

A person with long, flowing blonde hair is sitting on a dark, rocky shore. They are looking out towards the ocean, where waves are visible in the distance. The scene is bathed in the warm, golden light of a sunset or sunrise, with the sky and water reflecting the low sun. The overall mood is contemplative and serene.

James Henry Snowden

Present In Spirit:

Reflections on the nature and tendency of the present spirit of the times, in a letter George Burges,1819 **An Impartial Trial of the Spirit operating in this part of the world ... A sermon preached at New London-derry, etc** John Caldwell (A.M.),1742 **The Spirit With Us** Clifford Owusu-Gyamfi,2023-11-09 In this volume the author shows how

the Akan concepts of sunsum and honhom offer a degree of Christian pneumatological similarity providing the avenue for translating and contextualizing the doctrine of the Holy Spirit within the context of the Akan people of West Africa

Miracles, Past and Present William Mountford,1870 **The Spirit of the Church. [A Collection of Articles Reprinted from the "Ecclesiastic," by the Editor.]**,1857 **Daguerreotype**,1848 **The Church of England quarterly review**,1858

Spiritual Life John James (Dean of Peterborough.),1869 **The Mystery of Spirit** George Robbins,2021-02-25 Focusing on techniques of spiritual development and awareness of the presence of spirit in ordinary life Robbins challenges the reader to move beyond spiritual blockages and obstacles and raise the vibrational frequencies that bring us to greater enlightenment This reduces negative emotions such as despair meaninglessness and unhappiness Robbins wants to help us increase our pro social activity thereby contributing to a more open minded service towards others In this book he shows how to use effective techniques for practical and spiritual change while following a path of heart **Automatic Religion**

Paul Christopher Johnson,2021-01-12 What distinguishes humans from nonhumans Two common answers free will and religion are in some ways fundamentally opposed Whereas free will enjoys a central place in our ideas of spontaneity authorship and deliberation religious practices seem to involve a suspension of or relief from the exercise of our will What then is agency and why has it occupied such a central place in theories of the human Automatic Religion explores an unlikely series of episodes from the end of the nineteenth century when crucial ideas related to automatism and in a different realm the study of religion were both being born Paul Christopher Johnson draws on years of archival and ethnographic research in Brazil and France to explore the crucial boundaries being drawn at the time between humans nearhumans and automata As agency came to take on a more central place in the philosophical moral and legal traditions of the West certain classes of people were excluded as less than human Tracking the circulation of ideas across the Atlantic Johnson tests those boundaries revealing how they were constructed on largely gendered and racial foundations In the process he reanimates one of the most mysterious and yet foundational questions in trans Atlantic thought what is agency **Social Structure and Forms of Consciousness, Volume 1** István Mészáros,2010-02 This new work the first in a two volume series by the leading Marxian philosopher of our day is a milestone in human self understanding It focuses on the location where action emerges from freedom and necessity the foundation of all social science Today as never before the investigation of the close relationship between social structure defined by Marx as arising from the life process of definite individuals and the various forms of consciousness is particularly important We can only perceive what is possible by first identifying the historical process that

constrains consciousness itself and therefore social action The relationship between social structure and forms of consciousness discussed in this volume is multifaceted and profoundly dialectical It requires the presentation of a great wealth of historical material and the assessment of the relevant philosophical literature from Descartes through Hegel and the Liberal tradition to the present together with their connections with political economy and political theory István Mészáros moves beyond both abstract solutions to the surveyed methodological questions and one sided structuralist evaluation of the important substantive issues bringing the process of our understanding of social structure and consciousness to a level not previously attained Above all in the spirit of the Marxian approach even the most complicated problems are always analyzed in relation to the major practical concerns of our time The primary aim of this work is to outline the dialectical intelligibility of historical development toward a viable societal reproductive order *Social Structures and Forms of Consciousness* is of the highest importance as both a political and philosophical work illuminating the place from where we must act today

Discourses on important subjects Rev. Robert FERGUSON (LL.D.),1853 *The World a Spiritual System* James Henry Snowden,1910 **Funeral addresses [tr. by the author].** Samuel Roberts,1880 **The Phenomena of Spiritualism** Asa Mahan,1876 *The Westminster and Foreign Quarterly Review* ,1849 **Mediatorial Sovereignty** George Steward,1863 Sermons on Public Worship, Suited to the Times Samuel Nott,2024-05-27 Reprint of the original first published in 1843 **Teaching for Spiritual Formation** Kyle R. Hughes,2022-01-06 In *Teaching for Spiritual Formation* church historian and experienced Christian educator Kyle R Hughes advances a fresh vision of Christian teaching and learning by drawing upon the riches of the Christian tradition synthesizing the wisdom of the early church fathers with contemporary efforts to cultivate a distinctively Christian approach to education Of interest to a wide range of Christian educators this book examines how the writings of five significant church fathers can illuminate our understanding of the vocation of teachers the nature of students the purpose of curriculum decisions about pedagogy and how spiritual formation works Besides reimagining these aspects of Christian education Hughes also offers habits and practices that can help bring this vision of Christian teaching and learning to life challenging Christian educators to sharpen their approach to the integration of faith and learning in practical and accessible ways *Threshold of the Spiritual World* Rudolf Steiner,1994
