Education ,1900 *Supports in Roman Marble Sculpture* Anna Anguissola,2018-02-15 Figural and non figural supports are a ubiquitous feature of Roman marble sculpture they appear in sculptures ranging in size from miniature to colossal and of all levels of quality At odds with modern ideas about beauty completeness and visual congruence these elements especially non figural struts have been dismissed by scholars as mere safeguards for production and transport However close examination of these features reveals the tastes and expectations of those who commissioned bought and displayed marble sculptures throughout the Mediterranean in the Hellenistic and Roman periods Drawing on a large body of examples Greek and Latin literary sources and modern theories of visual culture this study constitutes the first comprehensive investigation of non figural supports in Roman sculpture The book overturns previous conceptions of Roman visual values and traditions and challenges our understanding of the Roman reception of Greek art Marble Statuettes of the Roman Period Brian Martens,2025-07-18 The excavations of the Athenian Agora have played a major role in bringing to light the rich sculptural legacy of ancient Athens The project s storerooms boast one of the most important bodies of sculpture from classical antiquity covering the complete range and history of output in a storied center of artistic production This volume presents for the first time the marble statuettes and statuette fragments carved between the 1st century BCE and the 4th century CE that have been excavated from the Agora since 1931 Comprising one in six figural sculptures found at the site these works are

testament to a thriving demand for small divine images in Roman period Greece that has been insufficiently recognized until now Among these broken and battered figures are the portraits of polytheistic Athens naked Aphrodite at her bath winged Eros assisting his mother tired Herakles after a labor teenage Artemis aiming her bow attentive Asklepios dispatching cures The author marshals a detailed and heavily illustrated catalogue of 672 objects to offer new data to the study of Greek iconography and sculptural production Taken as a collective whole the statuettes document the vibrant religion society and art of Athens and beyond *Fragmentation in Archaeology* John Chapman,2013-04-15 Fragmentation in Archaeology revolutionises archaeological studies of material culture by arguing that the deliberate physical fragmentation of objects and their often structured deposition lies at the core of the archaeology of the Mesolithic Neolithic and Copper Age of Central and Eastern Europe John Chapman draws on detailed evidence from the Balkans to explain such phenomena as the mass sherd deposition in pits and the wealth of artefacts found in the Varna cemetery to place the significance of fragmentation within a broad anthropological context **Catalogue of the Objects of Indian Art Exhibited in the South Kensington Museum** Henry Hardy Cole,William Tayler,South Kensington Museum,1874 **Exhibition of the Royal Academy** ,1904
