Novel Language And Narrative From Cervantes To Calvino:

The Novel André Brink, 1998-05-29 The Postmodernist novel has become famous for the extremes of its narcissistic involvement with language In this challenging and wide ranging new study Andr Brink argues that this self consciousness has been a characteristic of the novel since its earliest stirrings More specifically every novel appears both to construct and to be constructed by its own notion of language elaborated through all the strategies of narrative Taking as his starting point the propensity for story embedded in language he offers stimulating new readings of novels from Cervantes to Calvino demonstrating that in many respects the old familiar texts may be more startlingly modern and the Postmodernist texts more firmly rooted in convention than we tend to think *The Novel* André Philippus Brink, 1998 **Narratives Across Borders** Manju Jaidka, 2016-04-26 This volume is centred around the idea that the aim of literature is to build bridges to bring people together and to highlight underlying similarities despite the apparent differences in world literatures As such the book focuses on the moral purpose of literature and its tendency to overcome divisive forces It supports the idea of cosmopolitanism a re working of the ancient Indian ideal of Vasudhaiva Kuttumbakam or the world is my home a concept close to the African notion of ubuntu which refers to an open society as against a small enclosed one and relates to the essence of being human and working for the benefit of a larger community The book uses examples from texts across geographical and cultural borders beginning with classics like the Indian epics the Panchatantra the Kathasaritsagar and the Arabian Nights before moving on to contemporary texts in the age of information technology Although these may originate against diverse backdrops they have a commonality that cannot be denied The stories we tell the tales we love to hear and repeat all share certain features which reach out across boundaries of time and space thus bridging the gap between people and places Living in today s globalized world there is a need to study literature in a broader perspective and to be aware that though stories may be rooted in a particular time and place they are still a part of the world heritage and comprise what is called world literature The book will be of particular interest to scholars studying the art of storytelling as well as the lay reader passionate about literature *Interface between Literature and Science* Victoria Carpenter, 2015-05-13 The boundaries of science and literature are permeable they are continuously crossed and illuminated by a variety of narrative forms and their interpretations Changes in our perception of the world are informed in equal measure by scientific and humanistic disciplines This volume treats both literary and scientific texts as products of the human mind therefore abiding by all the rules it creates scientific and humanistic alike The volume does not propose to replace all literary or discourse analysis with a cross disciplinary science based approach but rather uses this theoretical stance when more conventional means fail to explain or even explore the intricacies of a text It argues that scientific discourse can also be analysed through the prism of literary theories since all texts are governed in varying measure by the unity of contexts that characterize their nature the process of their creation and their place in the cognitive realm of humanity This approach will allow the nature

and limitations of scientific research to be questioned while opening up more venues to explore scientific creativity that crosses the subject boundaries of science and humanities Latin American literature offers many examples of the interconnection between literary and scientific discourse Notwithstanding the often explored relationship between Jorge Luis Borges's literary themes and contemporary scientific discoveries a more general question should be asked is the influence of scientific thought a privilege of the select few or is it indeed an all pervading experience in Latin American literary narrative from late modernism to present day This book explores the texts that overtly incorporate scientific content or are structured in such a way that immediately reminds the reader of a scientific phenomenon it will also examine the texts that are presented in such a way that a conventional literary analysis does not help penetrate the many narrative layers that the text comprises The volume offers cross disciplinary readings of such authors as Jorge Luis Borges Gabriel Garc'a M'quez Ernesto S'bato and Gustavo Sainz to name but a few

Kazuo Ishiguro's Gestural Poetics Peter Sloane, 2021-05-06 Through readings of Ishiguro's repurposing of key elements of realism and modernism his interest in childhood imagination and sketching interrogation of aesthetics and ethics his fascination with architecture and the absent home and his expressionist use of imaginary space and place Kazuo Ishiguro's Gestural Poetics examines the manner in which Ishiguro's fictions approach but never quite reveal the ineffable inexpressible essence of his narrators emotionally fraught worlds Reformulating Martin Heidegger's suggestion that the essence of world can only be indicated as the essence of world can only be gestured towards Sloane argues that while Ishiguro's novels and short stories are profoundly sensitive to the limitations of literary form their narrators are to varying degrees equally keenly attuned to the failures of language itself In order to communicate something of the emotional worlds of characters adrift in various uncertainties while also commenting on the expressive possibilities of fiction and the mimetic arts more widely Ishiguro appropriates a range of metaphors which enable both author and character to gesture towards the undisclosable essences of fiction and being

