Pennsylvania Mining Families The Search For Dignity In The Coalfields:

Pennsylvania Mining Families Barry P. Michrina, 2021-12-14 In Pennsylvania Mining Families Barry P. Michrina offers a luminous portrait of Pennsylvania coal miners and their response to economic oppression. He follows them from the great coal strike of 1927 through daily threats of injury and death in the mines to the departure of children and grandchildren as the industry has declined. Drawing on numerous first hand interviews as well as extensive archival research, he analyzes the change in work practices, the miners' own views about their ever evolving situation and relationships between miners and mining companies, undercutting the stereotypical picture of the rebellious miner.

Pennsylvania Mining Families Barry Paul Michrina, **From the miners' doublehouse** Karen Beschler Metheny, 2007 In From the Miners Doublehouse archaeologist Karen Metheny uses an interpretive contextual approach to examine the physical and cultural landscape of the now abandoned coal mining town of Helvetia in western Pennsylvania. The author weaves together documentary sources, oral history and archaeological evidence to reveal the ways in which mine workers constructed a sense of community in this company town from the late nineteenth century to the mid twentieth. As the first archaeological and historical study of a coal company town that focuses upon the strategies its residents used to manipulate landscape and material culture to achieve personal and social goals, From the Miners Doublehouse makes a significant contribution to historical and industrial archaeology. This book will be of interest to scholars in industrial and environmental history, geography and industrial sociology. It will also appeal to general readers interested in coal's history and the Appalachian coal mining region.

Road to Rust Dale Richard Perelman, 2018-03-26 The author of Steel tells the story of strikes and violent unrest amid the mines and mills of twentieth century Pennsylvania and Ohio, including photos. As the twentieth century dawned on western Pennsylvania and eastern Ohio, the region's steel industry faced a struggle for unionism. The industry was plagued by disasters that killed and maimed countless workers, many of them impoverished immigrants from Ireland, Hungary and other nations. In 1906 alone, more than four hundred workers died in steel plant accidents. In response, unionists like Philip Murray, John L. Lewis, Samuel Gompers and Gus Hall began to battle for fair wages, hours and working conditions. Managers like Judge Elbert Gary and Tom Girdler opposed their every move. Tensions from issues of immigration, class, skill and race erupted throughout the industry. The tribulations led to widespread steel strikes directed by the Amalgamated Association of Iron and Steel Workers and the Steel Workers Organizing Committee, and a war that killed scores and injured thousands. In this book, industrial relations expert Dale Richard Perelman charts the struggle and decline of the nation's most prominent regional steel industry.

Two Sides to Everything Shaunna L. Scott, 1995-02-23 This is an oral history and ethnography of miners and their families in Kentucky, focusing on political ideology and working class consciousness. Harlan County, Kentucky emerged in the public eye during the 1930s when poverty, unemployment and violent unionization struggles caught the attention of the national news media and the American people. It burst on the scene again during the 1972-73 Brookside

strike an event chronicled in the Academy Award winning film Harlan County U S A In this book the author brings the American reader up to date on this interesting community by documenting the everyday lives of Harlan miners and their families in the mid 1980s Using a neo Marxian perspective *Two Sides to Everything* characterizes the nature limitations and transformative potential of class consciousness among two generations of Harlan miners It also elucidates the apparent contradictions between popular images of central Appalachians as militant labor activists on one hand and passive traditional fatalistic hillbillies on the other The book accomplishes these tasks through a systematic consideration of the relationship between the central experiential bases and sources of identity among Harlan county miners class kinship community religion and gender
