Johnston,2007-11 Identifies and explicates the areas that are currently being overlooked or undervalued in the current

discussions of theology and film **Gender and the Science of Difference** Jill A. Fisher, 2011-06-15 How does contemporary science contribute to our understanding about what it means to be women or men What are the social implications of scientific claims about differences between male and female brains hormones and genes How does culture influence scientific and medical research and its findings about human sexuality especially so called normal and deviant desires and behaviors Gender and the Science of Difference examines how contemporary science shapes and is shaped by gender ideals and images Prior scholarship has illustrated how past cultures of science were infused with patriarchal norms and values that influenced the kinds of research that was conducted and the interpretation of findings about differences between men and women This interdisciplinary volume presents empirical inquiries into today's science including examples of gendered scientific inquiry and medical interventions and research It analyzes how scientific and medical knowledge produces gender norms through an emphasis on sex differences and includes both U S and non U S cases and examples

Children's Film in the Digital Age Karin Beeler, Stan Beeler, 2014-11-19 Films of the past 15 years have been released in a number of formats and reflect a reconceptualization of film genres audiences and the impact of technology on adaptation Focusing on multiple audiences film adaptation nationalism globalism and consumer culture this collection of new essays explores how children's film can be re-examined alongside recent developments in their production These analyses consider the effect of multimedia strategies on the child audience the opportunities for viewer participation and the pedagogical implications of films for children The essays also address how childhood is embedded within films and linked to various consumer contexts Queer Ecologies Catriona Mortimer-Sandilands, Bruce Erickson, 2010-07-14 Treating such issues as animal sex species politics environmental justice lesbian space and gay ghettos AIDS literatures and queer nationalities this

lively collection asks important questions at the intersections of sexuality and environmental studies Contributors from a wide range of disciplines present a focused engagement with the critical philosophical and political dimensions of sex and nature These discussions are particularly relevant to current debates in many disciplines including environmental studies queer theory critical race theory philosophy literary criticism and politics As a whole *Queer Ecologies* stands as a powerful corrective to views that equate natural with straight while queer is held to be against nature *The Birds World* Nicolae Sfetcu, 2014-11-27 Birds are among the most extensively studied of all animal groups Hundreds of academic journals and thousands of scientists are devoted to bird research while amateur enthusiasts called birdwatchers or more commonly birders probably number in the millions Birds are categorised as a biological class Aves The earliest known species of this class is *Archaeopteryx lithographica* from the Late Jurassic period According to the most recent consensus Aves and a sister group the order Crocodilia together form a group of unnamed rank the Archosauria Phylogenetically Aves is usually defined as all descendants of the most recent common ancestor of modern birds or of a specific modern bird species like *Passer domesticus* and *Archaeopteryx* Modern phylogenies place birds in the dinosaur clade Theropoda Modern birds are divided

into two superorders the Paleognathae mostly flightless birds like ostriches and the wildly diverse Neognathae containing all other birds *School Library Journal* ,2005 Considering Animals Dr Carol Freeman,Dr Elizabeth Leane,Ms Yvette Watt,2013-07-28 *Considering Animals* draws on the expertise of scholars trained in the biological sciences humanities and social sciences to investigate the complex and contradictory relationships humans have with nonhuman animals Taking their cue from the specific animal moments that punctuate these interactions the essays engage with contemporary issues and debates central to human animal studies the representation of animals the practical and ethical issues inseparable from human interactions with other species and perhaps most challengingly the compelling evidence that animals are themselves considering beings Case studies focus on issues such as animal emotion and human sentimentality the representation of animals in contemporary art and in recent films such as *March of the Penguins* *Happy Feet* and *Grizzly Man* animals experiences in catastrophic events such as Hurricane Katrina and the SARS outbreak and the danger of overvaluing the role humans play in the earth s ecosystems From Marc Bekoff s moving preface through to the last essay *Considering Animals* foregrounds the frequent sometimes uncanny exchanges with other species that disturb our self contained existences and bring into focus our troubled relationships with them Written in an accessible and jargon free style this collection demonstrates that in the face of species extinction and environmental destruction the roles and fates of animals are too important to be left to any one academic discipline **Much More Social Studies Through Children's Literature**

Anthony D. Fredericks,2007-04-30 Fredericks presents hundreds of hands on minds on projects that actively engage students in positive learning experiences Each of the units offers book summaries social studies topic areas critical thinking questions classroom resources and lots of easy to do activities for every grade level The author also provides practical guidelines for collaborative ventures with school librarians tips for integrating literature across the curriculum lists of relevant web sites useful in social studies curriculum Everything is linked to the social studies standards Antarctica in British Children's Literature Sinead Moriarty,2020-11-29 For over a century British authors have been writing about the Antarctic for child readers yet this body of literature has never been explored in detail *Antarctica in British Children s Literature* examines this field for the first time identifying the dominant genres and recurrent themes and tropes while interrogating how this landscape has been constructed as a wilderness within British literature for children The text is divided into two sections Part I focuses on the stories of early twentieth century explorers such as Robert F Scott and Ernest Shackleton *Antarctica in British Children s Literature* highlights the impact of children s literature on the expedition writings of Robert Scott including the influence of Scott s close friend author J M Barrie The text also reveals the important role of children s literature in the contemporary resurgence of interest in Scott s long term rival Ernest Shackleton Part II focuses on fictional narratives set in the Antarctic including early twentieth century whaling literature adventure and fantasy texts contemporary animal stories and environmental texts for children Together these two sections provide an insight into how depictions of this unique

continent have changed over the past century reflecting transformations in attitudes towards wilderness and wild landscapes

Moving Environments Alexa Weik von Mossner, 2014-10-07 In *Moving Environments Affect Emotion Ecology and Film* international scholars investigate how films portray human emotional relationships with the more than human world and how such films act upon their viewers emotions Emotion and affect are the basic mechanisms that connect us to our environment shape our knowledge and motivate our actions Contributors explore how film represents and shapes human emotion in relation to different environments and what role time place and genre play in these affective processes Individual essays resituate well researched environmental films such as *An Inconvenient Truth* and *March of the Penguins* by paying close attention to their emotionalizing strategies and bring to our attention the affective qualities of films that have so far received little attention from ecocritics such as Stan Brakhage's *Dog Star Man* The collection opens a new discursive space at the disciplinary intersection of film studies affect studies and a growing body of ecocritical scholarship It will be of interest not only to scholars and students working in the field of ecocriticism and the environmental humanities but for everyone with an interest in our emotional responses to film

Children's Culture and Citizenship in Argentina Lauren Rea, 2023-11-08 Argentina's *Billiken* was the world's longest running children's magazine publishing 5144 issues over one hundred years It educated and entertained generations of schoolchildren and came to occupy a central role in Argentine cultural life This volume offers the first academic history of the whole lifespan of *Billiken* as a print magazine through to its transition into a digital brand As an editorial project founded at the time of the massification of print culture *Billiken* was in the business of creating future citizens From its transnational and literary beginnings *Billiken* quickly became organised around the school year offering valuable extra curricular material aligned to the patriotic drivers of state schooling *Billiken* told the story of the Argentine nation cyclically and repeatedly gaining such momentum that it became part of the nation's story itself This volume adopts a multi disciplinary approach to take account of the many different facets of *Billiken*'s content born from a combination of ideological commercial political and cultural drivers This history of *Billiken* examines the changes contradictions and continuities in the magazine over time as it responded to political events adapted to new commercial realities and made use of technological advances It explores how *Billiken* magazine not only reflected society but shaped it through its influence on childhoods children's culture and education and provides an alternative window onto the history and politics of a tumultuous hundred years for Argentina
