sections: introduction, describes the marine environments and main oceanographic characteristics, followed by a history of research account divided by specific subjects. The next section addresses patterns of distribution and diversity. A specific section would explain fishery or aquaculture activities. The next sections deal with environmental and anthropogenic threats that are affecting echinoderm and any conservation or management action. Finally, a section with conclusions, needs and new lines of research. The book will include two appendixes with species lists of all echinoderms with bathymetric data, habitat and distribution. La obra apuesta por un empleo más riguroso de la noción de Ocio y por una visión de las industrias culturales que supere su visión exclusivamente manipuladora. Sin negar evidentemente su poder y examinando la formación de grandes mercados culturales y oligopolios poderosos, este estudio descubre también reductos de resistencia y formas de cultura popular opuestas al empuje de las industrias culturales modernas. El suyo es finalmente un espacio de constante negociación, transferencia y conflicto entre grupos ideológicos minoritarios sociales y políticos o potentes grupos empresariales configurado como un terreno privilegiado para las luchas, el control o las resistencias frente a los poderes políticos o sociales. En sus páginas no se ignoran bien al contrario las dimensiones de internacionalización y de configuración de culturas comunes en el espacio iberoamericano, pero se asume también la necesidad de superar visiones domesticas y

enfoques limitadamente nacionalistas De esta forma mientras que parte de sus contenidos exploran la evolución de algunos mercados nacionales particularmente activos en la construcción de industrias culturales viables en el espacio iberoamericano hasta la Segunda Guerra Mundial se acogen también estudios que muestran en capítulos como la industria editorial el deporte o la música popular el vigor de dinámicas comunes en el espacio ibérico y latinoamericano **Boletín de la Academia Nacional de Ciencias** Academia Nacional de Ciencias (Córdoba, Argentina),1920 Argentina ,2012

Advances in Marine Biology ,1990-12-05 This authoritative review will be valuable reference for marine biologists ecologists and taxonomists It is also an essential handbook for the penaeid fisheries biologist or aquaculturist and is a prerequisite for the rational exploitation and cultivation of penaeids Although penaeids are a large and diverse decapod group which have been exploited commercially in both fisheries and aquaculture for hundreds of years no comprehensive review of their biology has never been written The group's commercial importance has led to an unbalanced literature dominated by the fisheries and aquaculture aspects of the genus *Penaeus* often without an appreciation of their underlying biology This review adopts a multidisciplinary approach to give a comprehensive and up to date account of morphology taxonomy including larvae zoogeography physiology reproduction feeding growth behaviour and life histories Chapters discussing the parasites of and predation on penaeids are also included So much new material is presented that the book is more than just a review of the existing literature In synthesising the published information across this diverse family it puts the commercially important species and genera into a larger perspective pointing to deficiencies in our understanding and creating a framework for areas of future research *The Rio de la Plata (El Rio de la Plata)* Graham Richard Daborn,P. G. Wells,1997 The book is a product of the Ecoplata Project a joint Canada Uruguay project initiated by and coordinated through the Ocean Studies Program of Dalhousie University This book is the most recent attempt to summarize the oceanography of the Rio de la Plata the condition of its environment and the status of the white croaker fishery The book contains current knowledge of its geology hydrology and climate oceanography environmental quality plankton and benthic fish and fisheries biology the artisanal croaker fishery and prospects for its future integrated coastal management The chapters are based on information provided by a team of 30 expert contributors from Uruguay and Canada There are extensive bibliographies and an index The book will be valuable reference source for the Uruguay Canada Ecoplata Project and for the many public governmental educational scientific and private sector groups interested in integrated coastal management for Uruguay and its coastal neighbours It should also be of interest to many persons working globally in coastal oceanography and integrated coastal management Guía Peuser de turismo ,1955
