The Marburg Chronicles Alfred Coppel,1987-02 Marburg Chronicles Outlet, Outlet Book Company Staff, Random House Value Publishing Staff, 1987-05-01 Athenaeum and Literary Chronicle James Silk Buckingham, John Sterling, Frederick Denison Maurice, Henry Stebbing, Charles Wentworth Dilke, Thomas Kibble Hervey, William Hepworth Dixon, Norman Maccoll, Vernon Horace Rendall, John Middleton Murry, 1835 The Medieval Chronicle, 2022-11-07 In the summer of 1996 the first international conference was held on the medieval chronicle a genre which until then had received but scant attention from historians or specialists in literary history or art history. There are several reasons why the chronicle is particularly suited as the topic of an international conference In the first place there is its ubiquity all over Europe and throughout the Middle Ages chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world Secondly all chronicles raise such guestions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions It is the aim of the present volume to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds Heart of the Country Greg Matthews, 2016-05-03 This epic Gothic Western about a half Indian outcast who becomes a famous buffalo hunter is a big sprawling novel of the West as it really was The Denver Post Perhaps Joe Cobden was always destined to be an outcast His Indian mother died in childbirth alone on a stagecoach road under a pitch black prairie sky His white father abandoned him in the name of his own ambition The wife of the doctor who adopted him despised him for his mixed race His classmates teased him for his curved spine Joe leaves nothing but pain behind as he lights out for the Kansas frontier It is the 1870s and Joe makes a name for himself as a famed buffalo hunter tracking a phantom white buffalo from the Mississippi River to the Rocky Mountains But his glory days as Joe Buffalo die as quickly as the slaughtered herds and he finds himself forced to settle in Valley Forge where the townsfolk each hide their own twisted secrets A gutsy raunchy rough blunt down to earth or mud novel in which little is sacred Heart of the Country paints a broad panorama of a demythologized American West populated with unforgettable and often unforgivable characters brought to life with stunning imagery and bold baroque prose Los Angeles Times The Prose Brut and Other Late Medieval Chronicles Jaclyn Rajsic, Erik Kooper, Dominique T. Hoche, 2016 Essays on the medieval chronicle tradition shedding light on history writing manuscript studies and the history of the book and the post medieval reception of such texts The histories of chronicles composed in England during the fourteenth and fifteenth centuries and onwards with a focus on texts belonging to or engaging with the Prose Brut tradition are the focus of this volume The contributors examine the composition dissemination and reception of historical texts written in Anglo Norman Latin and English including the Prose Brut chronicle c 1300 and later Castleford's Chronicle c 1327 and Nicholas Trevet s Les Cronicles c 1334 looking at questions of the processes of writing rewriting printing and editing history They cross traditional boundaries of subject and period taking multi disciplinary approaches to their studies in order to underscore the shifting historical social and political contexts in which medieval English chronicles were used and read from the fourteenth century through to the present day As such the volume honours the pioneering work of the late Professor Lister M Matheson whose research in this area demonstrated that a full understanding of medieval historical literature demands attention to both the content of theworks in question and to the material circumstances of producing those works JACLYN RAJSIC is a Lecturer in Medieval Literature in the School of English and Drama at Queen Mary University of London ERIK KOOPER taughtOld and Middle English at Utrecht University until his retirement in 2007 DOMINIQUE HOCHE Is an Associate Professor at West Liberty University in West Virginia Contributors Elizabeth J Bryan Caroline D Eckhardt A S G Edwards Dan Embree Alexander L Kaufman Edward Donald Kennedy Erik Kooper Julia Marvin William Marx Krista A Murchison Heather Pagan Jaclyn Rajsic Christine M Rose Neil Weijer Medical Chronicle ,1909 The Medieval Chronicle 14, 2021-12-13 Alongside annals chronicles were the main genre of historical writing in the Middle Ages Their significance as sources for the study of medieval history and culture is today widely recognised by historians by students of literature and linguistics and by art historians All chronicles raise such questions as by whom for whom or for what purpose they were written how they reconstruct the past or what kind of literary influences are discernible in them With illuminated chronicles the relation between text and image leads to a wholly different set of questions The series The Medieval Chronicle published in cooperation with the Medieval Chronicle Society medievalchronicle org provides a representative survey of on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds Religious Rites of War beyond the Medieval West ,2023-11-07 This is Volume One of a two volume collection that brings together contributions from cultural and military history to offer an examination of religious rites employed in connection with warfare as well as their transformative and power and identity building potential across political communities of medieval Northern Central and Eastern Europe Covering the period ca 900 and 1500 the work takes theoretical textual and practical approaches to the research on religious warfare and investigates the connections between and significance and function of crucial war rituals such as pre intra and postbellum rites as well as various activities surrounding the military life of individuals polities and corporates Contributors are Robert Anton n Robert Bubczyk Dariusz D browski Jesse Harrington Carsten Selch Jensen Sini Kangas Rados aw