Marco Polo, the great adventurer ... Translated by Isabel and Florence McHugh** Hildegard BLUNCK,1966 Key Figures in Medieval Europe Richard K. Emmerson,2013-10-18 From emperors and queens to artists and world travelers from popes and scholars to saints and heretics Key Figures in Medieval Europe brings together in one volume the most important people who lived in medieval Europe between 500 and 1500 Gathered from the biographical entries from the on going series the Routledge Encyclopedias of the Middle Ages these A Z biographical entries discuss the lives of over 575 individuals who have had a historical impact in such areas as politics religion or the arts Individuals from places such as medieval England France Germany Iberia Italy and Scandinavia are included as well as those from the Jewish and Islamic worlds A thematic outline is included that lists people not only by categories but also by regions For a full list of entries contributors and more visit the Routledge Encyclopedias of the Middle Ages website Geographers Geoffrey Martin,2015-12-14 Geographers is an annual collection of studies on individuals who have made major contributions to the development of geography and geographical thought Subjects are drawn from all periods and from all parts of the world and include famous names as well as those less well known including explorers independent thinkers and scholars Each paper describes the geographer s education life and work and discusses their influence and spread of academic ideas Each study includes a select bibliography and a brief chronology The work includes a general index and a cumulative index of geographers listed in volumes published to date Published under the auspices of the International Geographical Union *Medieval Ethnographies* Joan-Pau Rubies,2017-05-15 From the twelfth century a growing sense of cultural confidence in the Latin West at the same time that the central lands of Islam suffered from numerous waves of conquest and devastation was accompanied by the increasing importance of the genre of empirical ethnographies From a a global perspective what is most distinctive of Europe is the genre s long term impact rather than its mere empirical potential or its ethnocentrism all of which can also be found in China and in Islamic cultures Hence what

needs emphasizing is the multiplication of original writings over time their increased circulation and their authoritative status as a scientific discourse The empirical bent was more characteristic of travel accounts than of theological disputations in fact the less elaborate the theological discourse the stronger the ethnographic impulse although many travel writers were clerics This anthology of classic articles in the history of medieval ethnographies illustrates this theme with reference to the contexts and genres of travel writing the transformation of enduring myths ranging from oriental marvels to the virtuous ascetics of India or Prester John the practical expression of particular encounters from the Mongols to the Atlantic and the various attempts to explain cultural differences either through the concept of barbarism or through geography and climate

Byzantium and Venice Donald M. Nicol, 1992-05-07 This book the first of this scope to have been published traces the diplomatic cultural and commercial links between Constantinople and Venice from the foundation of the Venetian republic to the fall of the Byzantine Empire It aims to show how especially after the Fourth Crusade in 1204 the Venetians came to dominate first the Genoese and thereafter the whole Byzantine economy At the same time the author points to those important cultural and above all political reasons why the relationship between the two states was always inherently unstable

Travel and Ethnology in the Renaissance Joan-Pau Rubiés, 2002-09-05 This book first published in 2000 offers a wide ranging and ambitious analysis of how European travellers in India developed their perceptions of ethnic political and religious diversity over three hundred years It analyses the growth of novel historical and philosophical concerns from the early and rare examples of medieval travellers such as Marco Polo through to the more sophisticated narratives of seventeenth century observers religious writers such as Jesuit missionaries or independent antiquarians such as Pietro della Valle The book's approach combines the detailed contextual analysis of individual narratives with an original long term interpretation of the role of cross cultural encounters in the European Renaissance An extremely wide range of European sources is discussed including the often neglected but extremely important Iberian and Italian sources However the book also discusses a number of non European sources Muslim and Hindu thereby challenging simplistic interpretations of western orientalism

Fractured Renaissance Tales of Old George Carpetto, 2001-04 It's near the end of the world and the Church intelligentsia concurs The darkness in man's soul is terrifying the whole of Christendom where prophets and theologians have lost control As the world inexorably approaches the year 1500 anxieties deepen at a staggering pace Who will save the world If today someone were to shout from the rooftops imploring us to love our Mother Earth before it's too late would we listen Prophets come in many forms and often speak our language Their words are comprehensible but their meaning is not Prophecy is serious business Often the prophet is taken for the fool the eccentric saint or the madman who's half blind and sees things we do not Or could it be the old lady who walks her dog ten times a day apparently mumbling words to deaf ears while her Parkinsonian hand keeps trembling to the beat of a truth no one wants to hear Prophecy is dangerous If we listen then we too might be crazy like the fool the saint the half blind man and the old lady with her dog

Prophecy is not for me I ll just sit in my poop and play it safe Bazaar to Piazza Rosamond E.
