Marching Over Africa George Antwerp Morris, 2001-01-01 *Marching Over Africa* Frank Emery, 1986-01-01

Extreme Violence and the 'British Way' Michelle Gordon, 2020-10-29 Analysing three cases of British colonial violence that occurred in the latter half of the 19th century this book argues that all three share commonalities including the role of racial prejudices in justifying the perpetration of extreme colonial violence Exploring the connections and comparisons between the Perak War 1875-76 the Hut Tax Revolt in Sierra Leone 1898-99 and the Anglo Egyptian War of Reconquest in the Sudan 1896-99 Gordon highlights the significance of decision making processes communication between London and the periphery and the influence of individual colonial administrators in outbreaks of violence This study reveals the ways in which racial prejudices the advocacy of a British civilising mission and British racial superiority informed colonial administrators decisions on the ground as well as the rationalisation of extreme violence Responding to a neglect of British colonial atrocities within the historiography of colonial violence this work demonstrates the ways in which Britain was just as willing and able as other European Empires to resort to extreme measures in the face of indigenous resistance or threats to the British imperial project

The Transvaal Rebellion John Laband, 2014-07-10 This book takes a unique look at the first Boer war by concentrating on the events and battles of the First Boer War Due attention is also given to the 2nd Boer War its origins key players and significance for the future of South Africa The personal stories of heroism and sacrifice sieges rebellions and battles make for an enthralling and dramatic tale a classic of military history that will find a ready audience amongst military enthusiasts

Soldiers of the Queen Stephen Manning, 2016-09-02 It may come as some surprise that in such a popular area of military history there is no book that focuses on the experience of the Victorian soldier from recruitment to embarkation fighting and perhaps returning perhaps dying in his own words Dr Manning's meticulous research in primary sources gives the lie to the received image of the disciplined redcoated campaigner of Victorian art and literature for one thing by the time he arrived at his destination the coat would have been in rags The distances covered on march were unbelievable through desert and disease ravaged swamp Lavishly illustrated throughout all the major Colonial campaigns and most of the minor ones are featured To understand how what was in reality a tiny standing army controlled the largest empire the world has ever seen this book is a must

Bamboo William Boyd, 2012-07-13 Throughout his career as a novelist William Boyd has never stopped writing non fiction providing a fascinating counterpoint to the world of his novels Bamboo gathers together Boyd's writing on literature art the movie business television people he has met places he has visited and autobiographical reflections on his African childhood and his years at boarding school From Pablo Picasso to the allure of the British caff from Charles Dickens to Catherine Deneuve from mini cabs to Brideshead Revisited this collection proves an engrossing and revealing companion to the work of one of Britain's leading novelists

Proceedings of the Royal Geographical Society of London Royal Geographical Society (Great Britain), 1859 **Proceedings of the Royal**

Geographical Society and Monthly Record of Geography Royal Geographical Society (Great Britain), 1859 *Zulu Warriors* John Laband, 2014-05-27 The Anglo Zulu War the most famous of Britain's late nineteenth century campaigns of colonial conquest was not fought in isolation Along with the two Anglo Pedi wars the Ninth Cape Frontier War and the Northern Border War it was one in a brutal series of interconnected and overlapping wars which the British waged between 1877-1879 to crush and disarm the remaining independent black states of South Africa Fusing the widely differing African and European perspectives on events the author probes the fateful decisions taken by statesmen and military commanders analyses military operations and their destructive impact on combatants and civilians alike and explores why so many Africans chose to fight as auxiliaries and levies alongside the British instead of against them Jacket **Imperial Boredom** Jeffrey A. Auerbach, 2018-09-26 *Imperial Boredom* offers a radical reconsideration of the British Empire during its heyday in the nineteenth century Challenging the long established view that the empire was about adventure and excitement with heroic men and intrepid women eagerly spreading commerce and civilization around the globe this thoroughly researched engagingly written and lavishly illustrated account suggests instead that boredom was central to the experience of empire Combining individual stories of pain and perseverance with broader analysis Professor Auerbach considers what it was actually like to sail to Australia to serve as a soldier in South Africa or to accompany a colonial official to the hill stations of India He reveals that for numerous men and women from explorers to governors tourists to settlers the Victorian Empire was dull and disappointing Drawing on diaries letters memoirs and travelogues *Imperial Boredom* demonstrates that all across the empire men and women found the landscapes monotonous the physical and psychological distance from home debilitating the routines of everyday life wearisome and their work tedious and unfulfilling The empire's early years may have been about wonder and marvel but the Victorian Empire was a far less exciting project Many books about the British Empire focus on what happened this book concentrates on how people felt **The iPINIONS Journal** Anthony Livingston Hall, 2021-03-14 ANTHONY L HALL takes aim at the global events of 2020 with a unique and refreshing perspective Some of the topics in this volume include Governments ordering lockdowns to combat Covid 19 Telling people to lockdown to combat Covid makes about as much sense as it would've been to tell people to stop having sex to fight HIV Mandating wearing masks like wearing seatbelts or promoting the use of masks like the use of condoms would have been a lot cheaper and more effective Trump failing to defend America against Russian cyber attacks America is now a certifiably dysfunctional dystopian and defenseless mess Superpower Hell even the Roman Empire was never this messed up before the fall Evidently that shining city on a hill was just the flickering embers of a supernova Kim declaring nuclear deal with Trump a bust Kim Jong un is feeling like a woman scorned Never mind that he behaved throughout his affair with Donald Trump like a shrew too uptight to screw Harry and Meghan announcing split from royal family Most Britons will feel about Meghan breaking up the royals the way they felt about Yoko breaking up the Beatles The Last Dance revealing how Bulls paid Jordan like a king