Re-Reading the Age of Innovation Louise Kane, 2022-07-28 The period of 1830-1950 was an age of unprecedented innovation From new inventions and scientific discoveries to reconsiderations of religion gender and the human mind the innovations of this era are recorded in a wide range of literary texts Rather than separating these texts into Victorian or modernist camps this collection argues for a new framework that reveals how the concept of innovation generated forms of literary newness that drew novelists poets and other creative figures working across this period into

dialogic networks of experiment The 14 chapters in this volume explore how inventions like the rotary print press or hot air balloon and emergent debates about science trade and colonialism evolved new forms and genres Through their examinations of a wide range of texts and writers from well known novelists like Conrad Dickens Hardy and Woolf to less canonical figures like Charlotte Mew El as Mar and Walter Frances White the chapters in this collection re read these texts as part of an age of innovation characterized not by division and divide but by collaboration and community **George Eliot and Schiller** Deborah Guth,2017-11-22 This title was first published in 2003 Though Friedrich Schiller enjoyed prominent literary standing and great popularity in nineteenth century literary England his influence has been largely neglected in recent scholarship on the period With George Eliot and Schiller Intertextuality and Cross Cultural Discourse Deborah Guth explores the substantial evidence of the importance of the playwright and philosopher s thought to Eliot s novelistic art Guth demonstrates the relationship of Schiller s work to Eliot s plotting of moral vision the tensions in her work between realism and idealism which an understanding of Schiller redefines substantially and her aesthetics The specific focus of the study is the Schillerian subtext of George Eliot s work and a resultant reassessment of her realism However the intertextual methodology applications of Iser s thinking on the translatability of cultures and a placement of Eliot in a German context serve as a gateway for reconsidering Eliot s contributions in these areas as well While recent scholarship on Eliot has focused on gender analysis New Historicism and cultural materialism the frame remains largely English Guth contends that the immense continental underpinnings of Eliot s writing should lead us to re situate her beyond national boundaries and view her as a major European as well as English writer [The Cambridge Introduction to French Literature](#) Brian Nelson,2015-06-11 An engaging highly accessible and informative introduction to French literature from the Middle Ages to the present **A.S.Byatt: Art, Authorship, Creativity** C. Franken,2001-06-04 This book considers the work of the novelist and critic A S Byatt in the context of contemporary debates about art authorship creativity and gender A S Byatt emerges as an author who presents us with fascinating and ambivalent portraits of writers and who uses metaphors of creativity in original ways *The Encyclopedia of Twentieth-Century Fiction, 3 Volume Set* Brian W. Shaffer,2011-01-18 This Encyclopedia offers an indispensable reference guide to twentieth century fiction in the English language With nearly 500 contributors and over one million words it is the most comprehensive and authoritative reference guide to twentieth century fiction in the English language Contains over 500 entries of 1000 3000 words written in lucid jargon free prose by an international cast of leading scholars Arranged in three volumes covering British and Irish Fiction American Fiction and World Fiction with each volume edited by a leading scholar in the field Entries cover major writers such as Saul Bellow Raymond Chandler John Steinbeck Virginia Woolf A S Byatt Samuel Beckett D H Lawrence Zadie Smith Salman Rushdie V S Naipaul Nadine Gordimer Alice Munro Chinua Achebe J M Coetzee and Ng g Wa Thiong o and their key works Examines the genres and sub genres of fiction in English across the twentieth century including crime fiction Sci Fi chick lit the noir novel

