Bliss,2007-04-18 Ecumenical consciousness has not always been part of the Catholic experience Frederick M Bliss S M traces how the concern for ecumenism came about from uneasy tension to confidence in the true grace of catholicity This new edition follows significant developments in dialogues with the Catholic Church up to 2006 and suggests likely trends of continuing change It studies the forces that had an impact on the Second Vatican Council forces that continue to steer the church into relationships with other Christian communities other religions and the world *Marching to Glory* Edward H. McKinley,1995 **Leadership in the Salvation Army** Harold Ivor Winston Hill,2006 The Salvation Army provides a case study of the way in which renewal movements in the church institutionalize Their leadership roles initially merely functional and based on the principle of the priesthood of all believers begin to assume greater status The Army continues to exhibit a tension between its theology which supports equality of status and its military structure which works against equality and both schools of thought flourish within its ranks **The Salvation Army Year Book** Theodore H. Kitching,2006

Offering comprehensive coverage of women of a diverse range of cultures, classes, ethnicities, religions, and sexual identifications, this four-volume set identifies the many ways in which women have helped to shape and strengthen the United States. This encyclopedia is organized into four chronological volumes, with each volume further divided into three sections. Each section features an overview essay and thematic essay, as well as detailed entries on topics ranging from Lady Gaga to Ladybird Johnson, Lucy Stone and Lucille Ball, and from the International Ladies of Rhythm to the International Ladies Garment Workers Union. The set also includes a vast variety of primary documents, such as personal letters, public papers, newspaper articles, recipes, and more. These primary documents enhance users' learning opportunities and enable readers to better connect with the subject matter.

Murdering Holiness Jim Phillips, Rosemary Gartner, 2003-09-15 *Murdering Holiness* explores the story of the Holy Roller sect led by Franz Creffield in the early years of the twentieth century. In the opening chapters, the authors introduce us to the community of Corvallis, Oregon, where Creffield, a charismatic self-styled messiah, taught his followers to forsake their families and worldly possessions and to seek salvation through him. As his teachings became more extreme, the local community reacted. Creffield was tarred and feathered, and his followers were incarcerated in the state asylum. Creffield himself was later imprisoned for adultery, but shortly after his release, he revived the sect. This proved too much for some of the adherents' families, and in May 1906, George Mitchell, the brother of two women in the sect, pursued Creffield to Seattle and shot him dead. The authors take us into the courtroom for the trial that made headlines across North America, as Mitchell was acquitted of murder. Though the formal plea was insanity, the defence built its case on the unwritten law that justified killing to protect or avenge family honour. Based on court records and archival sources, this case study includes a detailed examination of the trial, the media's response to it, and the dramatic aftermath, and sheds light on the rise of ardent religion in the Pacific Northwest, the justice system in Seattle, and the role of the press in influencing public opinion. **History of Orange County, California** Samuel Armor, 1921. *Evangelical Dictionary of Theology* Daniel J.