Pippen like a pauper Michael is clearly the NBA's GOAT Unfortunately Pippen is arguably its greatest goat of all time Chinese leaders quarantining millions to contain Covid 19 Practice from quarantining millions of Uyghur Muslims for years in religious cleansing camps means that they are doing so in this case with Nazi like efficiency Democrats trying to impeach Trump Even if lead House manager Rep Adam Schiff were Christ incarnate he would still be unable to break the cult like loyalty Republicans show their two legged golden calf Republicans bending over to be cuckolded by Trump The more he humiliates white Republican men the more they like him Hell some like Senator Ted Cruz of Texas even like him when he humiliates their wives which puts a fetishistic twist on cuckoldry that is just too perverse for words White cops patrolling Black communities It's a curious thing that Black men seem so willing to cede that role of protecting their own to white men who seem all too eager to patrol Black communities like invading soldiers Mary Trump's tell all selling like hotcakes Given the egregious way Donald exaggerates his wealth the irony cannot be lost on Mary that this book could make her the richest Trump of them all It might not be revenge but it would be sweet *IMF - World Bank and Labor's Burdens in Africa*

Kwamina Panford, 2001-08-30 Globalization the return to a multi party system of government and the policies advocated by the IMF and the World Bank have led to near revolutionary labor relations in Ghana As Panford shows these new social and economic forces have unleashed new and even contradictory labor policies and practices which are having profound social political and economic consequences Panford examines how the Ghana Constitution of 1992 led for the first time to new workers rights including the right to affiliate with any local national or international union In response to globalization and policies advocated by the IMF and the World Bank the Ghana government sought to resist worker demands for improved working and living conditions The situation was worsened by the privatization of state owned businesses and severe cuts in public employment In this environment of tense labor relations government hostility and weak employment Panford traces the ways workers are revitalizing unions and developing new sources of jobs and finances These include relatively aggressive systematic organization of women senior staff and the informal agricultural sector One of the most important initiatives of the unions is the creation of a workers trust to establish and finance worker owned enterprises The evidence presented by Panford indicates the failure of IMF and World Bank policies and he calls for new and viable policy alternatives with emphasis on enhancing Ghana's global competitiveness and meeting genuine development needs A thoughtful analysis that will be of interest to scholars and researchers involved with development and international economics labor relations in the developing world and the increased involvement of international financial institutions **Lucan's Pharsalia ... Ten Books Englished by T. May Marcus Annæus LUCANUS, 1635 **A Guide to British Military History** Ian F. W. Beckett, 2016-06-30 What exactly is military history Forty years ago it meant battles campaigns great commanders drums and trumpets It was largely the preserve of military professionals and was used to support national history and nationalism Now though the study of war has been transformed by the war and society approach by the examination of identity memory and

gender and a less Euro centric and more global perspective Generally it is recognised that war and conflict must be integrated into the wider narrative of historical development and this is why Ian Becketts research guide is such a useful tool for anyone working in this growing field It introduces students to all the key debates issues and resources While European and global perspectives are not neglected there is an emphasis on the British experience of war since 1500 This survey of British military history will be essential reading and reference for anyone who has a professional or amateur interest in the subject and it will be a valuable introduction for newcomers to it