and the avant garde novel as well as the major movements debates and rubrics within the field such as censorship globalization modernist fiction and the film industry and the fiction of migration diaspora and exile **The absurd in literature** Neil Cornwell, 2013-07-19 Neil Cornwell's study while endeavouring to present an historical survey of absurdist literature and its forbears does not aspire to being an exhaustive history of absurdism Rather it pauses on certain historical moments artistic movements literary figures and selected works before moving on to discuss four key writers Daniil Kharmis Franz Kafka Samuel Beckett and Flann O'Brien The absurd in literature will be of compelling interest to a considerable range of students of comparative European including Russian and Central European and English literatures British Isles and American as well as those more concerned with theatre studies the avant garde and the history of ideas including humour theory It should also have a wide appeal to the enthusiastic general reader A.S. Byatt Alexa Alfer, 2013-01-18 This comprehensive study of A.S. Byatt's work spans virtually her entire career and offers insightful readings of all of Byatt's works of fiction up to and including her Man Booker shortlisted novel *The Children's Book* 2009 The authors combine an accessible overview of Byatt's oeuvre to date with close critical analysis of all her major works Uniquely the book also considers Byatt's critical writings and journalism situating her beyond the immediate context of her fiction The authors argue that Byatt is not only important as a storyteller but also as an eminent critic and public intellectual Advancing the concept of critical storytelling as a hallmark of Byatt's project as a writer the authors retrace Byatt's wide ranging engagement with both literary and critical traditions This results in positioning Byatt in the wider literary landscape This book has broad appeal including fellow researchers undergraduate and postgraduate students plus general enthusiasts of Byatt's work

Narrative Paul Cobley, 2013-12-04 Human beings have constantly told stories presented events and placed the world into narrative form This activity suggests a very basic way of looking at the world yet this book argues even the most seemingly simple of stories is embedded in a complex network of relations Paul Cobley traces these relations considering the ways in which humans have employed narrative over the centuries to re-present time space and identity This second revised and fully updated edition of the successful guidebook to narrative covers a range of narrative forms and their historical development from early oral and literate forms through to contemporary digital media encompassing Hellenic and Hebraic foundations the rise of the novel realist representations narratives of imperialism modernism cinema postmodernism and new technologies A final chapter reviews the way that narrative theory in the last decade has re-orientated definitions of narrative Written in a clear engaging style and featuring an extensive glossary of terms this is the essential introduction to the history and theory of narrative *Reinventions of the Novel*, 2021-11-01 The history of the Novel is a story of perpetual change so that its identity still remains open to question The sixteen articles in *Reinventions of the Novel* investigate connections differences and similarities in the Novel around the world for the past three hundred years Rather than searching for the essence of the genre they look for the formal and thematic patterns on which the novel thrives considering such matters as tradition and

modernity realism rhetoric and identity tableau and spatiality and wondering whether epic and avant garde are not quite contradictory terms Close readings combined with historical overviews and theoretical discussions open up new constellations in the history of the novel Untraditional cross readings are made between Rabelais and Jens Peter Jacobsen and between Balzac and Nicholson Baker Transformations of traditional modes of epic biography and Bildung are traced as far as Georges Perec and Günter Grass while canonical classics like Proust Joyce Richardson and Goethe are read in prosaic pragmatic and media specific contexts In the 1920s many people predicted the death of the novel now more than ever it seems to be the dominant literary form perhaps because it is the same yet always different

Babylon or New Jerusalem?, 2016-08-29 Today more than ever literature and the other arts make use of urban structures it is in the city that the global and universal joins the local and individual Babylon or New Jerusalem Perceptions of the City in Literature draws a map of the concept of the city in literature and represents the major issues involved Contributions to the volume revisit cities such as the London of Wordsworth Dorothy Richardson and Virginia Woolf or Rilke's Paris but also travel to the politics of power in Renaissance theatre at Ferrara and to deliberate urban erasures in post apartheid South Africa The texts represented range from Renaissance plays to contemporary novels and to poetry from various periods with references to the visual arts including film The role of memory in contemplating the city and also

specific urban metaphors developed in literature such as boxing the square ring and jazz are also discussed The transformation of cities by legislation on cemeteries by lighting or by projects of urban renewal are the subject of articles while others reflect on images of the city in worlds specifically forged by writers like William Blake and James Thomson The contributors themselves live and work in many varied cities thus representing a dynamic and real variety of critical approaches and introducing a strong theoretical and comparative element *Defoe and the Whig Novel* Leon Guilhamet, 2010 Defoe's fictional settings all begin in the reign of the Stuarts but the lack of specificity invariably reflects on the Hanoverian political and social situation which witnessed a crisis in Whig leadership from 1717 to Walpole's resumption of power after the disaster of the South Sea Bubble and the sudden deaths of Stanhope and Sunderland This serious split in Whig leadership probably played a role in Defoe's turning toward fiction But Defoe never abandoned his social and political views This study explores how his social viewpoint actuates his major fiction
