Marcel Duchamp-- "Tu M" Karl Gerstner,2003 Essay by Karl Gerstner Chromatic Modernity Sarah Street,Joshua Yumibe,2019-04-02 The era of silent film long seen as black and white has been revealed in recent scholarship as bursting with color Yet the 1920s remain thought of as a transitional decade between early cinema and the rise of Technicolor despite the fact that new color technologies used in film advertising fashion and industry reshaped cinema and consumer culture In Chromatic Modernity Sarah Street and Joshua Yumibe provide a revelatory history of how the use of color in film during the 1920s played a key role in creating a chromatically vibrant culture Focusing on the final decade of silent film Street and Yumibe portray the 1920s as a pivotal and profoundly chromatic period of cosmopolitan exchange collaboration and experimentation in and around cinema Chromatic Modernity explores contemporary debates over color s artistic scientific philosophical and educational significance It examines a wide range of European and American films including *Opus 1* 1921 *L'Inhumaine* 1923 *Die Nibelungen* 1924 *The Phantom of the Opera* 1925 *The Lodger* 1927 *Napol on* 1927 and *Dracula* 1932 A comprehensive comparative study that situates film among developments in art color science and industry Chromatic Modernity reveals the role of color cinema in forging new ways of looking at and experiencing the modern world **Color Chart** Ann Temkin,2008 Color Chart celebrates a paradox the lush beauty that results when contemporary artists assign colour decisions to chance readymade source or arbitrary system Midway through the 20th century long held convictions regarding the spiritual truth or scientific validity of particular colours gave way to an excitement about colour as a mass produced and standardized commercial product The Romantic quest for personal expression instead became Andy Warhol s I want to be a machine the artistry of mixing pigments was eclipsed by Frank Stella s Straight out of the can it can t get better than that This book and the exhibition it accompanies is the first devoted to this pivotal transformation and features work by some forty artists ranging from Ellsworth Kelly and Gerhard Richter to Sherrie Levine and Damien Hirst **Marcel Duchamp** Caroline Cros,2013-06-01 A revealing account of an artist whose enduring obsession with chance and coincidence shaped both his life and work Marcel Duchamp illuminates one of the most important and influential figures in all of modern art Drawing on the artist s own correspondence as well as interviews Paris based curator and art critic Caroline Cros explores the creative processes behind Duchamp s works including his famous anti sculptures the Readymades the enigmatic *Grand Verre* and the seductive disturbing *Etant Donn s* as well as the often hostile reception he encountered in Paris and around the world Cros also examines Duchamp s work after he abandoned his art at the age of thirty six Notoriously Duchamp claimed that he would dedicate the remainder of his life to chess but here we learn of his ongoing contributions to the art world including his intense involvement in museums foundations and surrealist publications With two major Dada exhibitions planned for 2006 at the National Gallery of Art in Washington D C and the Museum of Modern Art in New York MarcelDuchamp will be this year s ultimate guide to the master of the movment *Marcel Duchamp* Giannēs

Contemporary Art Raphael Rubinstein,2023-01-12 In his influential essay Provisional Painting Raphael Rubinstein applied the term provisional to contemporary painters whose work looked intentionally casual dashed off tentative unfinished or self-cancelling who appeared to have deliberately turned away from strong painting for something that seemed to constantly risk failure or inconsequence In this collection of essays Rubinstein expands the scope of his original article by surveying the historical and philosophical underpinnings of provisionality in recent visual art as well as examining the works of individual artists in detail He also engages crucial texts by Samuel Beckett and philosopher Gianni Vattimo Re-examining several decades of painting practices Rubinstein argues that provisionality in all its many forms has been both a foundational element in the history of modern art and the encapsulation of an attitude that is profoundly contemporary Forthcoming Books

Dada as Text, Thought and Theory Stephen Forcer,2017-07-05 The Dada movement revered as perhaps the purest form of cultural subversion and provocation in 20th century Europe has been a victim of the readiness with which cultural historians have swallowed its own propaganda Based on extensive close analysis of French language Dada work in its original form and offering English translations throughout this major reappraisal looks at a broad range of media and topics including poetry film philosophy and quantum physics in order to get beyond Dada's typecasting as avant-garde anti-hero Work by women writers and other marginalized figures combines with that of canonical Dadaists to present Dada in a
