Nuclear Strategy Arms Control And The Future:

Nuclear Strategy, Arms Control, And The Future P. Edward Haley, 2019-03-05 Balanced and comprehensive in approach this text assembles classic statements on nuclear strategy and arms control made by Soviet and U S policymakers military thinkers and opinion leaders during the last forty years Major Soviet statements rarely appearing in translation reflect the disagreement over whether victory or parity is the goal **Nuclear Strategy, Arms Control, And The Future** P. Edward Haley, Jack Merritt, 1988-12-04 Bulletin of the Atomic Scientists, 1985-12 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **The Future: Warfare, military forces and technology**, 1989 **Energy Abstracts for Policy Analysis**, 1989-07 *Rethinking National Security* Frances Scott, 1990 *Future of Strategic Deterrence* Christoph Bertram, 1981-06-18 **Problems of Communism**, 1987 **The future of NATO and European defence** Great Britain: Parliament: House of Commons: Defence Committee, 2008-03-20 This report is presented prior to the NATO Summit at Bucharest in April 2008 and examines the status of NATO in dealing with the security environment that exists in Europe today The situation in Afghanistan offers a key test of the strengths and failings of the NATO Alliance To bring stability and encourage development and reconstruction in this region requires a long term military and financial commitment on the part of the Alliance Failure in Afghanistan may diminish the effectiveness of NATO and undermine allied unity perhaps pushing the United States to question the purpose of NATO itself The Bucharest Summit will have to address a number of issues in respect of Afghanistan including the need to generate sufficient military forces to carry out operations NATO faces broader questions about its role and relevance in the 21st century and the Defence Committee believes it needs to launch a far reaching review of its strategic concept setting forth a future role and purpose NATO s willingness to fulfil a global role is critical to the continued support of the United States NATO has shortfalls across a range of specific military capabilities which are seen as compromising its ability to mount and sustain the expeditionary operations that underpin the Alliance The creation of the NATO Response Force is seen as representing a significant achievement but it needs to be financed out of NATO Common Funding The Committee states that NATO s biggest shortfall is a lack of political will where a large and growing gap exists between the United States and the European members in defence spending The Committee further states that the relationship between NATO and the EU is plagued by mistrust and characterised by unhealthy competition Improving communication and coordination between the two is seen as essential The Committee views NATO as indispensable to the Alliance **Future Survey Annual 1983** Michael Marien, 1984-01-01 **Encyclopedia of American Foreign Policy** Glenn P. Hastedt, 2014-05-14 Presents an A to Z reference guide that examines United States foreign policy *The Routledge Handbook of US Foreign Policy in the Indo-Pacific* Oliver Turner, Nicola Nymalm, Wali Aslam, 2022-12-30 This handbook provides a comprehensive survey of US

foreign policy throughout the Indo Pacific Home to around 60 percent of the world's population most of the world's largest and fastest growing economies around half of the world's states with full nuclear capabilities and a complicated web of unresolved tensions disputes and conflicts the Indo Pacific is arguably the most diverse dynamic and contested region on Earth US strategy there has evolved over centuries with its physical presence going broadly unchallenged since at least the middle of the last century However the rapid development and expanding influence of China alongside the growth of India Indonesia Vietnam the Philippines and others as well as political and economic crises and disruptions within the United States itself mean that in recent times the US has come to occupy a newly uncertain position and perceive a range of highly unfamiliar challenges To explore how the US has managed and continues to manage its regional history and how it approaches the modern day landscape of an Indo Pacific only recently normalised within international political discourse the book contains 33 newly commissioned chapters from leading experts in the field It does so partly with help from the more traditional realms of International Relations theory as well as more critical realms It also unpacks US policy and strategy as it pertains to regional governments states and multilateral institutions as well as to pressing issues including inter state security human rights trade artificial intelligence and cyber strategy It does so in four parts History of the US in the Indo Pacific Theorising US Policy and Presence in the Indo Pacific The US and Indo Pacific States and Institutions The US and Indo Pacific Issues The book is designed to be of interest to students and scholars of the US in the Indo Asia Pacific the international relations of the Indo Asia Pacific and US foreign policy

START and the Future of Deterrence Michael J. Mazarr, 1990-06-18 Examining the future of nuclear deterrence in the 1990s and beyond this book outlines aspects of the evolving strategic environment It also projects the likely future of deterrence strategies and strategic force postures Other topics such as the Soviet nuclear doctrine are also covered

European Peace Movements and the Future of the Western Alliance Walter Laqueur, Robert Edwards Hunter, 1985-01-01 This extraordinary compendium concerns the future of the Western alliance and the development of the peace movements in Europe and in the United States After a long postwar marriage Europeans and Americans alike are reexamining the premises of the Western alliance This volume contributes to this reexamination

US Nuclear Weapons Policy After the Cold War Nick Ritchie, 2008-08-08 This book offers an in depth examination of America's nuclear weapons policy since the end of the Cold War Exploring nuclear forces structure arms control regional planning and the weapons production complex the volume identifies competing sets of ideas about nuclear weapons and domestic political constraints on major shifts in policy It provides a detailed analysis of the complex evolution of policy the factors affecting policy formulation competing understandings of the role of nuclear weapons in US national security discourse and the likely future direction of policy The book argues that US policy has not proceeded in a linear rational and internally consistent direction and that it entered a second post Cold War phase under President George W Bush However domestic political processes and lack of political and military interest in America's nuclear forces have constrained

major shifts in nuclear weapons policy This book will be of much interest to students of US foreign policy nuclear proliferation strategic studies and IR in general *Artificial intelligence and the future of warfare* James Johnson, 2021-09-14 This volume offers an innovative and counter intuitive study of how and why artificial intelligence infused weapon systems will affect the strategic stability between nuclear armed states Johnson demystifies the hype surrounding artificial intelligence AI in the context of nuclear weapons and more broadly future warfare The book highlights the potential multifaceted intersections of this and other disruptive technology robotics and autonomy cyber drone swarming big data analytics and quantum communications with nuclear stability Anticipating and preparing for the consequences of the AI empowered weapon systems are fast becoming a critical task for national security and statecraft Johnson considers the impact of these trends on deterrence military escalation and strategic stability between nuclear armed states especially China and the United States The book draws on a wealth of political and cognitive science strategic studies and technical analysis to shed light on the coalescence of developments in AI and other disruptive emerging technologies Artificial intelligence and the future of warfare sketches a clear picture of the potential impact of AI on the digitized battlefield and broadens our understanding of critical questions for international affairs AI will profoundly change how wars are fought and how decision makers think about nuclear deterrence escalation management and strategic stability but not for the reasons you might think **Bulletin of the Atomic Scientists** ,1985-12 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **Professional Journal of the United States Army** ,1976 **Quarterly Review of Military Literature** ,1976 **Military Review** ,1976