Kotecki Gregory Leighton Kyle C Lincoln Jacek Maciejewski Yulia Mikhailova Max Naderer L szl Veszpr my and Du an Zupka An English Chronicle, 1377-1461 C. Medieval Frontiers: Concepts and Practices David Abulafia, Nora Berend, 2017-03-02 In recent years the medieval frontier has been the subject of extensive research But the term has been understood in many different ways political boundaries fuzzy lines across which trade religions and ideas cross attitudes to other peoples and their customs This book draws attention to the differences between the medieval and modern understanding of frontiers questioning the traditional use of the concepts of frontier and frontier society It contributes to the understanding of physical boundaries as well as metaphorical and ideological frontiers thus providing a background to present day issues of political and cultural delimitation In a major introduction David Abulafia analyses these various ambiguous meanings of the term frontier in political cultural and religious settings The articles that follow span Europe from the Baltic to Iberia from the Canary Islands to central Europe Byzantium and the Crusader states The authors ask what was perceived as a frontier during the Middle Ages What was not seen as a frontier despite the usage in modern scholarship The articles focus on a number of themes to elucidate these two main questions One is medieval ideology This includes the analysis of medieval formulations of what frontiers should be and how rulers had a duty to defend and or extend the frontiers how frontiers were defined often in a different way in rhetorical ideological formulations than in practice and how in certain areas frontier ideologies were created. The other main topic is the emergence of frontiers how medieval people created frontiers to delimit areas how they understood and described frontiers The third theme is that of encounters and a questioning of medieval attitudes to such encounters To what extent did medieval observers see a frontier between themselves and other groups and how does real interaction compare with ideological or narrative formulations of such interaction **The Anonimalle Chronicle 1307 to 1334** Wendy R. Childs, John Taylor, 2013-04-18 This 1991 publication is the first printed edition of a continuation of the French prose Brut found in a fourteenth century York chronicle **The Medieval Chronicle IV** Erik Kooper, 2006 There are several reasons why the chronicle is particularly suited as the topic of a yearbook In the first place there is its ubiquity all over Europe and throughout the Middle Ages chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions The yearbook The Medieval Chronicle aims to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds The Medieval Chronicle is published in cooperation with the Medieval Chronicle Society **The Medieval Chronicle II**, 2021-11-22 After the success of the first international conference on the medieval chronicle it was decided that another would be in place It was held in the summer of 1999 and again drew some 150 participants There are several reasons why the chronicle is particularly suited as the topic

of an international conference In the first place there is its ubiquity all over Europe and throughout the Middle Ages chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions Like its predecessor this volume of conference papers aims to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds. They are introduced by the opening address by David Dumville on the question What is a chronicle The American Jewish Chronicle ,1916 Medieval Authorship and Cultural Exchange in the Late Fifteenth Century Rombert Stapel, 2020-12-28 Medieval Authorship and Cultural Exchange in the Late Fifteenth Century is a multidisciplinary study of late medieval authorship and the military orders framed as a whodunit that uncovers the anonymous author of the Utrecht Chronicle of the Teutonic Order Through a close analysis of the Utrecht Chronicle of the Teutonic Order and its manuscripts and by exploiting a wide range of scholarly techniques from traditional philology and extensive codicological examinations to modern digital humanities techniques the book argues that the recently resurfaced Vienna manuscript is actually an author's copy written in direct cooperation with the original author This important assertion leads to a reinterpretation of the text its sources and composition authorship and the context in which it was conceived It allows us to associate the text with an upsurge of historiographical activities by various military orders across the continent seemingly in response to the publication and aggressive dissemination of the account of the Siege of Rhodes by Guillaume Caoursin in 1480 Furthermore the text can be positioned at the crossroads between different cultural spheres ranging from the Baltic region to the Low Countries spanning French German Dutch and Latin linguistic traditions This book will appeal to scholars and students of medieval history as well as those interested in cultural history and the military religious orders The London Chronicles of the Fifteenth Century Mary-Rose McLaren, 2002 It also provides an annotated edition of the previously unpublished text from Bradford West Yorkshire Archives MS 32D86 42 while a selection of the most crucial events recorded in the chronicles such as the Rising of 1381 and Cade's rebellion is presented Self-Defence and Religious Strife in Early Modern Europe Robert von in an appendix BOOK JACKET Friedeburg, 2017-07-05 This book explores the emergence of the nationally diverging paths taken by England and Germany in relation to the legal concept of self defence It explores how various theories of legitimate resistance to authority were developed and how they came to influence one another In particular it is argued that German theories played a much greater role than has hitherto been acknowledged in influencing English concepts of natural rights as discussed by such men as Parker and Locke
