Rereading Childhood Books Alison Waller, 2019-02-07 2019 CHOICE Outstanding Academic Title and shortlisted for the ESSE book awards 2020 for Literatures in the English Language Childhood books play a special role in reading histories providing touchstones for our future tastes and giving shape to our ongoing identities Bringing the latest work in Memory Studies to bear on writers memoirs autobiographical accounts of reading and interviews with readers Rereading Childhood Books explores how adults remember revisit and sometimes forget these significant books Asking what it means to return to familiar works by well known authors such as Lewis Carroll C S Lewis and Enid Blyton as well as popular and ephemeral material not often considered as part of the canon Alison Waller develops a poetics of rereading and presents a new model for understanding lifelong reading As such she reconceives the history of children's literature through the shared and individual experiences of the readers who carry these books with them throughout their lives The Woman Reader Belinda Jack, 2012-07-17 Explores what and how women of widely differing cultures have read through the ages from Cro Magnon caves to the digital readers of today drawing distinctions between male and female readers and detailing how female literacy has been suppressed in some parts of the world Rereading the "Shepherd Discourse" Karoline M. Lewis, 2008 The history of scholarship narrates a complicated past for the interpretation of the Shepherd Discourse in the Fourth Gospel Both the internal and contextual integrity of John 9 39 10 21 have been compromised by a misapplied analogy dividing the passage

into a parable and explanation structure and by reading models that favor historical approaches As a result the images and figures encountered in the discourse have not been allowed their full imaginative impact and the tendency is to look outside the Gospel for their referents and explanations The meaning of the Shepherd Discourse lies not in its relation to the rest of the Fourth Gospel but to that which is imported into the narrative Moreover its function as the discourse to chapter 9 and in the whole of the Gospel is overlooked Lewis employs the strategy of rereading borrowed from literary theory to address the internal integrity of the discourse and the relationship of the discourse to the rest of the narrative The literary phenomenon of rereading highlights the interconnectedness of the whole of the discourse and allows all of the imagery to be assessed at a figurative level Rereading also foregrounds the function of John 9 39 10 21 as the discourse to the healing of the blind man in chapter nine and calls attention to the importance of the Shepherd Discourse for the interpretation of the Fourth Gospel especially the often ignored image of Jesus as the door This book suggests that rereading is necessitated by the Gospel itself as a fundamental feature of its unique theological expression **Memory in the Twenty-First Century** Sebastian Groes, 2016-03-29 This book maps and analyses the changing state of memory at the start of the twenty first century in essays written by scientists scholars and writers It recontextualises memory by investigating the impact of new conditions such as the digital revolution climate change and an ageing population on our world A Theory of Literary Explication Kenneth B. Newell, 2011-07-12 This book presents current multidisciplinary research and theory from 17 different fields most of them never before applied to literary explication in order to provide 1 justification for the practice of a relative probability type of explication as distinguished from interpretation 2 a relativistic foundation for the preference of some explication s of a literary work over others and thereby 3 a middle way between the postmodern pluralist view that a work has only an unlimited number of equally acceptable though different explications and the modern intentionalist view that it has only one acceptable explication the author's Nine of the 17 fields are of primary relevance critical theory hermeneutics probability theory philosophy of science second order logic and four fields of cognitive science linguistics epistemology neuropsychology and artificial intelligence But the book also touches upon textual criticism legal theory measure theory fuzzy logic animal learning behavior developmental psychology evolutionary epistemology and neurobiology. The book shows that those using a relative probability type of explication on a literary work can achieve consensus because the healthy adult human brain has an evolved uniform and probably innate ability to form relative probability judgments and to form them in the practice of activities like reading and explicating that are not uniform and innate Lastly the book contributes to the scholarly areas of explication theory and practice first by providing a relativistic foundation for a craft explication that currently is not acknowledged to have any foundation but nonetheless continues and will continue to be practiced and second by presenting a means relative epistemic probability by which judging some explication s of a literary work to be more acceptable than others may be justified philosophically an uncommon circumstance in this postmodern era in which philosophical justification

Randall, 2015-08-20 Our everyday lives are enmeshed in storytelling the stories we tell about our memories the people we know and the world we inhabit those we tell about our families and communities and the narratives we encounter in books movies and television Narrative structures how we view ourselves and everything around us In The Narrative Complexity of Ordinary Life William L Randall shows how concepts central to the study of narrative psychology such as narrative

