**Monadnock Originals** Alan F. Rumrill, 2023-04 The Monadnock Region has been referred to as New Hampshire's forgotten corner. It is a quiet region known for its historic New England villages and beautiful natural landscape. Overlooked tales from the past prove that this has not always been a quiet place. However, Mark Twain, Amelia Earhart, robber baron Jubilee Jim Fisk, infamous actress May Yohe, and miser Hetty Green, the richest woman in the United States, all spent time in the quiet corner. Noteworthy inventors, outspoken women, military heroes, nationally prominent businessmen, and dastardly criminals all called the region home. Local historian and author Alan F. Rumrill has compiled stories that reveal a region defined by its Yankee character and filled with Yankee characters. *The Boston Marathon* Tom Derderian; Bill Rodgers, 2014-04-01 Offering an inside look at the most famous marathon in the world, this exploration traces the Boston Marathon's 26.2 mile route from the starting line on narrow Main Street in Hopkinton to the Boylston Street finish line in downtown Boston, bringing to life the history, personalities, pivotal moments, and individual character of each city the race traverses. The Boston Marathon includes well-researched briefs on topics including Metcalf's Mill at Ashland, the unmarked starting point of the first race in 1897, the infamous 1967 battle over Kathrine Switzer's attempt to compete five years before women were allowed, and other vital race day elements. The book also includes a tribute to the victims of the tragic 2013 bombing near the finish line. This is a supremely entertaining glimpse at the history of the greatest running event in the world, from wacky entrants to hard-fisted managers, tortured disappointments, and glorious triumph. **The Endurance Paradox** Thomas J. Whipple, Robert B. Eckhardt, 2016-06-03 Marshaling new scientific evidence on the musculoskeletal system, this book provides an accessible guide to training that balances athletic performance and bone health over the life span with information essential for exercise physiologists, endurance athletes, fitness enthusiasts, and coaches. *The American Marathon* Pamela Cooper, 1998-04-01 Boston established a footrace, but New York City created a marathon culture that annually draws tens of thousands of runners to each of the major American events. The American Marathon is the first in-depth study of the marathon as a cultural performance that has as much power to unite communities across lines of race, ethnicity, class, and gender as it does to empower individuals. This book encompasses more than a century, from the fledgling days of the footrace in the 1890s to the popular contemporary marathons that have become corporate-sponsored institutions. Run in New York City in 1896 and continued in Boston for the next ten years, the marathon quickly became the event of the working-class athletes, particularly Irish Americans. Other urban ethnic groups, Italians, Jews, and African Americans, who were unwelcome into the elite WASP athletic clubs, formed their own running organizations. Once emblematic of the immigrant experience, the marathon evolved to express middle-class nationalism as these immigrants were being assimilated. During the 1930s, the Great Depression restricted footracing, and anti-Semitism left important coaches and runners without access to team support. The New York Pioneer Club, begun in 1936 as an African American team, brought the tremendous energy of post

World War II Harlem to the American marathon of the 1950s Besides examining the ethnic influence on marathoning Cooper also explores the impact of the Cold War on this sport when fitness and endurance became matters of national pride She shows how the Road Runners Club of America first brought women and large numbers of participant runners into long distance footraces and finally how corporate sponsorship and direct payments to athletes profoundly changed the nature of this once amateur sport
