Math Workshop, Grade 4 Carson Dellosa Education, Elise Craver, 2018-02-21

Math Workshop for fourth grade provides complete small group math instruction for these important topics: factors and multiples, multiplication and division strategies, decimals, angles. Simple and easy to use, this resource for fourth grade teachers complements any curriculum. Like reading and writing workshops, math workshop is an instructional model that combines whole group lessons with leveled guided math groups and independent practice. It allows teachers to give students direct, leveled instruction while providing opportunities for practice and skill review. Math Workshop for fourth grade simplifies the workshop method with a comprehensive introduction and over 25 step-by-step lessons. This teacher resource for fourth grade math also includes these helpful features: comprehensive lesson plans, leveled practice pages, hands-on activities for every lesson. The Math Workshop series for kindergarten through fifth grades gives teachers everything they need to implement the math workshop method. Each book contains 28 complete lessons, a thorough introduction, and reproducible game templates. Each lesson begins with an essential question, a warm-up activity,

and a whole group lesson It is followed by three leveled small group lessons and a short assessment Lessons are rounded out with a practice worksheet for each small group and an activity to practice the skill Teachers are also provided with math talk questions and a math journal prompt to extend learning The Math Workshop series gives teachers the flexible tools needed to begin small group math instruction Everyday Mathematics 4: Grades K-3, Quick Look Activity Card Deck Booklet Bell et al., McGraw-Hill Education, 2015-11-13 Activity Book corresponding with the Quick Look Activity cards Help students learn to immediately recognize numbers instantly see patterns and enhance their visualization skills Everyday Mathematics 4: Grades 1-4, Money Card Deck Activity Booklet Bell et al., McGraw-Hill Education, 2015-11-16 Activity Book corresponds with the Money Deck cards The Activity Book provides an enjoyable way for students to practice and master basic math skills without the use of routine drill and daily worksheets The activities and games engage students as they develop their ability to think critically and solve problems They can be readily used in the classroom in activity centers or at home The Activity Books provide information on using the card decks with the Everyday Mathematics 4 curriculum They also include activity and game directions written especially for students as well as suggestions for readiness and enrichment modifications In particular resource teachers will want to use the card deck activities to individualize instruction and provide additional reinforcement of math concepts taught in the classroom The Activity Book includes the directions for over 35 activities and games for small groups partnerships or individuals to play or work on with the card deck Each activity or game lists the object the skill being practiced the number of students any additional materials needed and has a table showing how it can be used across the grades **One-Sheet-A-Day Math Drills** Neki C. Modi, Alpa A. Shah, 2020-09-16 This One Sheet A Day math drill workbook is for 4th grade students who want extra practice with four digits addition It contains 200 math practice sheets one for each school day of the year Upon completion the student will be more competent in 4th grade mathematics and ready to proceed with more difficult exercises Unlike other math drill books this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7 It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student Kids need to practice at home to support what they are learning in school but finding resources to help with that goal can be daunting It takes a lot of time searching online for free resources to print or for books with enough exercises Beyond that the options include going to libraries enrolling them in an afterschool class or hiring a personal tutor Who has the time and money for all of that The answer is not many parents Each and every parent wants to provide enough practice work to their kids but on top of the challenges in finding resources questions remain about how much practice a child needs to boost educational success twenty sheets of practice work a day One sheet a week What s the optimum practice work during a whole academic year Confused The authors have a decade of classroom expertise and have spent a large amount of time researching and wasting resources trying all the options for their own kids Now you can benefit from what they have learnt The result is finding out that ONE

SHEET A DAY is the optimum way to support classroom learning and it is amazingly simple This book eliminates the need to take home prints or run around franchises bookstores and libraries trying to find enough material It also prevents you from overwhelming your kids with too many math drill worksheets There are approximately 200 school days a year Simply have your child complete ONE per day Work is far easier when it is part of a routine especially for kids The One Sheet per Day program is an easy routine to start and maintain because it takes less than 20 minutes per day using basic skills your child already knows Simply take one sheet from the book ask your child to complete it in a quiet place and return it to you to check the answers a painless routine for you and your child and instant feedback for both of you Geared to follow most math curriculums most kids can do the appropriate sheet on their own based on what they are learning at school One Sheet A Day math practice drills will give your child practice they need to score higher on test day and build confidence in their math abilities