development and the interrelation between narrative and identity cognition and development are integral to everyday life He makes the case that all people function as narrative psychologists by continually storying their lives in memory and imagination as well as speculating on the stories that others may be living a process that Randall refers to as storyotyping Relying heavily on narrative Randall draws from experiences in his own life to illustrate various concepts in narrative psychology His inquiry leads him to the topics of gossip rumor and the narrative complexity of nostalgia In doing so he makes the case that all people function as narrative psychologists by continually storying or cementing their lives in memory and imagination a process Randall refers to as storyotyping The Holy Fool in European Cinema Alina G. Birzache, 2016-02-05 This monograph explores the way that the profile and the critical functions of the holy fool have developed in European cinema allowing this traditional figure to capture the imagination of new generations in an age of religious pluralism and secularization Alina Birzache traces the cultural origins of the figure of the holy fool across a variety of European traditions In so doing she examines the critical functions of the holy fool as well as how filmmakers have used the figure to respond to and critique aspects of the modern world Using a comparative approach this study for the first time offers a comprehensive explanation of the enduring appeal of this protean and fascinating cinematic character Birzache examines the trope of holy foolishness in Soviet and post Soviet cinema French cinema and Danish cinema corresponding broadly to and permitting analysis of the three main orientations in European Christianity Orthodox Catholic and Protestant This study will be of keen interest to scholars of religion and film European cinema and comparative religion The State of Stylistics ,2008-01-01 The State of Stylistics contains a broad collection of papers that investigate how stylistics has evolved throughout the late 20th and early 21st centuries In so doing it considers how stylisticians currently perceive their own respective fields of enguiry It also defines what stylistics is and how we might use it in research and teaching The Story About the Story Vol. II David Foster Wallace, Zadie Smith, Margaret Atwood, Martin Amis, 2013-09-24 In the second volume of The Story about the Story editor J C Hallman continues to argue for an alternative to the staid five paragraph essay writing that has inoculated so many against the effects of good books Writers have long approached writing about reading from an intensely personal perspective Never before collected in a single volume these many essays demonstrate new possibilities for how to write about reading They offer lessons from a remarkable range of celebrated authors amounting to an invaluable course on how to both write and read Whether they discuss a staple of the canon Thomas Mann on Leo Tolstoy the merits of a contemporary Vivian Gornick on Grace Paley a pillar of genre writing Jane Tompkins on Louis L Amour or arguably the funniest man on the planet David Shields on Bill Murray these essays are by turns poignant smart suggestive intellectual humorous sassy scathing laudatory wistful and hopeful above all deeply engaged in a process of careful reading The essays in The Story about the Story Vol II dig deep into the past and aim toward a future where literature plays a profound role in how we think read Book Review Digest .1927 **Reading Still Matters** Catherine Sheldrick Ross, Lynne (E.F.) live and write

Baker, 2023-12-12 An innovative memoir connecting ideas of grief memory and animals to illustrate the importance of storytelling When his mother died Timothy C Baker discovered that there was almost no record of her existence and no stories that were his to tell the only way to bring her back was through reading Reading My Mother Back is a genre bending memoir that explores a life marked by trauma illness religion and abuse through a focus on the books Baker

and his mother shared The book combines accounts of rereading childhood classics with true and apocryphal stories of a quiet life marked by great sorrow and great joy The book is about grief and memory and how our childhood reading shapes the way we see the world it s about loneliness and the search for belonging it s about how ordinary lives are transfigured by storytelling Moving from accounts of American evangelical communities to kidney failure from literary criticism to psychoanalysis and from guilt to love Baker shows how literature provides a framework for understanding our experiences and offers a way of connecting with everything we have lost The book illustrates how children's animal stories bring us into a love of the world and how acts of rereading become a way not of assuaging grief but of bringing the past and present together Reading My Mother Back offers a bold and personal view of why the stories we read and share matter so much And there are bunnies Storying Later Life Gary Kenyon, Ernst Bohlmeijer, William L. Randall, 2010-12-20 In its brief but vigorous history gerontology has spawned a broadening range of specializations. One of the newest of such specializations is narrative gerontology so named for its emphasis on the biographical or inside dimensions of the experience of aging Telling stories about our world our relationships and ourselves is fundamental to how we make meaning Everything from our history to our religion and our memories to our emotions is linked to the tales we tell ourselves and others about where we have come from and where we are going They are central to who we are The biographical side of human life is every bit as critical to fathom as the biological side if we seek a more balanced positive and optimistic perspective on what aging is about if we would honor the dignity and complexity the humanity and uniqueness of the lives of older persons no matter what their health or economic standing In this respect a narrative approach is particularly suited to the exploration of such topics as meaning spirituality and wisdom and the connections they share This volume reflects a selection of new directions and insights and constitutes a general broadening and deepening of narrative gerontology exploring its implications for theory and research in the field of aging and for the quality of life of older adults themselves Such deepening indicates a greater refinement of thought method and intervention The evolution of narrative gerontology is also evidenced by a significant increase in the number of faculty and graduate students engaged in research in this area as well as by increasing collaboration among researchers practitioners and administrators in applying narrative insights to contexts such as long term care indeed healthcare in general These initiatives have given rise to the phrase narrative care as core care **Shaped** by Stories Marshall Gregory, 1997-09-01 In his latest book Marshall Gregory begins with the premise that our lives are saturated with stories ranging from magazines books films television and blogs to the words spoken by politicians pastors and teachers He then explores the ethical implication of this nearly universal human obsession with narratives Through careful readings of Katherine Anne Porter's The Grave Thurber's The Cathird Seat as well as David Copperfield and Wuthering Heights Gregory asks and answers the question How do the stories we absorb in our daily lives influence the kinds of persons we turn out to be Shaped by Stories is accessible to anyone interested in ethics popular culture and

the Reading Experience Paulette M. Rothbauer, Kjell Ivar Skjerdingstad, Lynne (E.F.) McKechnie, Knut Oterholm, 2016-06-30 This book is about the experience of reading what reading feels like how it makes people feel how people read and under what conditions what drives people to read and conversely what halts the individual in the pursuit of the pleasures of reading The authors consider reading in all of its richness as they explore readers relationships with diverse textual and digital forms This edited volume is divided into three sections Theory Practice and Politics The first provides insights into ways of seeing thinking and conceptualizing the experience of reading The second features a variety of individual and social practices of reading The third explores the political and ethical aspects of the reading experience raising questions about the role that reading plays in democracy and civic participation With contributions from multidisciplinary scholars from around the world this book provides provocative insights into what it means to be a reader reading in and across various social cultural and political contexts Its unifying theme of the reader's experience of reading is put into dialogue with theories practices and politics making this a rewarding read for graduate students faculty researchers and librarians working across a range of academic fields
